NUMBER 10.

AS TO THAT SCHOOL DECEIT. Appears To Have Been Complication Given Six Months Subscription of Decisions by State Officers.

Last week we enumerated some of the trials and tribulations of the school patrons in lower Cape Fear township as to the proposed school election for the consolidation of distriets and the establishment of a junjor high school at or about Brickhaven for which an election had finally been

Since that issue we have had a conversation with superintendent Reid Thompson. Mr. Thompson has in his possession a letter written by A. T. Allen, the state supefintendent of ablic instruction, to Mr. T. B. Bray, Chairman of the local board of education, dated July 14, in which he says: "I call attention to section 73-a of the new school code, which requires preparation for a county wide plan before consolidation of any kind can take place."

Mr. Thompson has another letter dated July 24, in answer to a letter he had writen to James S. Manning, attorney general of the state, after the Allen letter had been received. The Manning letter says: "This office has ruled that since the new school code became effective, consolidation of new school districts in the county must be in accordance with section 73-a of the code."

So it appears that the call for the election consolidating Truth, Cross, Corinth and Brickhaven is proper in every detail but lacks considerable authority as to whether it will operate or not. Mr. Thompson evidently is within his rights of decision from first to last and will no doubgt be upheld in it. It appears that he acted on the best of motive, and it would be far better to stay the matter until something definite can be accomplished.

As to the placing of the advertising in a Siler City paper this seems to have been done by county attorney ey Wade Barber at the suggestion of the county commissioners. This in itself would make the election illegal, because the school code plainly says that the advertisement must be inserted in some paper generally circulated in the territory involved. It is rather a small thing to take up, but the principle is of great magnitude and thoroughly demonstrates that Wade Barber i stoo small a man to hold public Mr. C. G. Sharpe is now ready to office. If animosity and hatred will move into his new store. He has just force a man to do little things of this completed an ice house and is keepkind that would jeopardize the best ing ice at all times. Mr. Sharpe has interests of a good people, then he is also made arrangements for a barnot suitable to represent them.

This same man Barber is now on to voting next November.

The opinions offered by the state al opinions expressed or else there was At any rate the folks in the proposed district are wasting time to from Sanford will be there all through register and vote because the proposition will never operate. The Record regrets this because this paper was thoroughly in accord with the unplan to be carried out.

MISS HARRIS WINS PRIZE.

Winner in Puzzle Contest.

Miss Ruth Harris, Rt. 1, Bynum, N. C., is awarded the prize of six months subscription to the Chatham Record by Joe Snyder. Miss Harris sent in the best prepared solution of all of them, having drawn a splendid diagram of the sign, painting it in blue background and making the letters white, with the correct title, which is as follows:

A number of young people answered this puzzle. There were 29 answers in all and every one of them had the wording correct: "No Parking." Samuel Gunter, of Fayetteville, was another young friend that had drawn a good design and painted it but he made the lettering red instead of white. The drawing was not necessary to an answer but the scheme appealed to Snyder and the award is made on preparation and arrangement. Miss Oda Ferguson, of Teer, deserves mention also. She submitted a diagram but the background was left white, encircled with a blue marking.

We appreciate the great interest that is being taken by the young folks in tese contests and we shall offer another one in our next issue.

The Record notices that in one back lot within 100 feet of the business section of Pittsboro, weeds 12 feet high are allowed to grow. An ounce of prevention is worth its weight in gold. CRIMINAL COURT PROCEEDINGS Adjournment Called on Thursday Afternoon-No Civil Actions.

Superior Court for Chatham county the civil cases having been continued by the court.

In the ten days that the court was turn to her home i in session seventy-five cases were disposed of by solicitor Clawson L. Williams, despite the great amount of time consumed by lawyers on frivo-lous argument. This is a splendid rec-ord, an average of seven and a half cases each day. Very few solicitors could have accomplished this fact, especially with a new judge on the bench.

Some provision should be made by the legislature to prevent lengthy arguments by attorneys on frivolous affairs, thereby wasting the money of tax payers who assume the costs of the courts. At present arguments are limited to two hours only, but in a great many instances only ten minuets would be required. The solicitor uets would be required. The solicitor for good, for they did not do two-offered to submit some of the cases thirds of the work that Mr. Wilson tried, but this was declined by counsel for defense.

There is a significant fact, however, to the record of Clawson Williams as solicitor. That is, more money has been paid to the school fund in Chatham county since he has been solicitor than has been paid out by the commissioners in the insolvent list.
