COLORED TEACHERS MEET.

(Reported by T. V. Crump.)

On Saturday, December 6th, a county wide meeting of the colored teachers was held at the public school at Pittsboro.

The meeting was called to order by Rev. G. C. Roberts, president of the Chatham County Colored Teachers Unit.

My Country 'Tis of Thee was very spiritually sung; prayer; the 1st Psalm and Holy, Holy, Holy, formed the devotional exercises.

The officers of the previous year were all re-elected with a few changes here and there. After the organization was perfected, our superintendent gave the teachers food for thought and an inspiration in the work for the year, and what is expected of them as teachers in the community in which they are placed. The teachers are placed in groups, as they were last year, and so the Reading Circle work will be made convenient to all.

On the whole the meeting was very inspiring and we have a very bright outlook in the future for better training of our boys and girls, if one could look at the teachers present and prophesy.

We have several new teachers and we bid them welcome and may their stay be long and useful.

Both were married.

The Secret of Getting On Is Getting Started

Too many people are discouraged by small beginnings. They would like to start off with \$10,000.00 They lack the vision to see that even \$100.00 is a \$10,000.00 start. One 6% First Mortgage Real Estate Bond, for example, secured by first mortgage on income-earning properties, and guaranteed as to interest and principal, is more capital than half the rich men of this country had to begin with. But they enjoyed one great advantage over the average mind—

THEY GOT BUSY!
