This is forest week. If Chatham folk can do no more, let them resolve to spare the saplings. We see "logs" cut that indicate that some folk are sinning against the next generation.

The Shenandoah Valley of Virginia was blanketed with nearly a foot of snow Sunday. The winds from that direction Monday and Tuesday sent shivers through Pittsboro, while the frost of Monday night did damage to garden truck and endangered the hitherto fine prospect of fruit.

Judge Frank Daniels is running again for the judgeship of this district. He has no opposition. Judge Calvert of the Raleigh district is not so fortunate. Judge W. C. Harris of the Raleigh city court and Col. W. M. Pearson are out after his scalp.

Mauna Loa, the noted Hawaiian volcano, gulped up enough lava Sunday morning to overflow a village and pour into the ocean and set its waters boiling.

Where is Brother Shacklette? Interest in his proposed statement has not abated. There is more or less of feeling that Shacklette has not had a fair deal. It is considered unfair to hold him responsible as a trouble-maker and slanderer when it seems that he was merely reporting what had come to him for what it was worth.

Senator Overman has little to fear. There are enough voters in the state who do not know a thing about either him or his opponent and who will ask when they come to vote "Who now has the job?" to turn the tide in his favor, even if Reynolds could hope to have helpers at as many precincts as the senator will have with out the asking.

This week 61 years ago the boys were going home after the surrender of Johnston's army near Durham. The thought of Johnston makes us wonder why it is that he is not more glorified by the glorifiers of everything Confederate.

Paul D. Grady Formally Announced As Candidate For Solicitor of Fourth District

(The Smithfield Herald)

The friends of Senator Paul D. Grady of Kenly have formally announced his candidacy for Solicitor of the Fourth Judicial District composed of the counties of Johnston, Wayne, Chatham, Harnett and Lee.

Senator Grady is well known in the district and has represented Johnston county for a number of years in the legislature having served in both the House of Representatives and the Senate. As a member of the legislature he has made a favorable impression not only on the people of his county early childhood and the people of Johnston have known him and on numerous occasions have met him in the district but of the whole state, and in recognition of this he has at during the last session of the Senate he was chairman of the Judiciary Committee No. 1, an appointment that carries with it a very distinct compliment to the legal ability of the person appointed to preside over this committee composed of the leading lawyers in that body.

Senator Grady received his education in the public schools of Johnston county, Oak Ridge Institute and Wake Forest College and studied law at Washington and Lee University. He received his license to practice law in 1911 and has since that time been engaged in the active practice of the law, however, he has not confined his activities to the law as he continues to live in the country where he has a beautiful country home near the town of nance and Appropriations and in recognition of his long service in the legation and industrial activities in his community, and has always taken an especial interest in educational affairs serving his community as chairman of the board of trustees of Kenly high school. He is a Presbyterian and is the teacher of the Bible class in the Presbyterian church in Kenly. He is a 32nd Degree Mason, Shriner, Odd Fellow, Woodman and Jr. O. U. A. M. and takes an active interest in the fraternal affairs in his community.

Paul Grady was born at Seven Springs in Wayne county and his father Dr. J. C. Grady practiced medicine there and at Mount Olive in Wayne county and his candidacy will appeal strongly to the people of Wayne county because they feel that it is one of their own sons and that any position of honor or trust coming to him will be a compliment to the good county of Wayne that gave him birth, and his friends and relatives all over Wayne county will rally to his support. Johnston county has been his home since Kenly and he takes an active interest in agricultural affairs. He has also on numerous occasions have imposed upon him positions of honor and trust and as evidence of the manner in which he has met these obligations they nominated him for the State Senate in the last primary without opposition. The people of Johnston county therefore present his candidacy for Solicitor to the people of the other counties composing the Fourth Judicial District with the full confidence and assurance that whatever duties and obligations they may impose upon him will be met and discharged to the fullest measure of his ability, and for his candidacy they bespeak the kind and favorable consideration of every citizen of the district in the approaching primary.

CONSTANT CURLING AND WAVING RUINS HAIR

Girls just must curl and wave bobbed hair to appear their prettiest. But constant curling and waving burn and dry the luster, vitality and very life from the hair. To offset these bad effects, just get a 35-cent bottle of delightful, refreshing "Danderine" at any drug store or beauty counter and just see for yourself how quickly it revives dry, brittle, lifeless, and falling hair. "Danderine" is a dependable tonic and will do wonders for any girl's hair. It nourishes, stimulates and strengthens each single hair, bringing back that youthful gleam, glint and vigorous luxuriance. Falling hair stops and dandruff disappears. "Danderine" is pleasant and easy to use.

Ford Highest in Quality Lowest in Price. The finest steels available are used in the manufacture of Ford cars. The plate glass for windshields and windows is as perfect as can be made. Upholstery material contains a larger percentage of wool than is ordinarily specified—even for much higher priced cars. The basic features of Ford design have never been improved upon by any manufacturer. No other car offers greater dependability. The Ford car has won the favor of millions of users under every conceivable motoring condition. Its convenience is known and appreciated the world over; its performance is taken for granted. Such quality is possible at Ford prices because every operation, from mining of ore to final assembly, is under direct control of the Ford Motor Company. Iron is taken from Ford mines in Michigan; coal from the Company's mines in Kentucky and West Virginia. Glass comes from Ford glass plants; wood from the Ford timber tracts in the North. Raw materials and finished products are carried over the Company's own transportation routes; coke ovens, blast furnaces, a steel mill, foundries and saw mills—all are part of this complete organization. There are even salvage plants, paper mill, cement plant, etc., to transform waste materials into useful by-products. In this way every possible economy is effected. Under no other circumstances could Ford quality be had at Ford prices. Features That Maintain Ford Leadership: All-Steel Bodies, Planetary Transmission, Torque Tube Drive, Dual Ignition System, Thermo-Syphon Cooling, Simple, Dependable Lubrication, Three Point Motor Suspension, Multiple Disc-in-Oil Clutch. FORD MOTOR COMPANY, DETROIT, MICHIGAN. NEW PRICES: TUDOR SEDAN \$520, RUNABOUT \$290, TOURING \$310, COUPE \$500, FORDOR SEDAN \$565. Closed car prices include starter and demountable rims. All prices F. O. B. Detroit. TWENTY-TWO YEARS OF LEADERSHIP.
