

Heart Attack Takes Rev. W. F. Womble

Former Chathamite and Prominent Minister Died Suddenly at Winston.

The following Winston-Salem dispatch tells of the death of Rev. W. F. Womble, well-known in Chatham county:

Winston-Salem, Jan. 7.—Rev. W. F. Womble, widely known retired minister of the Methodist Episcopal church, died suddenly of a heart attack here this afternoon. He was driving his automobile on Reynolds road, near the Methodist Children's home, when stricken, and died before a physician could be summoned.

After having been in the ministry since 1891, during which time he served the churches in all parts of the western North Carolina conference, Rev. Mr. Womble retired in 1928, his last pastorate being at Newton. His devotion to service, however, was such that he did not give up preaching entirely, and for the past two years he has occupied the pulpits in various churches in this city and section. Since his retirement he had made his home here. His son, B. S. Womble, is state senator from Forsyth county and a prominent lawyer of Winston-Salem.

Rev. Mr. Womble was 69 years of age, having been born in Chatham county February 21, 1856. He was married to Miss Olivia Snipes, of Chatham county, in 1881. She survives, together with the son, Senator B. S. Womble; a sister, Mrs. Mary Barringer, of Moncure; two brothers C. W. Womble, of Goldston, and J. J. Womble, of Moncure, and six grandchildren.

Funeral services will be conducted at West End Methodist church here this afternoon at 3:30 o'clock by Dr. J. H. Branhardt, presiding elder of the Winston-Salem district and Dr. C. C. Weaver, pastor of Centenary—West End church. Interment will be in Salem Cemetery here.

GOVERNOR'S FARM COMMITTEE SUGGESTS AID

Raleigh, N. C., Jan. 7.—More funds for research with cotton, a county agent in each county with a supporting board of agriculture, better seeds, more livestock, and a definite five-year program of agricultural advancement are some of the pertinent suggestions that the executive committee will recommend to the full agricultural advisory board when it meets at the call of Governor Gardner after his inauguration.

This executive committee of the board met in the offices of the Commissioner of Agriculture on January first at the call of the Chairman, Dr. E. C. Brooks. Those present in ad-

dition to the Commissioner and Dr. Brooks, were D. W. Bagley of Moyock, Dr. E. C. Branson of Chapel Hill, C. F. Cates of Mebane, Thurman Chatham of Winston-Salem, and Dr. Clarence Poe of the Progressive Farmer. Dr. Carl C. Taylor also attended as an invited guest.

At the Governor's suggestion, the advisability of using the surplus warehouse fund amounting to about \$500,000 for research work with cotton was discussed and a ruling was requested from the Attorney General. Better farm seeds and need to bring more attention to livestock so that this branch of farming would compare more favorably with crop farming were determined as two imperative needs. County organizations of farmers which would follow the definite five-year program of development was also decided upon. Dean I. O. Schaub of the school of agriculture was requested to prepare such a program for the action of the commission.

In this program, the committee wishes to have more cooperation from the State Banker's Association, more information about farm management and farm budgeting and facts about economic production. The committee expects to make a full report along these lines to the Advisory Board when it meets at the call of the Governor. The committee also recommended that a tobacco farmer be added to the Board.

President's Host

Howard E. Coffin, at whose palatial estate on Sea Island, off the coast of Georgia, President and Mrs. Coolidge were Christmas and New Year's guests.

When Pressing Seams

Use a dampened toothbrush for moistening seams to be pressed. The brush will open the seams as it draws along and facilitates the work.

Wise Old Ben

Ben Franklin once said: "If you would know the value of money, go out and try to borrow some."

Didn't Ben say a real mouthful there? Ever tried it? Strange, but the value of money to you increases when you haven't any. May we offer one little word of advice? SAVE a little from your earnings Deposit in a good, reliable Bank like ours. It will establish your credit. Possibly then you may not even have to borrow. Think it over.

One Hundred Cancers To Be Treated Free

We are not going to experiment with a new and untried treatment. We shall use the treatment we have developed thru three generations of our Family for the past near half century. This treatment was investigated at our request, and licensed by the U. S. Government in 1919.

We have investigated many supposed offers of one hundred thousand to three million dollars for any medicines that can cure the majority of external cancers. We offer ten thousand dollars to anyone who can prove that there is any such offer.

Many medicines are apparently successful in a few cancers but few are apparently successful in the majority of cancers. This difference is significant in your life, for you cannot afford to play with inferior methods and then hope to get well of a malady that is usually considered incurable at best.

The proper method, properly applied, in the first place, and before inferior methods have made you incurable is your best guarantee of cure.

We have a few pathological records of cases successfully treated with this method, including some of the most incurable types (spindle-celled epithelial, inflammatory epithelioma, and medullary carcinoma).

This demonstration is intended to help you and your Physician KNOW more and GUESS less in cases of the gravest importance, that are killing one person in every four homes in the United States.

My Son, Dr. G. I. R. Lawless (B. A.; M. D.) will aid me in this demonstration. He has been born and raised in the midst of this work; has studied in nine different colleges, universities, hospitals and sanitarium in seven of our largest cities, during the past thirteen years since he entered college; has recently completed a four thousand mile trip thru our largest cities, among our foremost scientists and in situations, studying the realizations and limitations of X-ray, radium, surgery, electric-needle, internal and external medicines in the treatment of all kinds of cancers both internal and external, seeking where each is most successful.

Thus we feel qualified to absolutely prove the superior value of medicines in the treatment of external cancers. Any tumor (growth) or ulcer (sore) of three months standing or more, may be cancer and should have the attention of a specialist at your earliest convenience. Why tempt death?

Responsible references on request.

Goitres, ulcers of the stomach, wens and cysts are curable without X-Ray, radium, or surgery.

Lawless Cancer Sanitorium Danville, Va.

New Firm New Year New Prices

O. M. Poe has associated with himself in the Grocery and Feed Business conducted by him at his stand near the Depot Mr. Newton Moore. They will occupy the same stand and begin the year with the hope of doing the

Biggest Grocery and Feed Business

ever done in Pittsboro in a single year.

We buy in large quantities, securing jobbers' prices on meat of our goods, get the cash discount by paying promptly, and sell strictly for cash thus saving the good customer from paying for the goods of the one which is bad pay. Thus we can sell goods at

The Very Lowest Prices

- Best Flour, this week \$7.25 to \$7.50
- Other grades as low as \$6.75
- Sugar, by sack, this week \$5.50
- Lard, by tub, this week 12½ cents
