FRIDAY, JUNE 20, 1845.

NO. 37.

RALEIGH REGISTER. RALEIGH, N. C. Tuesday, June 17, 1845.

AWFUL CONFLAGRATION! FAYETTEVILLE AGAIN IN RUINE! On Saturday morning last, the usual quiet of our little community was fearfully disturbed by the intelligence, that our neighboring and enterprising sister town, Fayetteville, (which has, heretofore, suffered so sorely from similar calamities) had been again visited by a fire most destructive in its character, and disastrous in its consequences.

FAYETTEVILLE, JUNE 13, 1845. My dear Sir: I have just returned to my home, from the scene of a most awful calamity. A fire broke out this morning about half past two o'clock, in a long warehouse, near the heart of our town, and continued to rage for about three hours, until the most valuable part of the town was destroyed.

GOOD NEWS. ALEXANDER B. McMILLAN, Esq. of Ashe, has accepted the nomination for Congress, in the Caswell District. Look out in August for "a Red shaken by the wind."

FLORIDA ELECTION. Contrary to our first information, the Loco Focos have succeeded in the State election of Florida, the first held there since its admission into the Union.

MEXICO AND TEXAS. The New Orleans Republican states that its private letters from Mexico, received by the last arrivals, regarded it as almost certain that Mexico will declare war against the United States.

PROSCRIPTION. It is estimated, that more than One Thousand persons have been removed from Office, since Mr. POLK was inaugurated. And yet this is styled a land of liberty and toleration!

AGRICULTURE. It appears to us that the Farmers of North Carolina pay less attention to the interests of Agriculture, than perhaps any other State in the Union.

It will be seen from the foregoing, that the most business part of the Town is destroyed; and that though, in some instances, the loss falls upon individuals well able to bear it, and in others, is covered by insurance, yet in many cases, the sufferers have been stripped of their all, and present strong claims to the substantial sympathy of this community.

Our stock of Hogs absolutely need improvement; not that they are inferior to those of our neighbors, for North Carolina can boast of raising, here and there, some of the finest and largest in the Union; but, generally speaking, they are of diminutive size.

Improvements in the implements of husbandry might be agitated and completed, which, with less force, might be made competent to perform double duty, and in half the time. It is said, for example, that the improvements recently made in the Hoe, are so great, that the labor of one man is equal to that of four with that of the old-fashioned kind; and the new horse-rake is said to be in its way five times as efficient as the labor of a single man.

THE UNION ALSO DIRECTS ATTENTION TO THE CIRCUMSTANCES, that the proclamation of President JOHNSON calling the Convention of the fourth of July, exhibits a "double aspect."

Attention! Wake Cavalry! PARADE on the 4th of July next at the Capitol Square, at 10 o'clock, in Summer Uniform, with 12 Rounds of Cartridges. Notice is given to those entitled to draw for arms or contributions, that if the same be not paid on or before the 4th day of July, the claims will be handed to an Officer for collection.

OXFORD ACADEMY. Female Department. THE Second Session of this Institution, under the supervision of the Subscriber, will commence on the 1st day of July, 1845, and close on the last day of November following.

THE Under-Examining Committee of the Oxford Academy, were convened in their attendance on the Examination which took place on the 15th and 16th inst., in the Female Department of the Institution under the care of Mr. S. W. VENABLE.

THE performance of the Young Ladies in the Department of Music, under the management of Mr. D. J. LEE, are no less entitled to our unqualified approbation. Here, too, we were gratified to perceive, that the same system had been proceeded upon, of teaching the principles of Music, as a separate and distinct study.

THE Town of Oxford, situated in the healthiest region of the State, is peculiarly favorable for the moral, religious and intellectual improvement of its citizens. There are extensive accommodations for the reception of Pupils in the Family of the Principal, Mr. VENABLE, where they are under the care and supervision of his amiable and accomplished lady; or if it should be preferred, Board can be readily obtained in a number of the most respectable families of the town.

TO Travellers going North. Comparison of Expense to Travellers going North by the Great Mail Route, and the James River and Chesapeake Bay Line.

BY THE BAY LINE. From Gaston to Baltimore \$9 00 Breakfast in Baltimore 50 Fare by the morning line to Philadelphia 3 00 Dinner on the Road 50 Whole expense \$13 00
