In the House of Representatives, the committee moved by Mr. RICHARDSON to investigate the settlement of certain claims was appointed. A resolution was moved by Mr. Evans, of Maryland, to investigate certain defalcations which took place under the last administration with the knowledge of said administration; but this proposition found several objectors. The House afterwards resolved itself into Committee of the Whole on the subject

The departure of members of the Senate with the body of the late distinguished Senator from South Carolina, and the understanding that was had that the whole of the subjects connected with slavery shall be postponed until their return, will produce a temporary calm in the Senate, which we hope will be improved by action upon subjects less exciting, but full of interest to the people.

#### THE LOCOFOCO PRESS.

It is amusing to witness with what great restlessness some of the Locofoco papers bear the slightest allusion made to the resistance with which they threaten the adoption of measures under General Taylor, to which they submitted under Mr. Polk, with the most pious resignation .-That amiable and forbearing placidity of temper with which they considered the measures of Mr. Polk's administration, and which led them to qualify, apologise, and hope for the best, seems amends for their former charity, and to evince the shamelessly attack and denounce what they before proposed and advocated, and are actually ready to crucify all who have not tumbled heels over head with them in their last somerset. They cannot bear to be reminded that Mr. Polk approved of the Oregon Bill, which contained the odious Wilmot Proviso-and that their candidate for the Presidency, General Cass, was the very man who originated and gave popularity to the doctrine under which California now seeks admission into the Union. Upon this Oregon Bil!-in which Congress made great aggression upon the rights of the South-they have been as still and silent as the grave. Why? Because the Oregon Bill was approved by a Democratic President. They voted, most of them, for Gen. Cass, and advocated with warmth the views set forth in the Nicholson letter. Whoever dared to oppose this territo rial doctrine was assailed by the Locofoco Press, If a Democrat dissented from it, he was denounced as seeking to destroy the harmony of the party. Who is ignorant of the fact that Mr. Yancy, of Alabama, for his stand on this question, was

read out of the Democratic party? But now Gen. Taylor recommends that California be admitted as a State of the Union, with a Constitution which the people of that Territory have formed, in exact accordance with the doctrine of the Nicholson letter, and these very papers, after advocating this very doctrine, turn around and threaten to break up the Union if California is admitted into it.

More than this, they are guilty of the impudence of abusing in coarse and vulgar terms as the slaves of party, all who differ with them in their new views; when it is apparent to every one that they seek only their own aggrandizement and the overthrow of the Whig party, may throw into them. taunted as ansound to the institutions under which | bia, the capital of the State, for interment. they have been born and reared, and with which they are identified for weal or for woe, because THE SPEECH OF MR. MR. CALHOUN'S REMAINS.

The mortal remains of the late John C. Cat-HOUN were removed from the seat of Government on Monday morning last, for their final resting place in his native State.

The body, in charge of the Sergeant-at-Arms of the Senate, with four assistants as bearers, was brought from the vault, where it reposed, to the Capitol, at 8 o'clock A. M. The committee of the Senate, with their guests, and the committee of twenty-five gentlemen of South Carolina, deputed by the Governor to repair to Washington and attend the remains to that State, attended at fered by Mr. Grianell, of New York, to prosthe Capitol at the hour indicated, and moved thence to the steamboat landing where they embarked at 9 o'clock A. M.

The steamer which conveyed them was arrayed in mourning drapery, and had her flags at half mast. When she reached the Virginia landing. where the Railroad commences, the funeral party was met by a committee of gentlemen, headed by the Hon. JOHN Y. MASON, from Richmond, deputed by the Governor of the State, and one from the town of Fredericksburg, headed by the venerable Colonel Hugh MERCER; also, by a very handsome volunteer military company from the latter city, accompanied by a fine band of music.

The Hon. Mr. Holmes, of South Carolina, and Mr. VENABLE, of North Carolina, and Mr. WIN-THEOP, of Massachusetts, the three gentlemen who delivered addresses in the House of Representatives on the occasion of Mr. Calhoun's death, were invited by the committee to accompany them

Hill, of Brunswick, and Jas. Jredell, of Raleigh, proceeded up the line of the Wilmington and Raleigh Rail Road, to receive the remains, and escort them in their passage through the State. These gentlemen also acted as the Pall Bearers in the procession.

The citizens generally closed their stores, and suspended all operations of business. A gun from the wharf of the Wilmington and Raleigh Rail Road Company, gave the earliest notice of the arrival of the cars. Immediately upon the firing of this gun, the flags of the public buildings, and the shipping in port, were struck at half mast; the bells of the town commenced tolling, and minute

The Steamer, conveying the remains, left for Charleston at 5 o'clock P. M.

Great preparations have been made at Charleson for receiving the remains. The occasion is to be signalized by an imposing civic and military procession, composed of the citizen soldiery, civil and benevolent societies, and organizations of every kind, including the Judiciary, Members of the Bar, the State Legislature, the City Author ities, the Masons, Odd Fellows, Rechabites, Firemen, Colleges, Schools, &c. The steamer con veying the remains to the city is to land at one of the upper wharves, amid the tolling of bells and the firing of minute guns, and the Senate Committee and the Committee of Twenty-Five, having the remains in their care, will be conducted, under charge of the Committee of Arrangements and of a suitable military escort, to the Citadel Square, where the remains will be delivered, in presence of the entire Procession, to the Governor themselves are the abject minions, and receive of the State, who will there place them in the with open mouths whatever their leaders, who keeping of the Mayor of the City and the City Authorities. Lost. A terrible steamboat accident, attended by fearful loss of life, occurred this morning at about I o'clock. The splendid steamer Belle of the West. which cleared from this port, loaded with California bound emigrants, for St. Louis, had gone but a mile below Warsaw, Ky., when her boiler bursted. It is confidently asserted that not less than one hundred persons were burnt to death and is represented as having been the most awful ever their lives by immediately jumping overboard, and swimming ashore. The Belle of the West was owned in this city, and was insured for \$8,000. She is said to be totally lost.

[SECOND DISPATCH.] Madison, April 23. Another Account of the Steamboat Disaster. An eye witness to the horrible scene attending the destruction of the Belle of the West. (which it appears was burnt, instead of having co lapsed her boiler,) gives the facts in connection with the calumity. He says that the fire was discovered at about 12 o'clock . in the hold, when she was immediately run ashore, where she was made fast, and stage planks run out. Up to this moment the flame had not burst forth -The after hatch was then raised for the purpose of getting water into the hold, but such was the pressure of the flames, that all efforts to quell them were of no avail. The total number of passengers is estimated at 400, among whom were two companies of California emigrants, and about thirty families re-

moving westward. It is ascertained from the register that over sixty souls perished, and probaly as many more have been lost whose names were not enrolled. Such was the progress of the fire that, before the passengers could PRIZES WERE DISTRIBUTED AS FOLget out of the state rooms, all communication between the after cabin and forward part of the boat was cut off, and all either were compelled to jump verboard or perish in the flumes. For the Removal and Permanent Cure of al NERVOUS DISEASES, and of those Complaints; which are coulsed by an in weakened or unhealthy condition of the NERVOUS STEEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been prenounced by distinguished physicians, both in Europe and the United States, to be the most unfueble medicinal discount of Dr. CHRISTIE'S GALVANIC BELT

MAGNETIC FLUID.

The great peculiarity and excellence of

Dr. Christie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by ward application, in place of the usual mode of drugging physicking the patient, till exhausted Nature sinks hopele under the infliction. under the infliction.

They strengthen the whole system, equalize the circ the blood, promote the secretions, and never do the sligh under any circumstances. Since their introductionited States, only three years since, more than

60,000 Persons

including all ages, classes and conditions, among which were a large number of ladies, who are peculiarly subject to Nerv-sus Complaints, have been ENTIRELY AND PERMANENTLY GURES. when all hope of relief had been given up, and every thing else been tried in vain!

To illustrate the use of the GALVANIC BRLT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA, or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temperary relief, out which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a chort period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back sgain to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severy coses of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Rev. Dr. Landis, a Clergyman of New Jersey, of distinguished attainments and secultowhat has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspesis. Every year the symptoms became worse, nor could obtain permanent relief from any course of medical fraction whatever. About fourteen years since, in consequence of frequent expoure to the weather, in the discharge of my personal duties. I become subject to a secure Chronic Rhouse frequent exposure to the weather, in the machine to total duties, I became subject to a severe Chronic Rhe tism, which for year after year caused me indesert anguish. Farther: in the winter of '45 and '46, in consequence of preaching a great deal ir my own and various churches in this region, I was attacked by the Bronic churches in this region, I was attacked by the Bronic churches in this region, I was attacked by the Bronic churches in this region, I was attacked by the Bronic churches in this region, I was attacked by the Bronic churches in this region, I was attacked by the Bronic churches in this region, I was attacked by the Bronic churches in the second control of the control of churches in this region, I was attacked by the Bronchitis, which soon became so severs as to require an immediate suspension of my pastoral labors. By nervous system was now theoroughly prestrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evineing that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacepois there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last was led by my friends to examine your inventions, and (though with no very sanguine hopes of their efficiency.) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To my creat Asygnishment, in two pars my

1 am, dear sir, very respectfully yours, ROBERT W. LANDIS DR. CHRISTIES GALVANIC NECKLACE used for all complaints affecting the Threat or Head, such as

Buzzing or Roaring in the Ears, Deafness, which is general Nervous, and that distressed complaint, called Tie Dolore to Palsy and Paralysis. All physicians acknowledge that these terrible diseases are

caused by a deficiency of Nerrous Energy in the affected limbs. Da. Christie's Galvanic Articles will supply this deficient power, and a complete and entire cure is thus effected. 1000 Cases of Palsy and Paralysis have been reported to Dr. Conserve and his Agents within the last two years, which have been entirely restored.

Or. Car. Andrew J. F. Tomes of Divoklyn, N. Y., had not been able to walk a step for near four years and was so help less that he had to be fed. The most celebrated physicians gave him up. In five days after he commenced wearing the Galvanic Belt, Necklack, and Bracklers, he walked across the room, and in three weeks he had perfectly received his health. Captain Tomes is accounty years of age.

Severe Deafness Cured. The following is an extract from a letter lately received from a distinguished physician in the State of Virginia 100 "A. H. CHRISTER, M. D.—Dear Sir: One of my patients, unknown to me obtained your Galvanic Belt and Necklace, with the Megretic Flund, for a serious affection of Deathers. The case was that of a lady whose Nervous system was much disordered, and her general health poor. Much was done previously to the application of the Belt, but with very little success, and I feel it only right to tell you, that since she commenced wearing the Belt and using the Fluid, but a few weeks \$50, she has ENTIRELY RECOVERED HER MEARING, and her general health is better than for several years."
