THE SEASON.

Up to Friday evening last, for weeks and weeks, every eye was up-turned to the Heavens, the first thing in the morning, and the last thing at night, calculating the probabilities of Rain. On that evening and night, we were visited with copious showers. which has given an entirely changed aspect to the gardens, the forests and the fields. Previous to that time, nothing like the existing Drought could be recollected by the aged, or the observant in such matters. Every species of vegetation, spared by the Frost, had withered, and was dying; but this auspicious Rain may repair all the ravages of the Drought.

We regret to lean that the forward (May) Wheat is generally destroyed, in consequence of the Frost and cool weather, early in this month, and, in many instances, has been ploughed up, or the cattle turned in

N. B. We are sorry to learn that the Rain of Friday was partial in its character, and did not extend so generally as we had supposed.

MORE TROUBLE BREWING!

The Loco Foco Convention for the Wake District. met at Mrs. Banchay's in Cumberland, on Friday last, and nominated as their Candidate Mr. Donnin, of that County-a very clever man, we learn, but not at all thought of, so far as we heard, before the Convention met. It is stated that, but for the adoption of the two-thirds rule, which was suicidally sanctioned by the Wake Delegation, the nomination would have fallen upon PERKIN BUSSEE, Esq. of this City, who came more than once within a single vote of the nomination, even under the operation of that rule. The friends of Mr. Sherand are very indignant, not so much at the result, they say, as the manner of its accomplishment. We should not be surprised if, like Mr. Teor.E, he comes out "on his own hook," though we have heard of no such declaration

THE HALIFAX DISTRICT.

Hon. J. R. J. DANIEL received the Loco Foco nomination for Congress, at Henderson, on Saturday .-There were seven ballotings, before the nomination was made. Mr. VENABLE, of Granville, Mr. SMITH, of Orange, and Mr Cap. Jones, Jr. of the same County were soted for. No Whig has yet been brought out in this District.

THE TARBORO' DISTRICT. The "Newbernian" states that Mr. Tooter diseat-

Mr. CLARK was nominated for Congress, has declared himself a Candidate. We told Mr. Tools weeks ago. that he would be tricked out of the nomination, and the sequel has proved the correctness of our prediction. And although, in Convention, Mr. Arrington only obtained the vote of Nash County, we believe he would have received the nomination, had Mr. Toole been his only competitor. Mr. Toole is a favorite with the musses, but not with the leaders.

P. S. Since the above Paragraph was in type, we have received the "North State Whig," giving an account of the Convention, which we will publish in our next. It confirms, however, the statement, that Mr. Toole will be a Candidate, in defiance of the Caucus nomination, that gentleman having addressed a large assembly when the result was known, and declared his determation to "appeal from a packed Convention, to the great unpacked Jury of the

DEAF AND DUMB INSTITUTION. Mr. WILLIAM D. COOKE, Principal of the State Institution about to be established in this City, has arrived with his fixtures and apparatus, and will open the School on the 1st of May next.

A LARGE ROBBERY.

The Office of the Chief Engineer of the Western and Atlantic Rail Road, (C. F. M. GARNETT, Esq.) at Marietta, Geo. was forcibly entered on the night of the 8th inst. and the Safe robbed of \$3,500 worth of Scrip, of the denomination of 5, 10, 20 and 50 dollars, together with \$300 in Gold coin.

IT At the last accounts, the fire in the Dismal Swamp was raging with unabated fury. The Captains of two Schooners, who passed through the Canal on Thursday, to Norfolk, were apprehensive at times that they would be compelled to abandon their vessels, so intense was the heat.

CONNECTICUT. The "Hartford Courant" has returns of the vote for Governor from all the towns in the State, except Franklin. The vote stands—for Baldwin, 28,495; for Toucey, 25,199; Scattering, 1,857. Mr. Baldwin's plurality over Toucey is 3,296—majority ever all, 1,439. The returns from Franklin and the scattering votes may reduce his majority to 1,300. The State Senate will stand sixteen Whigs to five Demoorats. The whole number of Representatives elected to the Legislature is 181 of these 109 are Whigs. | quered, remained silent and died."

fr If any of our customers, who owens any thing, have money lying idle, we can tell how they can do a great deal of good with it. We shall not let it rust. but immediately pay it over to Mr. A, who will pay B, who will pay C, who will pay D, who will, in turn, pay the little Bills. Thus, in less than a week, a small sum will be made to pay a great many debts, and remain as valuable as ever. There is no way in the world, in which money can be insured to have so lively a circulation, as by paying it to the Printer.

The Virginia Election for Members of Congress and the State Legislature, takes placeday after to-morrow, the 24th inst. Both parties confidently count on success.

THE PITTSBURG FIRE. One of the Patisburg papers says -

" We can give no idea, on paper, of the distress chich prevails-thousands are left destinite-men who yesterday were worth thousands, are now hank-ropt. It has been estimated that the burnt district ontains SIXTY ACRES! The total loss, in glotlars, cannot be arrived at with any kind of accuracy -say guess at TWELVE MILLIONS! This is probably near it. All the insurance offices are broken up-they will not be able to pay two per cent. Only about 15,000 dollars were taken in Insurance companies in

We would like to be able to give to our friends sbroad, a list of the sufferers; but the number is so vast, that it is impossible.

Our fellow-citizens at the North, are doing what they can to relieve the suffering at Patisburg. The Authorities of the City of Washington, have voted \$2,000 from the Corporation funds, and Baltimore, \$5,000 from their Treasury, for this purpose.

BUSINESS BEFORE PLEASURE.

An Apothecary of Boston, a few years since, who was very peculiar in his notions, and remarkably attentive to business, had the misfortime to lose his wife. At the hour of burial, he placed the following label on his Shop door :

"Gone from home to the funeral of my wife, "Be back in haif an hour."

Res- At the late Commencement of the University of Pennsylvania, 164 gentlemen received the Degree of Doctor of Medicine. Among them were the tollowing North Carolinians: Spencer D. C. Armstrong, Littlebury W. Bachelor, James W. Blount, High J. Davis, James L. Dusenburry, Stephen B. Evans, Franklin Hart, John J. Hooks, William W. Hooper, Henry A. Howard, John W. Hutchings, William L. Johnston, William J. Leary, Samuel J. Lowber, Joseph F. Manning, Cornelius G. C. Moore, John M. Moore, John G. B. Myers, Pleasant P. Pearce, Joshua Pender, Alexander B. Pierce, Henry Seawell, Chas. H. Skinner, Stark B. Smith, Mathew W. Williams, John R. Winslow, Charles W. Wollen, Levi S. Yates, Owen B. Savage.

We learn from the Richmond Compiler, that a very novel and ingenious machine for calculating interest on any sum, from the largest down to fractional parts, has been brought to that city for exhibition. It consists of a neat mahogany case, resembling a small mantel clock, with a glass-covered face at the top, the bands of which point to the number of days, weeks, months or years, for which the interest is required, whilst below is visible, the amount, from tens o thousands, on which the interest is required, which is conveyed to the eye as by a imagnetic telegraphic process, by turning a small rotary column, enclosed within the case. It is, says the Compiler at most valuable piece of mechanism to those who take or those who give interest in money matters.

Tyler. Mr. Tallmadge, as a politician, was neither fish, flesh, nor fowl. but tried to be at three. At one time he left the "Locos" proper, and became a "Conservative."-Next he was a flaming "Whig." But the Whigs would not run him for Vice President either in 1840 or 1844; and so he turned "Tyler Democrat," and openly declared that he never had been a "Whig."

SENSITIVENESS OF BIRDS.—The following anecdote shows the extraordinary imitative powers of the Mocking Bird, and would seem to prove the fact, that emulation is a strong principle in birds, and that when their music is excelled they droop under the disgrace, and their inclination to renew their offorts ceases:

" A gentleman had an American Mocking-Bird in such health and vigor that it was either constantly singing or imitating the various sounds it heard. In order to try the powers of this bird, its owner pur-chased a fine sky-lark. When placed in the room with the mocking-bird, the song of the former was heard to echo through the house as if it were chanting on fluttering wing" its well known welcome to the The mocking-bird was silent for a time, the progress of Fire has been thoroughly tested at but at last burst forth in the strains of the arial songster, but louder and clearer, as if mounting and stretch ing its wings towards heaven. The lark was silent from that moment, nor was a joyous note ever heard from it afterwards. Wishing to test the powers of the mocking-bird still further, an unusually large price was paid for a black-bird celebrated for its vocal pow-It was placed in the same room with the mocking-bird; early on the second morning its song was resumed, and its charming notes were warbled forth with all the sweetness and modulations which may be heard in its native "thorny brakes." DANIEL WEBSIER'S FATHER -In a speech delivered at the New England Supper in New York, we find the followings:

"In olden time there was a man in New Hampshire, who was in youth bound apprentice, as we call it there, to a farmer, and the farmer was bound by his covenants to give him three months' schooling in the year-a great old Yankee custom, and I trust one also in New Yorkbut unlike Yankee masters in general, se tailed to give the boy an hour's schooling, and he never had one till the day of his death. In the old French war of '56, this boy entered the army as a private, and he fought hauself up to a commission, first as a warrant officer, then as an ensign, and upon the peace of Paris in 1763, he left the army man's "salary and his bread" are at stake, he is too in not sending him to school. And the master compromised his claim and gave him a tract of land that is the family homestead now. The war of the revolution came, and this same man now a captain of militia, went with his company to West Point, and there at the time of Arnold's perhaps, is the removal of N. P. which has just adjourned, appropriated, we are gratified to say, Forty Thousand Dollars for the erection of a Lunatic Asylum.

The bill nominates fiveCommissioners to select and purchase a site for the Asylum, with sufficient ground for farming and gardening purposes, and with special reference to an ample and unfailing supply of pure soft water.

Pennsylvania has just passed a similar law appropriating \$50,000 for a like purpose.

In both States Miss Dix may be said to have n a great degree brought about these results .-Having first visited, in both States the various jails and bridewells in which pauper lunatics suffer unimaginable torments, she presented a memorial to the Legislature of each, setting forth the facts-unvarnished-and imploring in the name of Humanity, that a proper Asylum and proper treatment should be provided for these sorely afflicted fellow creatures.

She has carried her point, and encouraged thereby she proposes, as we understand, to pursue the work of benevolence until every State makes adequate provision for their insane poor. Glorious mission of exalted humanity!

Failing in this object of her ambition, she engaged herself at what was called tub woman brewer-that is, she carried out the beer from the brew house. Pleased with Ber healthy, handsome face, the brewer raised her to the position of his servant-then that of his wife-finally, to that of a widow, with a handsome dowry. She engaged Mr. Hide, then celebrated as a clever awyer, to settle some puzzling money matters for her, and, as his own money matters happened to be not only puzzling, but in a hopeless state just then, he proposed to the rich widow and married her. Mr. II. became Lord Chancellor, and Earl of Clarendon.
