GOOD NEWS FOR MOTHERS.
A FRIENDLY FIGHT.
BE READY FOR WAR.
COLLEGES AND MEN.

Dr. Aycock, chief of Harvard's Infantile Paralysis Commission, reports that the paralysis germ has been classified, and a suitable animal is sought to produce an antitoxin. Dr. Aycock agrees with Doctors Flexner and Nougton, of the Rockefeller Institute, that the germ is so small that it would pass through any filter that can be made.

Some horse or other animal will supply the right serum for anti-toxin, and then anti-vivisectionists will roar and another heavy load of fear will have been lifted from the hearts of mothers.

The big automobile fight, expected when Ford starts rolling out his new cars, will be a friendly enemies' fight, according to Alfred Sloan, Jr., president of General Motors.

Ford will make a good car, of good value per dollar of price, and will sell a great many of his new cars. General Motors will continue to sell great numbers of its cars in the various price fields.

The real fight will be, as it should, to increase quality, while cutting cost of production and giving the public the benefit of lower costs.

Another permanent fight is to make the public understand that a motor is as much a necessity as feet and hands.

A busy man should have his car always at hand, to save his time. A family needs two cars, at least, and that means no extravagance, for time is worth saving, and, unlike horses, cars do not eat when idle.

This country needs 30,000,000 cars now, and, allowing five years life for each car, that means 6,000,000 new cars a year indefinitely. There will be plenty of business for the man able to make the right car for that car's right price.

Mr. and Mrs. Joseph Mack, arrested for kissing in a car, recovered \$3,675 damages when they proved they were married. Demonstrations of affection in public are forbidden because they are vulgar, or supposed to be, and set a bad example. Would Mr. and Mrs. Mack have gone to jail had they kissed ten days before their marriage?

General Sumnerall tells the country to be ready for war and warns "three months' delay may be fatal." In Europe, it is said quite calmly that "Germany will probably not go to war with Poland before 1932."

If the world goes to war again it will prove its insanity. But it has done that often. This country doesn't want war, but sometimes it can't be avoided.

The United States should be ready, in the air and below the water especially. And there should be a separate Cabinet officer, with complete control under the President, of the national air forces, interested in nothing but that air force.

International Harvester Company has a machine for picking, stripping and cleaning cotton that will do away with old-fashioned hand picking.

That will cut the production cost of cotton down, for the "stripper" will strip five bales of cotton a day with only two men on the machine.

If accurate, that news is more important even than any other news this week. It might temporarily demoralize the Southern labor market, but will enable American cotton growers to compete with cheap labor in Egypt, the Sudan, India and elsewhere.

President Lowell, of Harvard, gives this good advice: "Don't take advice too seriously." He tells young men they must educate themselves. "A college can't educate the student. Teachers can hand you knowledge, but can't make your brain digest it."

The worst of college is this: A half-baked boy lives surrounded by other half-baked boys, when he ought to be living among men, learning to be a man. He takes himself, the other boys and their opinions seriously. An able educator says: "A boy needs ten years to get over the harmful influences of college life."

PIRATE PETS

Lloyd and Paul Waner of Oklahoma, famous baseball brothers of the champ Pittsburgh Pirates—both of whom are deadly with the bat. Insert, Manager Donnie Bush, who piloted the Pirates to a title his first year in charge

Old Trails Marker

"Madonna of the Trail," sculpture by A. Leimbach of St. Louis, has been selected by Daughters of the American Revolution to mark National Old Trails. Twelve of these markers, each 18 feet tall, will be placed, one each, in Maryland, Pennsylvania, West Virginia, Ohio, Indiana, Illinois, Missouri, Kansas, Colorado, New Mexico, Arizona and California.

It is said that "We are born liars" — but that is no reason that we have to stay like we are born.

Another Jersey Mystery

Mrs. Sallie Haglestein, Iowa Park, Tex., who has broken up two home-brew parties of servants on her property, once being sent to a hospital to stop the flow of blood when cut by flying glass as she demolished bottles.

First posed photograph of Mrs. Margaret Lilliendahl, widow of slain aged physician husband, who was murdered in his car on a lonely road, she thinks by drug addicts.

CROSSING TAKES HEAVY IN LIFE AT PARKERSBURG

Parkersburg, W. Va.—Three persons were killed today when their automobile was struck by a Baltimore and Ohio railroad passenger train at Washington bottom, near here.

The dead are Dr. and Mrs. E. W. Ferguson and Mildred Clark, all of Parkersburg. Three others were injured, none seriously, among them Mrs. W. Merritt Taggart, of Orlando Florida.

New Dry Chief

Dr. F. Scott McBride, who succeeds the late Wayne B. Wheeler as general Superintendent of the Anti-Saloon League, with headquarters in Washington.

Has Own Dry Law

Mrs. Margaret Lilliendahl, widow of slain aged physician husband, who was murdered in his car on a lonely road, she thinks by drug addicts.

Our Practical Pattern No. 1225

Smartness and simplicity are the keynotes of this new fall frock, which is suitable for either sports or street wear. The vestee effect on the blouse and the smartly pleated skirt are features easily carried out.

For best results, we advise a fall sports material, such as jersey, kasha, wool crepe or one of the new soft tweeds. All of these would be decidedly good-looking in the new fall shades of beige, brown, gray or even the dark reds or blues. However, in black satin or faille silk, with a white flower and patent leather belt this style is stunning.

No dressmaking experience is needed to make this design. A perfect fit in every size is guaranteed. May be obtained in sizes 16 to 44. Size 36 requires 2 1/4 yards of 54 inch material. Patterns will be delivered to any address upon receipt of 25c in cash or U. S. Postage. Always mention size wanted. Address Pattern Dept., this newspaper.

Tank Aviation Record

Capt. S. C. Brett, U. S. Army, holds the unusual record for altitude in a 5-ton army tank. His job is to ride over TNT bombs to see how high they will blow the tank. 5 feet is the record.

The Jewish Lick

IT'S ONE THING TO KNOW WHEN YOU ARE LICKED— AND ANOTHER TO GET SO USED TO IT YOU DONT MIND—
