#### LEGISLATURE IN SESSION

Economy the Talk, But No One Willing to Curtail Progress.-Senator Horton Gets Important Chairmanship

The legislature assembles Wednesday at noon. This session was preceded the evening before by a caucus of the Democratic members of the House to dccide upon the speakership. Harnett. It had been supposed that present. the contest would be long drawn out, Mr. as as Fountain and Connor both claimed near a majority, while Townsend, who lina, visiting relatives. had been engaged in budget work and had not had time to devote to his can-didacy, had a faithful following and hoped apparently that he might be the beneficiary when the friends of one of the other candidates broke afrom their man. But on the second ballot enough of Connor's supporters turned to Fountain to give the um route 1. Edgecomb man the prize. We are s

Fountain is reported as a new man in the house, and his victory is, therefore, all the more surprising. His address of acceptance was to the point. He said that the people are received the taxes sorely, and indicated that he favors strict economy.

The Lieutenant Governor already had made his committee assignments and was ready to report them. Senator W. P. Horton gets the important chairmanship of Elections, and has been assigned to several other important committees.

The House did nothing more the first day than organize. But Dr. Hart, member from Anson, gave the good advice that the house begin the economy regime at its own door her madue ing the usual number of clerks and other job holders. It is reported there were ten annicants for job. Lieutenant Governor Long had aiready planned a \$10,000 reduction in senate expenses.

The Governor's Address Governor McLean addressed the two houses in joint session Wednesday evening. The essence of his address as given by today's Greensboro News is as follows:

## Walking on Water

It is possible to walk on water. or at least on the surface of Lake Magadi, Kenya colony, Africa, because of the thick crust of carbonate of soda, commonly known as baking soda, which covers the lake's surface. This lake, which is fifteen railes long and four miles wide, even at the height of summer has the appearance of being completely frozen over. The lake is impregnated by sodium carbonate, in the same way Great Salt Lake water is full of said.

#### Ancient Spanish City Holds Open-Air Court

Justice, swift and certain, is meted out every Thursday morning at the Tribunal de las Aquas, or the Court of the Waters, in the Spanish city of Valencia. The courtroom is the pavement, open to the blue sky, and has been thus for five centuries. The judges' bench is a sofa, appearing from some mysterious hiding place, and a portable iron railing provides the bar of justice. There are seven judges. The plaintiff makes his statement, then the defendant states his side of the case. Any interruption brings a fine. One judge announces the verdict and there is no appeal from the decision: Neither the government of Spain nor that of Valencia has any part in the court, yet they honor its acts. None of the decisions is ever recorded and no lawyers are permitted to appear before the judges. -National Geographic Society Bul-

The Moncure Mill & Gin Co. has gone into a temporary receivership. There is to be a hearing Tuesday, Jan. 4, to decide whether the receivership is to be permanent. At present we do not have any official figures, but it is rumored that the indebtedness of the company is very great.

The Moncure branch of Banking Loan & Trust Company has been consolidated with the nome office at Sanford. Mr. Cunningham, the president, states that business at this branch did not justify the expense of a separate office and that the Bank could render the same service more economically. He also stated that the services of the cashier at the local bank had been entirely satisfactory.
