BATTLE OF KING'S MOUNTAIN. We give in this paper an interesting account of his Battle, taken from the " Southern Literary Messenger" for this month, (September.) From the history here given, it will be seen, that to North Carolina belongs the honor of having contributed by far the largest quota of the forces and Officers which so signally distinguished themselves on that memorable and victorious occasion. The reader will also see, that South Carolina has hitherto appropriated to herelf an undue share of the laurels won in that gloous Battle; and we feel under great obligations to ts author, as its simple, recital will tend to remove much misapprehension as to the part sustained by the different Officers and Troops engaged in that action; and serve to dispel the halo of Quattlebumism, and Bembastes Furiosoism which our "chivalrous" neighbor has heretofore unjustly claimed.

It will be perceived by a perusal of this article, that the whole American force amounted to 1850 men, of whom 1050 were from North Carolina, under Colonel Isaac Shelby of Sullivan county, Col. Sevier of Washington, Col. McDowell of Burke, Col. Cleavela: 1 of Surry, and Col. Hambrit, all of N. Caolina. Four hundred were from Virginia, under Col. Campbell, and less than 400 were from South Carolina, under the gallant Williams. Thus showing that more than one half of the whole number of troops engaged in the battle of King's Mountain, and five ut of the seven officers of the highest grade, were from North Carolina.

#### SETTLEMENT OF SHERIFFS.

The Speriffs of the State are required by law, to take their public settlements with the Treasurer ad Comptroller, on or before the first day of Octoer, in each and every year. It will be a handsome octavo volume, with pictorial exciting and stirring interest, exceeding that of many opular works of fiction. Gen. GREEN noted down, enerally at the time they occurred, the perils, sufferings and exploits of his eventful career; his imisoment in and ultimate escape from the Castle f Perote; the various casualties and disasters that ttended the campaign; also graphic sketches and iograph.cal notices of distinguished men connected th the history of Texas; together with reflections ppon the present political and probable future relaons of that country, Mexico and the United States.

## LYELL'S TRAVELS.

In this well-printed volume by a liberal Foreigner, gentleman, and well-informed scholar, we have a work of great interest. Nearly half the work is occapied by geological observations, but the remainder interesting even to the general reader. Mr. Lygal discusses our most delicate internal questions with reedom and strength, but always with liberative -Every American may read his remarks with profit and even, when he differs with the author, he will not the less respect his frankness, truth and high tone.

The disease assumed the character of congestive fever, and for some time his life was despaired of. The latest information is, that he has recovered his sight, and was thought to be out of dauger.

We have received the first number of a new weekly paper, just started at New York, styled "The National Police Gazette." It is intended to furnish a regular Police record, embracing notices of thieves and offenders of every description, and a re- following inscription : gister of all stolen property, and of all articles coming into the possession of the Police Office.

TraAt a military review near Lansiphurg, (N. Y.) two men were sheckingly mangled by the prenature discharge of a cannon. Oge of them lost both of his arms, and the other one arm.

17 Some two or three years since, Mr. Dav. of Maiden Lane, New York, the enterprising Indiasbber manufacturer, sent out as presents, to the Pacha Bey of Tunis, a portable India-rubber boat, a pair of his celebrated corrugated boots and breeches, and an India-rubber vessel to be used in transporting water upon the backs of camels, in the place of goal-skins. In acknowledgment of these presents, Mr. Dax has just received from the Pache, a magnificent box, made of solid gold, richly set with diamonds, and valued at \$2000. THE STEAMER OREGON.

So says the "Standard" of last Wednesday; and we dony the truth of this declaration, as well as that which precedes it, that the Whigs were "beaten fairly and honorably." Satisfied how ?-that the safe-guards and restrictions by it thrown around the sacred palladium of our liberties, the ballot-box, have been trampled down and desregarded? That this saered charter of our rights has been spurned and violated? That the evils it was designed to prevent effects? Satisfied in seeing brought about, that which its framers warned us against, as heretical to our wellcellent bargains. It is of no little importance for the being, and destructive of our Republican Institutions? Strange reasoning this! If this sacred, though violated instrument has been "satisfied," whether the elevation of Mr. Polk was consummated "fairly or not," why the solemn warmings and admountions of our venerable Patriots-and Sages, to preserve it inviolate, for upon its sanctity and faithful adherence rested our happiness, and our very being as a Nation? No, verily-the Constitution has not "been satisfied;" the designs of our forefathers, in bequeathing to us this precious legacy as their last will and tes-HARPER & BROTHERS, of New York, will issue tament, has not been accomplished; nor the privileges legitimate heirs of the testators. We mourn over the dustrations. Its narrative is said to be of the most degeneracy of the age of the prostitution of justice, and the ruthless innovations made upon the primitive purity of our National Charter. The Constitution satisfied indeed-strange satisfaction.

> IF Friday week was made a stirring and thrilling day in Washington city by the " Defenders of Baltimore in 1814," who made a military visit to Washington, to celchrate the anniversary of the buttle in which they achieved such honor to themselves and safety to their city. The "Defenders" numbered 300, and were accompanied by two of the Baltimore military companies, and citizens of Baltimore. altogether numbering 1500. They had a military reception at Washington, and were received with a warm welcome at the White House by the President and his Cabinet, with whom they had a long interview, and a hearty interchange of kind feelngs and patriotic sentiment. They also visited Mrs. Madison, who gave them a courteous reception.-They departed in a most happy manner.

## DUEL IN KENTUCKY.

Mr. Tayton and Mr. Hannson, brothers-in-law, of Harrodsburg, (Ky.) fought a duel a few days since at ten paces distant. Harrison at the first fire was shot through the body and was mortally wounded, although alive at the last dates.

There is now exhibiting at Baltimore, a Counterpane made by Mrs. Ann WARNER, a lady now in her 94th year. It is a beautiful article both as a specimen of fine needle work and in respect to the taste displayed in the arrangement of the numberless pieces of which it is composed. In the centre of it is the

> THE CASE OF Mr. Goenn.-The New York Journal of Commerce states that Mr. Gough remains . ( ed in a very excited state up to Monday morning, and had neither ale nor slept. The New York Mirror of Monday says:

" We think it would be beffer for all parties, if no more mystery was attompted to be thrown account the disappearance of this gentleman. The story about drugs, &c. is so highly unprobable, that few have been entailed upon us, with all their pernicious persons place much confidence in it. Mr. Gough was found in a house of bad reputation, and in one of the lowest of the kind, in a dreadful state of desemens. He had been in the house since Fralit and had been drinking brandy at intervals during the whole time.
