DEATH OF JUDGE STORY.

The "New York Express" says :- It is with profound regret that we announce the death of Judge Scoay, the oldest of the Judges of the Supreme Court of the United States-the wiscat of his associates, and one of the most learned and respected men of the Union. Ordinarily, the loss of one man in the great multitude of men, is an event as little noticed as the most common occurrence of life. But, the loss of those who connect the present with the past agewho have dispensed wisdom even to the wise, and judgment and justice among all men-whose names revenue standard." are honored abroad and at home, is a public affliction. Judge Story was upon the bench thirty-four years, and received the distinguished honor of his appointment from Mr. MADISON, at the age of 31. How well he filled his office, we need not say. Happily, he has left testimonials of his integrity and ability, that will live as long as the country he has served. Judge STORY expired at his residence, in Cambridge, Massachusetts, on Tuesday evening, at a quarter be-

FIRE!

We learn from the "Petersburg Intelligencer," that a fire broke out in that place on the 9th inst. in the carpenter's shop belonging to the Tobacco Factory of Messrs. McEnery & McCutloch on Back Street, which was soon consumed, but not until the flames had been communicated to the Grocery Store of Mr. John Sturdivant, and several buildings on the lot of Mr. Henry Davis, which were destroyed.

The firemen were promptly on the spot, and their exertions, aided by an opportune rain, succeeding in preventing the fire from making its way to Bollingbrook street, and in saving the Factory building of McEnery & McCulloch.

Mr. Davis' loss is about \$3,000, and no insurance. The loss sustained by Messrs. McEnery & McCulloch, will not exceed 5 or \$600.

THE TARIFF.

The Secretary of the Treasury and the official rgan, the "Union," have been for some time deelaring, that "the Tariff must be reduced to the from the source of the Wyad Erver, in the Rocky Revenue Standard." The organ now comes out more authoritatively, and says-

He graduated Congress, we are told that the tariff must be "re-

protection to American labor. Do that which you have threatened to accomplish, and we shall know where to meet you.

A FACT FOR ESPY.

In Arkansas they have been suffering from a long dry and sultry season. Some persons in the neighborhood of Fort Smith, recently set fire to a prairie, which spread widely and rapidly. It was immediately followed by a fine shower, extending from west to cast, which satisfied the thirsty earth and cooled the atmosphere.

> MURDER AT THE PENITENTIARY. Yesterday, about 12 o'clock, Mr. FELIX FERGUSON, Overseer of the Department for Wood work in the Pendentiary, was murdered by Moses Johnson, a free negro. Mr. Ferguson was sitting in his chair, making some estimates on a slate his head included to the left side, when Johnson stepped up behind him and stuck a pointed knife with both edges sharp, deep into his neck. The anite entered below the right ear, and passed obiquely to the left side, severing the main arteries of the neck, and nearly cutting in two the windpipe. Mr. F. lived but a little while. 7

Johnson had been behited hand with his task. and after repeated threats to report hun to the superintendant, Mr. Ferguson reported him last week, and he was ordered the slight bunishment of six stripes. This is the only maginable cause for the excitement of all will towards Mr. F. who was not more rigorous than he was obliged to be, to maintain the discipling of the department, and whose disposition was kind. It will be remembered that some two or three years since, the life of Mr. E. was attempted by a convict named Granville Winston. Johnson was placed in close confinement, and a jury of inquest over the body of Mr. Ferguson, rendered a verdict in

accordance with the facts. The deceased was a worthy and esteemed citizen and his family have the sympathy of a wide circle of friends in their melancholy bereave- low Jack this season.
