FOR GOVERNOR: WILLIAM A. GRAHAM. RALEIGH, N. C.

Friday, March 20, 1846.

NOMINATION FOR GOVERNOR! JAMES B. SHEPARD, ESQ., IN THE FIELD!

The "Standard," of Wednesday last, contains a Correspondence between the Loco Foco Central Committee, and JAMES B. SHEPARD, Esq. of this City, from which we learn that Mr. S. is selected to bear the banner of that party, in the ensuing gubernatorial contest. We confess this announcement has taken us entirely by surprise, and will doubtless excite a similar feeling throughout the State, as the intelligence progresses. Dr. SHANKLIN, we suspect, will throw himself upon his "reserved rights," and Mr. LEAKE will, in his first paroxysm of consternation, wonder how he has been "snowed under."

He declared himself a Candidate at Montgomery Court, according to the "Milton Chronicle," (good authority) and, so far as "Democracy" has expressed its opinion, he is certainly the choice of the party. But the Raleigh Junta are acute tacticians, and know a thing or two. We shall see whether Mr. LEAKE and his friends are to be whipped into the ranks, by the managers about Raleigh, who think that they are the party, and can put up, or put down, whomsoever they please. With the exception of a nomination, by some 20 or 30 persons in Wake County, we venture to say that Mr. SHEPARD has never been thought of for this station, by the hard-fisted Democracy of any County in the State. Indeed, the letter from the Central Committee to Mr. S., states, that his nomination was made by a majority only of that body. We do not vouch for the truth of the statement, but it is current in the streets, that Mr. S. received a majority of one vote in Committee over Mr. LEAKE, and that this could not have been effected, had not Mr. WILSON resigned his place, and Mr. KIMBROUGH JONES, of this County, been appointed in his stead.

Mr. SHEPARD seems in earnest about the matter, for the same paper that announces his selection, contains a long list of appointments, extending from the 26th inst. to the 13th of May. On the first blush of the thing, most persons would be apt to suppose that Gov. GRAHAM would beat Mr. S. 10,000 votes. But Loco Focism is composed of queer materials. Many, who will hardly "endure" Mr. S.'s nomination for a few weeks, will, after a while, begin to "spit," and then "embrace" it. He is young, ardent, and industrious, and will, most probably, produce some enthusiasm where he goes. Let our friends determine at once, that nothing is certain with regard to Elections, and go vigorously to work. It is true, the Loco Foco have no idea of electing Mr. S., but they will not, on that account, abate one jot or tittle to secure success. They will work, and brag, and boast, and bet, and "swear terribly in Flanders." Already, the Editor of the "Standard," stalks along, with foot on earth, it is true, but with port so elevated, that one can hear him think, (as a distinguished friend of our's is wont to say,) and mentally exclaim—

"At each advanced step, / I feel my head knock out a Star in Heaven."

But this is all nothing, if every Whig (as his party expects) does his duty. We have neither space or time for more to-day. Hereafter, we shall show the Whigs of the State, that a deep laid plot has been concocted, to "catch them napping," and, in the mean time, we hope we have said enough to stimulate their zeal, and put them on their guard.

MR. LAWRENCE'S LETTER.

We take pleasure in laying before our readers, another Letter from Hon. ARBETH LAWRENCE. We agree with our friend of the "Petersburg Intelligencer," that in the Letters of Mr. L. we have no fine spun cloist speculations and theories, but the views of a man of sound, practical sense, derived from his own experience of facts. How admirably do the opinions of such a man contrast with the sky-scraping twaddle of Mr. Secretary WALKER—his English endorers to the contrary notwithstanding. Mr. Lawrence's Letters will not be printed for the use of Parliament—for he is looking at the interest of his own, instead of a foreign country—but every true-hearted British subject will respect the man who devotes his good sense and practical information to the cause of his own country.

"DEMOCRACY" AS IT IS.

It is rather a subject of laughter, than otherwise, to observe the present floundering of the so called Democratic party, as represented in the Congress of the United States. They cannot but recollect, how violent some of them have been in favor of measures, which they now eschew; and now, those measures being shakn in the opinions of the more judicious, leaves them a very difficult part to play. Their conduct, during the whole discussion of the Oregon Question, resembles the appearance of a vessel about to take another tack, when her sails are yet shivering in the wind, before they have caught the impulse, which is to send her in another and more favorable direction. In a word, some of them seem so uncertain, which side it is their interest to favor, that they often seem a state of total impartiality, than they were ever, before, capable of attaining.

DEAF AND DUMB.

Franklin County, we are pleased to learn, has made the necessary levy for the education of the Deaf and Dumb, within her limits.

Rev. SIMONS CORRON, of Fayetteville, has been appointed President of Mississippi College, located at Clinton, in that State, and has signified his acceptance of the appointment. Mr. CORRON is known as an able Minister, an accomplished Scholar, and an experienced Teacher, and his appointment, therefore, may be regarded as a most judicious one.

EDITOR'S CORRESPONDENCE.

THE "Standard" announces the death of WILLIAM F. DONSON, Esq. of Surry County, favorably known to the people of the State, by his long term of service in the Legislature. Mr. D. was a devoted member of the so called "Democratic" party, but was a liberal man in his votes, and, on most subjects, conservative in his opinions. We recollect, that at the Session of 1843-4, when \$50,000 of the Bonds of the Wilmington Rail Road Company, endorsed by the State, were protested for non-payment, and a Resolution was introduced to make instant provision for paying them off, some of the Loco Foco members were against the payment. Mr. Donson, we recollect, made one of his homespun, forcible Speeches on the subject, in which he conjured his party to shun the defilement of Reputation. We recollect his concluding remark: "Mr. Speaker, North Carolina is my mother—take all that I have, but preserve her good name, bright and untarnished."

MR. HAYWOOD AND THE OREGON QUESTION

Senator HAYWOOD, whose Speech on the Oregon Question produced such a storm, contended that the cause of the division in public opinion, which existed upon the Oregon question, emanated entirely from a misrepresentation of the opinions of the President, and a misconstruction of his Message, "and that the policy of asserting an exclusive title to 54 40 had been seized upon by ambitious and aspiring persons, to promote their prospects to a nomination for the Presidency, and to force the Administration to follow their lead to accomplish the end in view. He conceived the Executive pledged distinctly and unequivocally, to a settlement upon the 49th parallel, because the honor of the country had been committed to that point ever since the administration of Mr. MONROE. He introduced various illustrations, sustaining this general ground, and in the course of his Speech reviewed the positions taken by different Senators, the effect of their movements, and the purposes in contemplation. Although, as it is said, there was a great deal in the substance, to disturb the equanimity of those whom he thus criticised, there was not an exceptional word in the Speech itself.

New Hampshire Revolutionized!

The General Election took place in this State, last week, and for the first time, since the division of parties into Whig and Loco Foco, the latter have been dreadfully routed. We should have as soon expected, to record a victory in Edgcomb or Nash, as in New Hampshire. But so it is: The Whigs of the State, and other opposers of the present condition of things, have indeed made a "Bennington affair" of it. Mr. WILLIAMS, the regular Caucus Loco loco candidate for Governor, is defeated; and, what is still more important, a majority of the Members of the Legislature will be Whigs and Independents. In the Towns heard from, the Whigs and Independents have 140 Members to 88 Locos. There is no doubt of a dead majority against the Locos, at least THIRTY. Glory enough for a month! What makes the victory more important is, that a Senator of the United States is to be chosen by the Legislature now elected. In New Hampshire, as in Massachusetts, a majority of votes is necessary, in the election of Governor, Councillors, and Senators. There being no choice of Governor by the people, and probably no choice of a majority of the Senators and Councillors, the whole government of the State will receive its complexion from the House of Representatives. Truly, Loco Focism is falling to pieces.

CHARGES AGAINST MEMBERS OF THE U. S. SENATE.

Some days since, the Editor of the "Washington Daily Times" made through his paper, the serious charge against several of the members of the Senate, that they had been secretly intriguing with Mr. PARKINSON, the British Minister, at his own table, for the purpose of effecting a compromise on the Oregon question which would be disgraceful to the Senate and the Country.

In the Senate on Thursday last, Mr. JARVIS brought the matter to the notice of the Senate and, on his motion, a Resolution was adopted unanimously, to appoint a Committee to investigate the charges.

The Committee are industriously engaged in the duties of their appointment, and have summoned many witnesses. In the mean time, the Editor of the "Times" says—

"By the sketch of Senate proceedings to-day, it will be seen that a Committee has been appointed to investigate the charges which have been made against members of that body through this paper. We now, in all candor, say that should we be summoned before the Committee, with such witnesses as we may select, we will endeavor to prove all that we have said of the conduct of Senators."

LATER FROM EUROPE.

By the arrival of the ship Sunbeam at Boston, and the ship Zurich, at New York, from Havre, we have London intelligence to the 9th of February, and Paris to the 6th, both inclusive.

The debates on Sir Robert Peel's new commercial measures had been commenced in the House of Commons. They were expected to occupy a week, and little doubt was entertained that the measures would mainly be carried, though some modifications in favor of protection might be successful. One amendment proposed was to extend the time for the ultimate extinction of the Corn laws to 1851.

A GOOD ONE.

A Petition was presented in the House of Representatives of Mississippi, praying for the passage of an Act, legalizing a Lottery, for the purpose of completing a Catholic Cathedral at Natchez. Mr. McCaughan opposed the Petition, saying "he had no objection to the erection of a Church to worship our Saviour in, but he was opposed to calling on the Devil to build it."

EDITOR'S CORRESPONDENCE.

RICHLAND, March 17, 1846. Sale of Tobacco by W. & S. H. GORDON, & Co. during the last week, for the Planters of North Carolina: For Manufacturing, 52, 6, 64, 7, 74, 84, and 89. Stemming, 48, 54 to 64—Breaks increasing. Quality of the Virginia Tobacco, generally indifferent up to this time—the demand for the better quality is good. The ripe Oranoco, from your State, has brought the best prices. The Planters seem to be holding back their crops generally—we hope it is with a view of proper management. To them, it is of great importance. We will keep you regularly advised. Your ob't. serv'ts, W. & S. H. GORDON & CO.

[Just as our paper is getting ready for Press, the Letter of our New York Correspondent, due yesterday, has come to hand. We can only publish that part of it, in this paper, relating to the Markets, but will give the residue in our next, which treats of matters and things in general.]—Edit. Rec.

THE MARKETS.

COTTON.—The advices from Liverpool are considered favorable. Prices there, were very firm, and the market was active. During the past week, speculators have been unusually busy, and an active trade prevailed for export, as well as home consumption. The transactions, since my last, have been to the extent of 2500 bales Upland and Florida, and about 2000 bales Mobile and New Orleans, at the following quotations:

Table with 3 columns: Upland & Florida, Mobile & N.O., Ordinary to good, Middling to good, Fully fair to fair, Fully fair to good.

Flour.—The foreign news has had no perceptible influence on the market. Prices remain very firm for all descriptions, and the stock on hand is becoming reduced. Since my last about 10,000 bbls. of various brands have been taken (mostly for home consumption,) at the following rates, viz: Orleans 5.50; Ohio and Michigan 5.50; New Orleans round and flat hoop 5.25; Oswego 5.14; Baltimore 5.14; Georgetown 5.00; and Richmond Country 4.85; Rye Flour 3.74; Corn Meal 3.34; 3.30. Export from 1st to 10th March Wheat Flour 12.54 lbs.

GRAIN.—The transactions in Southern have been quite animated, during the week, and sales of 15,000 bushels New Orleans Corn readily brought 63 1/2 cts.; 5000 do., North Carolina at 65 a 66 cts.; 2000 bushels, Jersey at 68 cents. Several lots of Rye are reported at 82 cts. Northern Oats command 44 and 45 cents.

PROVISIONS.—Sales of prime Beef at \$5.25 a 5.50; Mess 8.25 a 8.50; Old prime Pork 9.34; New City do. \$11.25. Ohio Lard 6 1/2 cts. Cheese 7 1/2 cts.

THE RALEIGH GUARDS.

On Saturday last that fine Company, the Raleigh Guards, under the command of Capt. GIRD, marched to their old shooting ground in the vicinity of the City, and shot for the blue plume. The target was a circular board, twelve inches from the centre; and the best single shots were made by Messrs. HUDSON and ASHLY—three and a half inches each from the centre. The plume was won by Mr. EDWARD E. HARRIS, by an aggregate shot of twenty-three inches; and at the request of the Captain, it was presented to Mr. HARRIS by Gaston H. Wilder, Esq. in a handsome and appropriate manner.—Standard.

TEXAS EMIGRANTS.

This country does not appear to be exactly the promised land after all. Some of the inhabitants of the border States, who were most anxious for annexation, appear to have, after a personal examination, rather a contemptuous opinion of our new sister, a writer in the Little Rock Arkansas Gazette, exclaims: "I thank God I am here again, (New Orleans!) I shall be in Union City, Arkansas, in a few days—bag and baggage—having already enjoyed enough of the blessing of Texas. I am satisfied, and shall settle myself in Union City—totally independent." Please say to all our friends, that, if they wish to go to Texas, just see it in the water, and not move until they have seen it. I will write you again when I settle. I know this will surprise you; but I have never seen a country so much overrated as Texas. Hundreds of persons would have returned if they could, but cannot. A poor man has no business there, if he knew it."

CATO REDIVIVUS.

My voice is still for war! "Odds niggers! can the Senate long debate Which of the two to choose—"the whole, or none?" No, let us rise at once, snatch up our tomahawks, and with the force of forty thousand wildcats, set on John Bull, eat up the Rocky Mountains, pump dry the Atlantic, and change lions upon lions. Perhaps some fine, more knucky lion in the east, may smush his ribs, and give him a sound licking. Rise, fathers, rise! the coons demand your help; Rise, and revenge your wounded squashes. Or lose their skins. The corps of slaughtered wood-chucks. Manure the fields of Oregon, while we Sit here on wages of eight dollars a day. Besides the plunder of red tape and penknives, Chopping cold logic on a "previous question." Halting between a paltry hawk and Luzzard, While this great cause depends, whether we shall Now sacrifice our passions to honor, Or wear them out with long hair-dressing. Rise up, for shame! ye western snipping-turtles, And show yourselves true sons of gun powder. Rise up, ye horse and silver-tongued Trojans; Rise up, I say; our brothers of old Buncome, Flourish their spears, and cry out for battle! Tom Tibb's great slide complains that we are slow And Falstaff's ghost walks unrevenged among us."—Boston Courier.

"SECURE "CLAWS"—It will be seen by the following Section in Mr. Donoghue's amended Sub-Treasury bill, that all payments to the Government are to be made in gold and silver coin only, and on after the 1st July next.—U. S. Gazette.

SEC. 16. And be it further enacted, That, from and after the thirtieth day of June, which will be in the year one thousand eight hundred and forty-six, all duties, taxes, sales of public lands, debts and sums of money accruing or becoming due to the United States, and also all sums due for postage, or otherwise, to the General Post Office Department, shall be paid in gold and silver coins only.

DEATH OF COL. SCOTT.

By a notice in to-day's paper, it will be seen that Col. Joseph Scott has departed this life. Col. S. was one of that patriotic band—the Petersburg Canada Volunteers, and served through the whole of that arduous campaign, in the course of which he was severely wounded. As a citizen he was distinguished for sterling integrity, kind feelings, and a modesty of deportment, which won for him the esteem of all who knew him.

Petersburg Intelligencer.

"The foolish part of mankind will make wars from time to time with each other, not having sense enough otherwise to settle their differences."

The above pithy extract from a letter of Dr. Franklin to the celebrated Edmund Burke, is commended to the special attention of the sages who have succeeded Franklin in the affections of his countrymen, without altogether eclipsing his reputation for sagacity and common sense.

CONGRESS.

SATURDAY, March 16, 1846. She Senate was not in session to-day. HOUSE OF REPRESENTATIVES. Several reports from Committees were made. Mr. Hopkins, from the Committee on Post Office, reported a bill to abolish the offices of the three Assistant Postmasters. Read twice and referred. The House then went into Committee of the whole and took up the River and Harbor bill. Mr. Honston, of Delaware spoke in favor of the bill, and pointed out the necessity of the improvement proposed at Newcastle, Delaware. Mr. Baker, of Illinois, next spoke. He was in favor of approving the bill, and in favor of free trade. The debate did not excite much interest.

SENATE—MONDAY, March 16, 1846. After the presentation of Petitions, Reports were called for from Committees. Mr. Benton, from the select Committee appointed to investigate the charges of the Times made a report. It states in substance, that the publishers of the Times, having been afforded every opportunity of proving their allegations, have utterly failed to do so, and that there is not the least shadow of evidence to support a single specification. It concludes by recommending the expulsion of both Editors and Reporters of the Times, from the privileged seats in the gallery of the Senate.

The Report was ordered to be printed. The Senate then resumed the consideration of the Oregon question. Mr. Calhoun having the floor, said that having been concerned in the negotiations relative to the title to Oregon, it would be improper for him to refer to that part of the controversy. He would then confine himself to the question of notice. After reviewing the various grounds assumed by former speakers, he gave it as his opinion that it was no longer a question as to whether that dispute would lead to peace or war. It appeared now to be a question of time only—So long as the probability of a peaceful termination of negotiations should prevail, the necessity for the force decreased. After further remarks he argued that it was necessary that this controversy should be brought to a close, otherwise we should not be able to settle our difficulties with Mexico, for that power was watching the course of the question, and if it should come she will avail herself of the advantages of her geographical position. He thought that Senators themselves ought to begin to doubt our title to the whole of Oregon. At all events, it had been already questioned upon that floor.

There were but two reasons which presented themselves to his mind in favor of giving the notice. One was that it ought to be settled so that it might not be allowed to run into the next Presidential election. The other was, he believed, that England did not intend to make her final movement until after the Congress shall have risen. But for these two objections, the notice ought to be postponed.

Mr. Berrien has the floor for to-morrow. HOUSE OF REPRESENTATIVES. After the disposal of some Petitions, the House went into Committee of the Whole, and resumed the consideration of the Harbor and River bill. The proceedings were very dull, and the greater portion of the day, only twenty-five members were in the Hall.

A CONSCIENTIOUS LAWYER. The late Mr. Roger M. Sherman, one of the most eminent lawyers that Connecticut has ever seen, states his principles as to litigation in these words: "I have ever considered it as one of the first moral duties of a lawyer, and have always adopted it in my own practice, never to encourage a groundless suit or a groundless defence; and to dissuade a client from attempting either of them in compliance with his animosities, or with the honest prepossessions of his own judgment; and I ever deemed it a duty, in a doubtful case, to point to every difficulty, and so far as I could, discourage unreasonable anticipations of success."

When will the time come for such to be the usual practice of lawyers?—National Press.

WILLIAM A. GRAHAM. As we are not in the habit of abusing our opponents, so we also refrain from bestowing much and indiscriminate praise upon the men of our own side. We trust that we find nobler uses for the contents of our editorial ink, than merely to bespatter men with censure and with adulation.

On planning back on our files, we find that we have said very little about our present Governor, William A. Graham, and his administration. This has not been because we were not impressed with the excellence of his administration. He has gone through his official duties with a certain quietness and dignity of manner, characteristic of his person and his mind. He has done no "great thing" to which his highly cultivated talents are acknowledged to be adequate. His office does not afford a field for display. But he has pursued the right, in the even tenor of his way, and reflected from his high position the best points in the character of our good and beloved State.—There is not, we venture to say, a citizen of North Carolina who does not enjoy a full feeling of satisfaction with the manner in which Governor Graham represents his State before the world.

We do not keep his name as a candidate for re-election at the head of our Editorial column; we deem it unnecessary, because, in the language of a contemporary, it is engraved already upon the hearts of our readers.—Greensborough Patriot.

A NEW MEMBER TO MEXICO.—Lieut. David Porter, says the Newark Advertiser, was despatched to Mexico by our Government, on Wednesday, and is to proceed to Mazatlan, where he will commence a bottle of your Agent in that place, Mr. Daniel W. Doty; she took it, and it cured her cough entirely. During the Winter I had a fever, which left me very weak and feeble; I had a severe cough, which troubled me some time, I had recourse to your Balm again, and found it highly beneficial; I was obliged, however, to take two bottles before I was entirely well. All who have had Colds, severe Coughs, or diseased Lungs, I would advise to try Dr. WISTAR'S BALSM OF WILD CHERRY.

CITIZENS OF THE UNITED STATES.

Let it be remembered, that Brandreth's Vegetable Universal Pills have now been before the citizens of the United States for six years, and used by hundreds of thousands! They are so well known that it need scarcely be mentioned that they are a "Purgative Medicine," so "justly balanced" that the "experience of a century" has proved that they may be taken in any dose, according to Nature's requirements, and this rule refers to both sexes and all ages. They have been used in every variety of derangement of the human body, and yet, when properly used, never failed to restore to health, except in those cases where nature was exhausted before the Pills were commenced with.

Experience has taught that Brandreth's Vegetable Universal Pills remove all corrupt humors from the body, in an easy, safe and effectual manner; producing no effect but what finally conduces to the perfect purification of the Blood, and thereby cures the disease, by whatever name it may be called, and give perfect health to the whole system. Remember, Druggists are not permitted to sell my Pills—if you purchase of them you will obtain a counterfeit. B. BRANDRETH, M. D.

PAIN EXTRACTOR.

FROM TWO TO EIGHT TIMES CHEAPER THAN BEFORE, OR NOTHING IF THE USER IS NOT DELICATED WITH IT. An article that every family must consider indispensable when they know its power and value and which has heretofore been sold too high to reach all classes, has now been reduced in price, with a view that rich and poor, high and low, and in fact every human being may enjoy its comforts; and all who get it shall have the price returned to them if they are not delighted with its use. We assert without the possibility of contradiction, that all Burns and Scalds, every Extremity sore, old or fresh, and all external pains and aches, no matter where, shall be relieved to comfort by its five minutes—saving life, limb or sight. No lotion can be laid if this is applied, unless the vitals are destroyed by the accident. It is truly magical to appearance in its effects. Enquire for "Comstock's Magical Pain Extractor Sales," at Comstock and Co's, 21 Courtland Street, New York. Price 25 cents or four times as much for 50 cents, and near ten times as much for a Dollar.

Cautions—Be sure and get Comstock's, as counterfeit and worthless appear under other names. See that it is direct from Comstock & Co., or never touch it.
