

BRICK HAVEN NEWS

Miss Ruth Kennedy of Winston-Salem spent the week-end here with her parents, Mr. and Mrs. O. C. Kennedy.

Mr. J. C. Seawell and Miss Cecil Seawell accompanied by their sister, Mrs. J. F. Calfee of Raleigh, were week-end guests of relatives of Carthage.

Mrs. O. C. Kennedy spent several days last week with her parents, Rev. and Mrs. C. L. Dowell of Fortville.

Messrs. Z. B. Utley and C. H. Marks were among the Chathamites who were called to Raleigh last week in connection with the notorious flooding case.

Tom Thompson and Sam Overby both of whom have been quite ill recently, are now able to be out.

Little Jewell Overby has also been on the sick list, having been out of school the past week. She expects to resume her studies today.

Mrs. A. L. Lawrence, Mr. J. H. Lawrence and Miss Anne Utley were among the visitors to Raleigh the past week.

Mrs. C. H. Marks charmingly entertained the members of the Junior C. E. on last Tuesday evening. The youngsters proved an appreciative group.

Mrs. Kennedy the idol of the small youths and in whom they recognize a kindred spirit—was the honor guest of the occasion.

Equally delightful and enjoyable was the old-fashioned candy party—on Friday evening for the Intermediate C. E. also given at the home of Mrs. Marks.

Games and contests kept things lively—then came the most fun of all—pulling the candy—and the of course “the proof of the pudding is in the eating.”

It was truly a merry occasion and the guests left at a late hour. The success of this monthly C. E. social was due to the work of the social committee comprised of Miss Pauline Brown, Mrs. Claire Harrington and Mrs. P. H. Overby, and the sincere and spontaneous hospitality of Mr. and Mrs. Marks.

Mr. Sam Utley of Mt. Gilead, spent Sunday here with his mother, Mrs. J. W. Utley.

FATAL ACCIDENT NEAR GULF

Mr. W. W. Devereux, of Gulf, died in a Sanford hospital Wednesday of last week as a result of being run over by an automobile driven by Robert Osborne.

The accident took place about a mile below Gulf Tuesday night. Devereux waded the car down, but Osborne, fearing it was a hold-up, speeded up his car and tried to pass around the man.

The latter however, blinded or otherwise confused, kept in front of the car and was run over. Osborne drove on up to Gulf, got Dr. Palmer, and returned to the scene of the accident.

Mr. Devereux was still living, but taken to the hospital he passed away the next day. Two other motorists related that a man filling the description of Devereux tried to stop them earlier in the night.

At this writing no reason has been heard for the dead man's being on the road. His wife is the postmistress at Gulf, and as they lived in the village it would seem unreasonable for Mr. Devereux to remain only a short mile or two from home awaiting a ride.

A coroner's inquest was held in Sanford and Osborne was exonerated.

MR. PAGE EXPECTS SOME FUN.

(Monroe Journal)
Through the Sandhill Journal we learn that Mr. Henry Page, a man who has cut considerable figure in the public life of the State, expects to see some fun in case Governor Smith is nominated at Houston.

We confess to having labored somewhat of a similar feeling. If Smith is nominated we will have a campaign with some life in it. If a colorless candidate is nominated we will have a flat campaign and the Republicans will take the election with the usual majority. She Sandhill Journal reports Mr. Page as follows:

A few days ago there was a story in one of the state dailies to the effect that Mr. Henry Page was in favor of Governor Al Smith as the Democratic nominee for president.

We were talking to Mr. Page about this and he gave us his views concerning Governor Smith and what he thought of the coming election.

“I'm in favor of Smith as the Democratic nominee for several reasons,” stated Mr. Page. “I think he is a strong man and the best of the Democrats. However, aside from his ability, I want to see him nominated because of the fun I would have out of it. I want to see what all these people who are so bitter against him now will do when it comes time to vote. Their voices will be raised in opposition just a little less each day the election approaches. Finally when they go to the polls they will have a mental struggle with their denominational bigotry and their political prejudice with the result that the political prejudice will overcome and they will vote a straight ticket. Smith will carry the South just like any other Democrat would but there is no telling what the doubtful states, or ones like Pennsylvania and Massachusetts will do. I think he would have a very good chance of being elected. Whatever happens I am going to have a lot of fun out of the election if he is nominated.”

THREE FIRES THIS YEAR

Mr. J. W. Oldham, of the Goldston section, has been burned out three times since Christmas. He is a tenant. Each fire has started on the roof or in the loft, indicating that he was not unduly careless. The people of his community had given him some household goods after the second fire. Last Saturday the third house went up in a blaze. It belonged to Mr. N. F. Barber, of Goldston. That time a bed and a few chairs were saved. Mr. Oldham would seem to have the record for burnings.

Dr. Frank Crane Says

How To Learn

A school teacher in one of Dickens' stories has a pupil study the spelling of botany and then go out and work in the garden.

Thus the spelling is impressed upon his mind.

He wasn't much of a school teacher but his idea was sound.

The best way to learn is to learn from doing.

All knowledge is connected with life. The way to learn a language is to connect every word with something you actually do or see.

In other words, language is to be connected with life and not with literature.

There was a meeting held the other day in one of our cities to discuss the enabling of students to earn while learning.

Representatives of forty-two States of the Union and one from Canada were present. Nicholas Ricciardi, President of the National Association of Vocational Education, said:

“Under the present system, students are taught various vocations, from watchmaking to hair dressing, during their high school terms. When they graduate from high school they are permitted to hold a position. In junior college they are permitted to work at remunerative employment during the mornings and attend classes during the afternoon. They can continue their education on thru

college, and then their earning power will be sufficient to pay their expenses and enable them to actually save money.”

This plan is already actually carried out at Antioch, a small college town in Ohio, where the business men cooperate with the college and the student works part of the time and studies part of the time. Thus while at Princeton the average yearly outlay for a son is estimated at \$1,500, while at Antioch the average freshman needs only \$400 besides his earnings.

The vocational aims of students include agriculture, architecture, art, business, engineering, medicine, economics, law, etc.

The average weekly wage while pursuing these courses is \$22 in the freshman year and \$35 in the senior year. They complete the Antioch course in five years.

Thus the student has already learned the most important thing in an education, that is, how to take care of himself.

When a man works his way thru college he appreciates what education he gets, just as a horse is healthy because he has to walk after every mouthful he eats.

Business men in every community ought to cooperate with the schools in assisting boys and girls to get a practical education.

TODAY

LOST LABOR SAVING MACHINES.
EMPLOYMENT FOR ALL.
THOMAS EDISON A YOUNG MAN.
17,000 YEARS FROM STONE AGE.

“If a drop of salt water could talk it would tell the whole story of the Pacific.”

One Santa Fe freight train going through Kansas City yards to Kansas, Oklahoma and Texas grain fields told the story of progress and prosperity in this country and promised a solution of its labor problem, aggravated by immigration restrictions.

That train of thirty-one cars carried \$250,000 worth of “Combine Harvesters” and will soon be followed by a thousand carloads of those labor-saving machines. They cut grain, thresh it, pile up the straw, delivering the grain in sacks or by spout to miniature grain elevators. In Kansas last year they saved the work of 40,000 men.

Thomas A. Edison says he is really 162 years old because he has done two days' work every day of his eighty-one years.

He did ten thousand years' work when he changed man's lighting system from kerosene to electricity. His habit of working two days in one accounts for the fact that mentally he is forty not eighty-one.

An active mind stays young in man or woman.

Women grow old prematurely because badly organized civilization gives them nothing to do except talk and dress when their children are

Employment conditions are not satisfactory in New York State and Governor Smith instructs public officials to help “take up the slack” by putting men to work on public enterprises.

That should be, automatically, a part of National and State programmes.

A farmer finds something for his farm hands and his own hands to do in winter, when crops are in. A good farmer keeps his house at work earning their keep in winter, hauling wood or other wise.

National and State governments, all needing roads, canals, drainage, all sorts of improvements, should find work for everybody willing to work, and at decent pay.

Thomas A. Edison says he is really 162 years old because he has done two days' work every day of his eighty-one years.

He did ten thousand years' work when he changed man's lighting system from kerosene to electricity. His habit of working two days in one accounts for the fact that mentally he is forty not eighty-one.

An active mind stays young in man or woman.

Women grow old prematurely because badly organized civilization gives them nothing to do except talk and dress when their children are

grown.

Eskimos within reach of civilization sell their valuable furs to white traders and wear coats of leather and cheap ready-made suits.

They can sympathize with some farmers that sell cream and butter to cities and eat oleomargarine.

“Flaming youth,” dancing, drinking or shooting worries other countries also. Lawyers from Japan, France and Britain are watching a Berlin murder trial. Hans Krantz, aged nineteen, helped his young friend, Scheller, and Scheller's sister, Hildegard, to pass an evening pleasantly with dancing, tobacco and much drink. Hildegard, only sixteen smuggled a friend, Otto Stephan, into her bedroom and Hans, attached to Hildegard, told the girl's brother he ought to kill Stephen. He did it, then killed himself.

The question is, did Krantz commit murder when he told his friend, “Avenge your sister's honor by killing the man”?

Americans talk today of many things—prosperity, politics, assorted crimes, sports.

News that will interest future generations is the fact that actual moving pictures of human beings were sent through the ether without wires, across the Atlantic Ocean.

Human beings actually saw each other, separated by three thousand miles of water.

If that is done by a race only 17,000 years from the Stone Age, who can doubt that a million years hence our race will see pictures coming

through the ether, of life on other planets.

MARRIAGE LICENSES

The following white couples have secured marriage license during February:

Alfred Jordan and Annie Newell, Siler City; Geo. W. May and Myrtle Crutchfield; B. C. McLaughlin and Virtie Marley, Siler City; Vann Oldham and Ethel May Key; Tim S. Griffin and Ollie Fields, Pittsboro. Rt. Three; E. R. Phillips, Bear Creek and Myrtle Jefferson, Goldston; Luther Eubanks and Mary Stanly, Pittsboro.

Colored couples: Atlas Cramer and Jessie Fox, Mt. Vernon Springs; Frank McCrimmon and Creola Bass, Siler City; John H. Headen and Agnes Matthews, Siler City; Eben Palmer and Essie Creecy, Goldston; James A. Crutchfield and Beaman Lambert, Haywood; Jackson Saunders, Raleigh and Mary Slade, Moncure.

Thirty-six of the 38 registered Poland-China gilts recently sold in Lexington were bought by 30 Davidson county farmers. These map invested \$1,675 in new blood for their swine herds.

There were 198 persons at seven pruning demonstrations in Catawba county recently. There is increased interest in apple growing in the county. One man has a six-acre orchard in which the trees are 25 years of age but he harvested some 800 bushels last year.

all musical instruments in one!

The violin you hear on your Orthophonic Victrola is just as true to tone as the one you hear at the concert. The trumpet, the saxophone, the tenor banjo, the whole dance orchestra, is just as real as those you dance to at the cabaret. And that most difficult instrument to reproduce, the piano, is so convincing you can almost see the glistering keyboard before you.

The first three records you hear will prove the amazing versatility of the Orthophonic Victrola. Come in and let us demonstrate it. There's no obligation. Ask about our convenient plan which allows you to enjoy this great instrument in your own home as you pay for it. Make it some time this week!
