# McLEAN MAKES GREAT SPEECH AT PITTSBORO ON TUESDAY

DEMOCRATIC CANDIDATE F OR GOVERNOR CAME AI-MOST UNHERALDED BUT HEARD BY REPRE-SENTATIVE BODY OF BEST CITIZENS.

SPEECH STRONG, EFFECTIVE

Makes Unanswerable Presentation of Achievements of Democratic Party.

The fiction that A. W. McLean is not a speaker was exploded here Tuescandidate for the governorship held a small but representative audience thoroughly interested long enough to review many achievements of the Democratic party in the State and to answer completely the contentions of Candidate Ike Meekins.

He was introduced by Mayor A. C. tary of the treasury and as a member of the War Finance Board, a period when more money was handled by those two departments than ever a like priod and came out untainted by oil or any other form of known to all men.

McLean launched forth with very little preliminary. He declared that the people are inclined to be too indifferent to the ballot, which is a thing as the pople in America are the sovereign and the ballot is the means of asserting that sovereignty. It is the duty of the citizen not only to cast his ballot but to do so only after having dilligently considered what is best for the country and the people. Party government is necessary in America. How reach a conclusion as to how to vote? As a tree is known by its fruits, so is a party by its record. It has been the aim of the Democratic party to bestow as great benefits as possible upon the people with the smallest possible bur-

The Blessings of Government. The speaker here reviewed the achievements of the state government Democratic administrations. He first cited the record as to education.. When the Russell regime closed twenty four years ago, the public school funds for the year totaled a million dollars; they now total thirty millions. The school property of the state 24 years ago was worth a million, now 64 millions. One teacher schools have been replaced by the large consolidated schools-the one room building by fine brick structures. The goal is not yet reached, but the state will go foward under Democratic rule till North Carolina has as good a school system as any on the face of the earth. The rural children must have every whit as good advantages as those of the city. These things have vantages are provided. But the poorer people pay only a small portion of ers. the school taxes. A small property owner complained of his taxes being twice as high as in former years. Yet when shown that he was getting ten times the amount of his taxes in the cost of educating his six children and that the value of his property had trebled during the period of high taxes, he declared he should never utter another word of complaint.

He next cited the value of the great health system in the state, Epidemics of typhoid diptheria, the prevalence of hook worm and other contagious diseases have almost been eliminated. North Carolina is heralded far and wide as having the highest birth rate and the lowest death rate in the world. There are more baby cradles and fewer coffins in North Carolina than among the same number of people anywhere else. Foreign experts come to North Carolina to study its health system. The National board borrowed Dr. Rankin to teach other states how it is done. These blessings have come through the Democratic

The deaf, the blind, and the feebleminded, the crippled children and the bad boys and the fallen girls have been provided for, and the institutions for these classes are doing untold good. Everyone who can see what is being achieved in these respects must be a better citizezn and love his state and his party better.

Similarly, the agricultural work has placed the state at the head. The State makes the best crops, and sold for the highest prices till the Republican administration smashed prices. Yet Mr. Meekins claims credit for all of these things for the Republican party. It should make a horse laugh. We spent an hour at the Siler City Fair Tuesday afternoon. It started off with a good attendance and some splendid exhibits and from what we lean was quite a success this time. We congratulate the Brickhaven school and community which took two Blue Ribbons on their exhibits.

A son arrived at the home of Mr. and Mrs. Walter Williams last week. This is a grandson of our neighbor, Mr. J. W. Williams.

Many people in this community will be interested in hearing of the marriage of J. A. Jones and Miss Gertrude Yearby at the home of her mother in Raleigh on last Saturday.. A simple but impressive service was conducted by Rev. Charles L. Greaves of the Tabernacle Baptist church, where Miss Yearby had sung in the choir for some time..
