MR. CALDWELL DEGLINED.

We learn, from undoubted authority, that a letter has been received in this City from Charlotte, Mr. CALDWELL's place of residence, stating that he declines the nomination for Governor, recently tendered him by the Loco Foco Convention. Should this information turn out to be correct, it will prove that Mr. Calmwall's claim to sagacity, so strenuously insisted on by his friends, is well-founded.

THE "CONSTITUTIONAL TREASURY." The second leading feature in the Sub-Treasury System, is, that it proposes to deposite the public money, when collected, for safe-keeping, in the hands of Officers, appointed by the President, and removable at his will. Yes, the operation of the Sub Treasury will be, to take the whole revenue of the country, and keep it in such hands as the President may designate-in Gold and Silver, too-locked up in vaults, the keys of which are not in the hunds of Congress, but in the hands of the President and his underlings.
