New Orleans Crescent.

FOR THE REGISTER. Mr. EDITOR: In your paper of the 6th of December, is a Communication from "Economy," to the Legisland of understanding expenses, per term, of the County and Superior Courts. These estimates are contrasted and Superior Legislature, in which are estimates of the average from the County Courts, trial by Jury, on the score of saving money. My object is, to show that

Economy" has fallen into some errors. He estimates the extra pay to Clerks, Sheriffs, the extra pay to the same officers for a Superior Court at \$35: and thus he conclude the same officers for a Superior be an average saving to each County of \$105, and of the day. to the State, of \$8,085, by the adoption of the proposed system. Now a conformity to the Goverhame, Congress had no log that a U. each year, instead of six, (as is now the case) in every county. Then, will these officers has no form less labor! Will they have to attend fewer Courts? Nay, will not the Superior Court Clerks form less labor? Will they have to attend fewer and Sheriffs at least have more to attend? Such a change then, cannot materially a constitutional impedilogic, they nave more to attend? Such a change then, cannot materially affect the amount of labor which these officers will be constitutional impediately every constitution in the constitution of the constituti of labor which these officers will have to perform for their Counties, by virtue of their offices, and conse- vet reach the Secretary's office, and will be excluded quently their pay for ex officio services, will not be reduced. It is true, that the Sheriffs will be saved has been, we suppose, very close. the trouble of summoning Jurors for three Courts. This part of their duty however, is deemed inconsiderable, and is always easily performed. There-Again, he estimates the pay to Justices for the

four County Courts at \$160, and the pay to Judge and Solicitor for a Superior Court at \$110; and of mere acquiescence on his part, to ving to each County of \$50; and to the State of Now, in many of the Counties, the Justices of the Courts cost nothing. Those Counties only pay Mr. Venaute the Southern tem. Thus you see that those Counties which have which have chosen to adopt the special Court sysnot adopted this system, instead of saving \$50, will absolutely lose \$110 by absolutely lose \$110, by this same beautiful saving plan which is now proposed. plan which is now proposed. Therefore, I conclude that to the State at least, nothing will be saved here

I think that the positions laid down above, and the conclusions drawn therefrom, are incontrovertible. Then my object is accomplished.

But as I wish to deal fairly, I will follow "Economy" to the end of the Chapter. Perhaps he may fi-

nally make out some saving. The only remaining estimate of public expense which he does or can make, is in relation to the pay of Jurors, and the officers attending on them. If the Jurors should not longer be detained at each term, in the event of the adoption of the proposed system than they are now, according to the present system, it follows that the saving to the Counties would be equal sate the estate of the late John Jacob to half of the amount which the Jurors now cost.— But does any man suppose that three Jury Courts even, held by Judges, can perform what six Courts now do, in the same length of time? Yet "Economy" supposes that they can, with one day added to of our Democratic friends? Why, the contemplated extra term. Owing to the fact. ropose a compromise—regarding the that the time of Juries is frequently eonsumed in deciding the same case, where an appeal is taken, it cannot be denied that the consumption of time by one Jury would be saved, if jurisdiction of the case half the man's estate, and then all were possessed only by one Court. And thus some graples are removed! Such is the meagre, very meagre sum might be saved. But is this the only reason for abolishing Jury trials in the Also, a lot of splendid new style Goods, for Ladies the only reason for aboushing Jury trials in the Also, a lot of splend come from Democratic premises. Mr. County Courts? Is the cheapest thing always the Spuing Dresses, best? I have learned differently.

Mr. Editor, it is more easy to complain than to defend--more easy to find fault than to make perfect. Perhaps, sir, that order and decorum do not exist in some of the County Courts, which should mark the proceedings of all tribunals. Yet for these Courts. the people, so far as my observation has extended. have always manifested the highest regard, shown no contempt for, and have respectfully, if not quietly bowed to their decisions.

It is true, that they frequently appeal from the decisions made. This is no argument that they are dissatisfied with them. The truth is people have but little confidence in law, when nice points are involved. They prefer to take all the chances in their a of the larger portion of the Whigs power—the more, the better for them, they imagine. All the litigants in a case are hardly ever satisfied by the decisions made, either in the County, Superior or Supreme Courts. Some one bas to be worsted, and consequently becomes displeased. And men tamely acquiesce from the force of necessity alone, when the right of appeal fails them.

A further argument against the reduction of Jury Courts, may be found in the fact, that in proportion to the frequency that Grand Jurors are called which will be sold at the New York prime cost. together, so increases the certainty that offenders against law will be made to answer for their improper conduct. And nothing is better calculated to deter people from the commission of crime, than the certainty that they will have to answer therefor.

Again, it is a maxim, that for light and trivial reasons, it is wrong to change any system of long standing, when the people have conformed themselves to its operations. But it is said, that a system sim- the Eastern suburbs of the City of Raleigh, and ilar to the one proposed, has been adopted in other known as the Multicaulis field, and at the sametime ering, manifested the competency of the Instructor, States, and has worked well. The system of Jurisprudence in North Carolina, has always been the large family carriage, in good repair and uninjured, boast and pride of her citizens, and the admiration of others. Perhaps there is no State in the Union, in which justice is sooner arrived at, and injuries more speedily redressed. I have frequently heard of the tardy administration of justice, and the recovery of just rights, and dues in other States, but never, in the Old North State, only when innovation and not reformation is attempted on our Courts. CONTENTMENT.

"I'LL SIGN THE PLEDGE." The following beautiful and touching story was related by Dr. Schnebly, of Maryland, at a recent meeting held in New York to hear the experience of twenty reformed drunkards:

A drunkard, who had run through his property. returned one night to his unfurnished home. He entered his empty hall-anguish was gnawing at his | for bond and approved security. Male Academy, Warrenton, N. C. R. A. EZELL, A. M. Principal. THE NINETEENTH TERM will commence

on the 15th of January, 1849. In this Institution, Boys are prepared for any College in the United States, or for the various professions and duties of life. The ablest and most experienced Instructors are employed in the several Departments of the School; and no pains or expense has been spared which is necessary to place the Academy in the front rank of the high Schools of the South. The healthy location of the Village, its fa-HOSE who are in want of good Cigars and cility of access by the Raleigh and Gaston Rail Road, Chewing Tobacco, are invited to call and try its refined and intelligent society, and excellent Church privileges, all combine to render the situation for an Academy for Boys, peculiarly desirable. All Students who do not reside in the families of heir parents, are required to board in the family of the Principal, who exercises over them the care and control of a parent. They are not permitted to visit the Village unless accompanied by one of the teachers, or by the special permission of the Principal -Every boarding student is required, after night fall, to be present not only at his boarding House, but also in his own appropriate room; and is not even allowed to attend Church at night, except in company with the Teachers. No boy of immoral or vicious habits is admitted into the School ; or if, after entrance, any one proves to be pernicious in his example, is he suffered to remain for one moment longer, than he is found to be incorrigible. These are a few of the imperative laws of the Academy, under the faithful execution of which, it is almost impossible that the morals of any boy can be impaired in Warrenton; and yet, it has became fashionable, in several quarters, to croak of the immorality and dissipa. THE undersigned, having been appointed a Com- tion of Villages, as if a boy, at all times under the mittee of Visitation, at the late Examination of the watchful eye of a faithful Instructor, were liable to be pupils of the Warrenton Female Institute, are corrupted by them. China, Glass and all Kind of Fans cy Articles Restored.—GLENN'S IMPROVED DIAMOND CEMENT. for Joining broken China, Glass, Earthenware, Metals, Wood, Cabinet, Work, and Fancy Articles of every description .- This Cement which has been proved to be of great strength will be found particularly useful in every family; the simple manner of its application is slone a recommendation. The adhesive property which it contains is so wonderful, that few things will rather break in a fresh place, than where they have been mended with it. The variety of purposes for which it may be used are so numerous that it would be difficult to recite them. Ite success in mending Glass, China &c. is extraordinary, no ordinary degree of heat affecting it, and as the joints are scarcely perceptible, articles of this kind may be useful for years, which otherwise would have been cast away For Sale at Turner's
