# NORTHERN LOCO FOCOISM BEGGING

FOR SOUTHERN VOTES. The last "Standard" had an extended article on the Wilmot Proviso, and the views of Northern Loco Focos thereupon. It says-" Messrs. Buchanan, Dallas and Cass, have voluntarily come forward in our (the South's) defence, and have denounced the Wilmot Proviso as calculated to weaken the bonds of the Union, as absurd and impracticable, and as | lishing.

unjust to the Slaveholding States ;" and calls upon the "Whig people" of North Carolina, to "bear these things in mind." But the Editor takes good care not to disclose the fact, that there are not a few of his "Democratic" allies in the South, who have declared that they are not to be bamboozled by the artfully concocted schemes of the Northern Locofoco aspirants for the Presidency; and we submit, if it is not a more appropriate work for the Editor of the "Standard," to remove the infidelity of his own friends, before he begins to preach to the Whigs. Several leading Democratic Journals in the South,

have boldly exposed the project of endeavoring to create the impression with her people, that while others are unsound on the Slavery question, these Loco Foco Presidential aspirants, are to be safely confided in. We assure the "Standard," however,

that his effort to convince the Whigs of North Carolina, of the sincerity of these hollow-hearted pretensions, are all in vain ; for they have learned before this, how far "Northern men with Southern principles," are to be trusted. And no man, who Select Novels." does not shut his eyes, willingly, can be misled by the declarations of "Messrs. # REVOLUTIONARY HISTORY.

A gentleman, of high literary character, in this vicinity, has in his possession many Manuscript papers, illustrating our Revolutionary History, of which, it is believed, the Public, as yet, know nothing. A correspondent of the Staunton, Va. "Spectator," writing from Buena Vista, under date of January 2d says-"Our North Carolina neighbors have opened a Theatre for their amusement, during the long winter evenings. I happened to be present at one of the performances, and would be glad to give you a description of it, if I had time. The Theatre is under the management of the Drum Maj. who is a real factotum it appears, being play writer, scenery painter, principal performer, bill printer, and I hardly know what else. Certain it is, he is a very smart fellow."

# ALAMANCE.

The following high tribute to the character and interest of this Work, is taken from the list of Noces of recent Publications, in the "National Intelligencer," and is, indeed, high praise:

This is an American production; and the story, scenery, and incidents are altogether American-The tale opens at a period just before the Revolution, and its principal personages bear a conspicuous part in that memorable struggle. We confess we took it up with no very strong anticipations of having our interest sufficiently awakened to accompany the author to the end of his task ; but we were most agreeably disappointed. Having once fairly commenced its perusal, we did not lay it aside unly unhackneyed in the tricks of authorship, and young enough to love nature better than art. His characters are for the most part admirably drawn, and well supported ; many of his incidents are of thrilling interest; and his descriptions are so graphic as to bring the various scenes of action distinctly before the reader. We have no doubt that the reception of this work will be such as to encourage the author to further contributious to this branch of his country's literature.

#### FOR THE REGISTER. HON RICHARD HINES.

On the 22d inst. the Whig Convention will assemble at Raleigh, to nominate a Candidate for Governor of North Carolina, and in doing so, will have to select out of many prominent names, a suitable person to bear our flag in the approaching contest

for that dignified office. This contest will be one of extraordinary excitement and interest, as besides the old landmarks which divide the parties, will be added the all-absorbing

subject of the origin, policy and continuance of the Mexican War-a subject of infinitely more consequence to the integrity and honor of our Nation, for the present and future, than any thing which has transpired since the American Revolution. Even should the War be brought to a close, before our canvass for a Chief Magistrate takes place, it will

leave its causes, its objects and its general policy, open to the criticism and disavowal of the to me of law and order, nearly to the same degree 2 and 10 war continues. This is the inevitable rest? 2 un-constitutional acts, and when ably discuss by its opponents, will operate in future as a check to wild

and romantic Administrations-it will operate to check the fever for conquest which now rages like a tornado, in the Democratic ranks.

Many other items in our foreign and domestic policy, will, as a matter of course, be examined and debated, which are of great interest to the people of this State; and no one doubts the ability of either of the gentlemen named, in connection with the office of Governor, to sustain with honor and fidelity the interest and prosperity of the State-and from the virtue and intelligence of these gentlemen, we House on the passage of this resolution. have the guarantee that no offence will be taken by either of them. because he did not have the good fortune to be the successful nomince, but will cordially unite in sustaining the nomination with patriotic zeal. This is a noble trait in the human character, and is often to be found in the Whig ranks. This is one of the noble traits of Mr. Clay-a name, which whenever pronounced, arouses in the heart and mind, a glorious recollection of his unrivalled eloquence and magnificent fame.

Among the array of names spoken of in the public yeas 105, nays 94. prints and in private circles, for the office of Chief Magistrate of the State, I see or hear of none more 10 a committee of the whole, and proceeded to capable or deserving than the Hon. This gentleman, some twenty years past, was in public life, as a member of the Legislature from Beaufort County, and subsequently represented the County of Edgecomb :- his duty in these important trusts he performed with ability, and gave general satisfaction to his numerous friends and constituency .-Among the members of the Legislature, he had an elevated standing, obtained by his practical good sense, general intelligence, and courtesy of manners. He next represented the old 3d Congressional District in Congress-the duties of which office he performed in a very creditable manner, and which enhanced his reputation as an able Representative .-After this, he retired from public life to the more

Mr. James Thompson offered the following :-Resolved, That the words of the amendment ffered and adopted, by the House, to the resolution of thanks to Major General Taylor, on the third day of January, 1848, containing the declaration "that the war (namely, with Mexico,) was unnecessarily and unconstitutionally begun by the President," is untrue in fact and calculated to prevent a peace with Mexico on the bass of Indemnity, and should be expunged from the journal; and that the Speaker cause the same to be expunged from the journal of the

At the suggestion of several members, Mr. Thompson subsequently modified the resolution, so as to insert the word, rescind, instead of "expunge," and making the phraseology of the resolution in other respects conform to the amendment.

Mr. Thomson moved the previous question. Mr. Ashmun moved that the resolution be laid on the table, which last motion prevailed-

How, indeed, can this be doubted, when it is seen, that, by their plan, the decision of the great question, whether the Mexican territory, the acquisition of which they advocate, shall be open to the introduction of slavery, must be decided by the people who reside within its limits, at the time of its acquisition, and whose feelings are known to be irreconcileably opposed to the "peculiar institution ?" As the Pendleton (S. C.) Messenger observes, "the Mexicans and Indians are to become citizens, and to decide the question whether slaves shall be admittel;" and we concur with that paper in the opinion, " that such opposition to the Wilmot Proviso is no great boon to the South, nor can we believe it will be so regarded."

#### VALUABLE BOOKS.

We have had laid on our Table, by Mr. TURNER, of the "North Carolina Book Store," the following Works, viz:

"General Scott and his Staff, comprising Memoirs of Generals Scott, Twiggs, Smith, Quitman, Shields, Pillow, Lane, Cadwallader, Patterson and Pierce; Colonels Childs, Riley, Harney and Butler, and other distinguished Officers attached to Gen Scott's Army ; together with Notices of Gen. Kearney, Col. Doniphan, Col. Fremont, and other Officers distinguished in the conquest of California and New Mexico; interspersed with numerous Anecdotes of the Mexican War, and personal Adventures of the Othicers, with accurate Portraits and illustrations."

"General Taylor and his Staff, comprising Memoirs of Generals Taylor, Worth, Wool and Butler; Colonels May. Cross, Clay, Hardin, Yell, Hays,

is clear, explicit and strong, and they and other distinguished Officers attached to General Taylor's Army, interspearsed with numerous Anecdotes of the Mexican War, and personal Adventures of the Othcers ; with accurate Portraits andother beautiful illustrations."

> We return our thanks for these interesting Volumes, which we doubt not, will soon be in the hands of almost every man, boy, Whig or Democrat, in the country. They add much information to what is already known of the incidents of the War, and give, so far as we can judge, either from personal knowledge of the Heroes represented, or from other likenesses of them, faithful and accurate Portraits of most of those delineated.

We acknowledge also, the receipt from the same source, of two elegant Anatomical Works, with the Prescott Hall spoke thus of Mr. CLAY : following titles:

"Anatomy and Physiology, designed for Academies and Families-by Calvin Cutter, M. D.-sixth edition, with over 200 Engravings." First Book of Anatomy and Physiology," by the

same Author, with 84 Engravings.

They are well calculated by the simplicity of their style, to the purposes for which they are intended. and to illustrate by the Engravings and remarks thereon. that we "are fearfully and wonderfully disaster inevitable. made."

An Officer writing from Mexico to a friend in this as gratifying to Gov. GRAHAM, as it is City, says: "We have just read the President's of the State generally, to see with Message. It is exactly the thing, and speaks the word in this instance, I TOO WOULD SAY NO: but conic approbation his Administration of unanimous sentiments of the army. All agree that viction is forcing itself on the minds of the people, he is right, both Whigs and Democrats."-Standard.

ARREST OF MR. TRIST.

A rumor has been for some time prevalent that an order as been sent to Mexico for the arrest of Ambassador Trist, and it is intimated that he is to be arraigned before the military tribunal at Perote, ful Farmer. charged with the duty of investigating the conduct of Gen. Scott! A letter from Washington to the New York Express states that the order for Mr. Trist's arrest is founded upon a law passed in 1799, during the Presidency of the elder Adams, but which has been ever since a dead letter, which provides, that if any citizen of the United States shall, without the authority of his Government, commence or carry on any oral or written correspondence with any foreign Government, or with any officer or agent thereof, in relation to any dispute or controversy with the United States, or shall counsel, aid or assist in any such correspondence, he shall be deemed guilty of a high misdemeanor, and on conviction thereof, shall be punished by a fine not exceeding \$5000, and by imprisonment for a term not less than six months nor exceeding three years !

MR. CRITTENDEN AND GEN. TAYLOR. A "valued acquaintance" of the editor of the Tallahassee Sentinel, writes as follows from Washing\_ ton under dath of Jan. 18th.

"The most strenuous efforts are being put forth by the Democrats to produce a want of confidence in Gen. Taylor among the Whigs. Take my word for it, Gen. Taylor is with the Whigs upon every important principle and measure. Meeting with Mr. Whig Candidate for the Office of Governor. Crittenden and Col. The steamship McKim, Capt. Breath, arrived on Saturday from Vera Cruz via Tampico, having left the former port on the 24th and the latter on the 31st ult.

Our accounts by this arrival are as contradictory in regard to peace as the rumors which come to us from Washington. One of our occasional correspondents who apprised us some time ago of the transmission of important despatches by he sloop of war Saratoga, reiterates his opinion that " peace is made, so far at least as the Mexicans can make it. What has been done only requires the sanction and approval of our Government." On the other hand, a letter from a for intelligence, integrity and all the social qualities distinguished officer dated the 19th in the city of Mexico says: "The Mexican Congress has not been able to form a quorum and peace is just as far off as ever."
