#### **BOB TELLS YOU** ABOUT IT your choice.

Hello Taxpayers! Let's go! Go where? To the primary and see that we get our votes cast where they should be cast, and for the ones we think best. Be sure and think of the expense and taxation when you go to vote. I stand for reduction in exnenses and taxation. I am opposed to bonuses. I think that after a man has been employed for a salary that it is wrong to give him a bonus which will have to be paid by the taxpayers of the county. I want all who think as I do in regard to the expenses and to the taxation of the county to come out and vote for Bob Farrell, who will appreciate it very much.

#### ATTEND THE PRIMARY

The primary for nominating the Democratic county and state tickets will be held next Saturday, June 2, and Democrats of the county should take notice. If you want to have a voice in the selection of officers for the county and the state, that is the important day. Heretofore the fall election has been a mere matter of ratifying what had been done in the June primary. Hence, if you have a choice for commissioner, for instance, you can express that choice

Saturday; but if you do not, may consider that you have lost your one chance to help make the

Moreover, it is not often that the people of Chatham have an opportunity to vote for one of their fellow countymen for a state office. It is your privilege this year, and you might put yourself to some inconvenience for his sake, we trust. Every vote cast for him in his home county makes one the less necessary to come from another county. It would be gratifying for Chatham to turn out and give him a big vote. Note the call of Mr. W. E. Brooks for a 100 per cent vote for your county candidate.

#### Government Money To Loan

in Chatham and Lee Counties 5 1-4 and 1 per cent principal annually pays off loan in 33 years.

#### WHEN TO SAVE

\*

Today, this week, this year is the time to save! There will come no better time. Saving is not an easy process at any time, so there is little reason to think that next year it will be easier.

But making is to be considered before saving, and it is false economy to handicap one's earning ability by economizing on equipment necessary to efficiency. Therefore, the truest economy is in putting as much as is actually necessary in securing the things you need to make real progress in your business. And sometimes a loan is necessary to secure equipment or material to modernize and make thoroughly efficinet one's business. Such loans this bank would encourage, and would be glad to negotiate under proper conditions.

But the money often wasted in useless ways would, if saved, soon provide the capital to fit one out for more efficient business. Begin by making a deposit in our savings department. We pay interest on time deposits.
