THE AGE OF IMPROVEMENT. One of the most important discoveries of the age, in ameliorating the condition of this large class of suffering humanity, Consumptives, is Dr. Wistar's Balsam of Wild Cherry. What time establishes and consecrates, what experience adopts and confirms, what all men in all places unite in saying is good and valuable, is so, no doubt. A popularity of this sort fixes in society its roots so deep and strong, that time cannot destroy it. The success which has attended this medicine for several years past, has overcome the prejudices of all respectable and sensible men, and the article has taken a stand among the first-class discoveries and blessings of the age; and when resorted to in season, eradicates the diseases for

which it is recommended. Dr. A. H. MacNair, of Tarboro', North Carolina, writes as under date of February 14, 1847, that he has used Dr. Wistar's Balsam of Wild Cherry, in his practice the last eighteen months, and considers it the best preparation of the kind he ever saw, and knows of none so deserving the public

About fourteen years since, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties. I became subject to a severe Chronic Rhsumatoral duties. toral duties, I became subject to a severe Chronic Rheuma-tism, which for year after year, caused me indescribable anguish. Farther: in the winter of '45 and '45, in consequence of preaching a great deal ir my own and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system was now theroughly prostreted, and as my Bronchitis became worse, so also did my Dyspepsis and Rheumatic affection—thus evincing that these disorders were connected with each other through that these disorders were connected with each other inrough the medium of the Nervous System. In the whole pharmaco-poeis there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last I was led by my friends to examine your inventions, and '(though with no very sanguine hopes of their efficiency.) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was DYSPERSIA HAD GONE; IN EIGHT DAYS I WAS ENABLED TO RHEUMATIC AFFECTION HAS ENTIRELY CRASED TO TROUBLE ME. Such is the wonderful and happy results of the experiment.

I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, with HAPPY RESULTS, I BELIEVE, IN EYERY
