A Derangement of the Nervous System. Of In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening life giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weakened sufferer is restored to former health, strength,

elasticity and vigor. The great peculiarity and excellence of Dr. Christie's Galvanic Curatives,

consists, in the fact that they arrest and cure disease by one ward application, in place of the usual mode of drugging and physicking the putient, till exhausted Nature sinks hopelessly under the infliction.

They strengthen the whole system, equalize the circulation of the blood, promete the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than

RHEUMATISM, BRONCHITIS AND DYSPEPSIA. Rev. Dr. Landis, a Clergyman

For about twenty years I had been suffering from Dyspersia. Every year the symptoms became worse, nor could obtain permanent relief from any course of medical treatment whatever. About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pattern duties, I became subject to a severe Chronic Rhaumstism, which for year after year, caused me indescribede anguish. Farther: in the winter of '46 and '46, in consequence of preaching a great deal in my own and various other churches in this region, I was attacked by the Bronchitis which soon became so severe as to require an immediate ruspension of my pastoral labors. Hy nervous system was now
thoroughly prostrated, and as my Bronchitis became worse, so
also did my Dyspepsia and Rheumstic affection—thus evincing
that these disorders were connected with each other through
the medium of the Nervous System. In the whole pharmsoon poin there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency,) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June 1846. To want to try the series of the control of the contr in June, 1846. To my great astonishment, in two days my Dyspersia had gone; in eight days I was enabled to RESUME MY PASTORAL LABORS; NOR HAVE I SINCE OMITTED A SINGLE SKRVICE ON ACCOUNT OF THE BRONCHITIS; AND MY
