#### SCIENTIFIC LECTURES.

Mr. Borsson has just returned from the North with some beautiful specimens of Apparatus, and remmehces his course of Chemical and Philosophical Academy. Next Friday evening is set apart for the General. free admission of the friends of the Institution.

#### THE WHIG CONVENTION.

From the numerous letters received on the subject, we have no doubt that an early day in January will rove most acceptable to the Whigs of the State genrally, as the period for holding their Convention to minate a Candidate for Governor. If held at that me, there is an absolute certainty of a full attendnce; but, if delayed, we have no assurance that very part of the State will be fully represented. Vhile, therefore, we are not authorized officially, to nounce when the Convention will be held, we give as our opinion that as soon as the Central Commite can be got together, that they will fix on Monday, the 12th of January, as the day for such assemdage. We may be able to state with certainty in our next, the precise day, but we are confident this will be about the time. An earlier day would be selected, but from the fact that our opponents have ixed on Thursday, the 8th of January for their Conention, and we have no disposition to interfere with em. The succeeding Monday will be as soon as e can possibly assemble ; and that day will, probay, be fixed on. We therefore call upon our friends roughout the Old North, to be up and doing, as ss than two months remain for holding meetings nearly the entire State. But, if we are in arnest-if we mean to elect a Whig Governor and a Whig Legislature-if we intend to secure he success of a Whig Senator of the United States, and continue to the people the blessings f the Whig policy, the time is amply sufficient or accomplishing all we wish. Let the Whigs the family Altar.

of every County in the State, then, move simultacoustly, and at once, and appoint Delegates to meet n Convention, at Raleigh, early in January. We may be able to name the day in our next, but it will be in January, and that at as early a day as practicable. "Arouse then Whigst-let us shake

he dew-drons from our gaments, and march again battle and to victory !" Do the Whigs need any exhortation to duty ? We

o not believe it. They know what they owe to emselves, their principles and their country ; and e have not a moment's doubt that they will, as eretofore, prove true to themselves, their cause and heir country. Consistency, self-respect, principle, nde and patriotism, alike call on them, with a loud and stirring invocation, to vindicate their political inegrity and contribute to save the State from the ands of the spoilers, and from the miseries of Loco

THE AMERICAN WHIG REVIEW. The November number of this sterling Whig Periodical is to hand, and as a whole, we find it goodvery good. We must, however, except the Poetry. If that be good, (there is, luckily, but little of it.) it is for the reason which a pious old lady once gave for applauding a grandiloquent discourse in Church, viz. : " that it was past all comprehension." The " Adventures on the Frontier of Texas and

Mexico, No. 3." with its predecessors, are written with great spirit, and will be read with interest. " Marshal LANNES" is a well written sketch of the Lectures before the Students of the N. C. Military Military exploits of this distinguished and valuant

#### FOR. THE REGISTER. MR. EDITOR: It is certainly a very just matter for deep regret and sorrow, when a community is deprived by death or removal, of one of their fel lowcitizens, generally esteemed for his virtues and his social and moral worth ; and it is becoming in such a community to express their reluctance and grief at such a deprivation, and to record the high estimate in which he was held amongst them. > THE SALE OF PEWS IN ST. PAUL'S CHURCH. We were present, for a short time, yesterday,

during the sale of Pews in the new Church. So far as we were able to judge, the sale must have been of the most satisfactory nature to the gentlemen of the Vestry. All of the first class of pews, and many of the lower classes, sold for prices much beyond assessment. The highest price reached \$845. The amount likely to be received for all the pews, in the Church, will exceed the entire cost of the building, by several thousand dollars .- Richmond Whig.
