AFFAIRS IN FRANCE.

The last packet from Europe, the Canada, brings interesting intelligence as to the condition of France. The "National Intelligencer" publishes the following letter from a French resident at Paris to a gentleman in Washington, which may be considered the estimate of a Republican

We hope that this legitimate advance will prevent new collisions in the streets, and will only oblige the actual Government of the Republic to assume a course much more conformable to the | heart they have the same feelings, and the only true principles of popular government.

"Notwithstanding my hope, however, I should rational ideas, we had yet to deplore some outoreaks in the public squares, growing out of the candalous mode of directing public affairs which is still followed by our men in office. The Peo- The wealth strength, virtue and intelligence of the ple get so completely disheartened with all the corruptions of the office-holders, that they are a settlement as the Committee will propose. prompted to violent acts against those whom they all the enemies of the country."

The antagonistic parties are rapidly ranging themselves into two opposing lines. In preparation for the approaching election in Paris to fill a vacancy in the assembly, there is but one candidate on each side; and the conflict between these contending parties is but at the beginning, if we out is much smaller, even, that we had may judge from the visible indications. We are among those who have all along, from

Their treatment position to the report. of the Italians, who, in imitation of France, had expelled a Despot and set up a Republic, showed what sort of conception they have of what constitutes civil liberty. They have muzzled the Press for daring to condemn the measures of Government; and they have arrested and imprisoned Army Officers, for presuming to side in politics with the opposition. This has been done by what is eafled the re-actionary party in France-the party which, at one time secretly favored, but now openly adocates Monarchy. But we are inclined to think. the views in the above letter, which are doubtless somewhat warped by the political predilections of the writer, to the contrary, notwithstanding, that eloquent manner. the so-called Republicans and Socalists, with a ew honorable exceptions (of which the writer may make one) are no more enlightened than their opponents upon the subject of self-government. One of the first acts of Ledru Rollin, in the name of the Provisional Government, it will be remembered, was to set forth a circular, prohibiting the Royalists, the friends of the old regime of Louis Phillipe, from voting for members of the assembly. The thought has never entered a Frenchman's brain, any more than it has entered the brain of that Progressive party in this Country, whose rules of action are nearly allied to those by which the re-actionary party in France seem to be governed, that the minority are to be tolera-

ted in the public expression of their views. We believe that the English people actually had truer notions of civil liberty three centuries ago, than the French have at this day. Since the time of Alfred, indeed, the local administration in that Country has been in the hands of the peo-

PETERSBURG AND THE NASHVILLE seph K. Smith. CONVENTION.

This city, it seems, will have nothing to do with the Nashville Convention. The meeting on Saturday night last adjourned sine die, but some of these who composed it, not satisfied that this was designed as a fair expression of the views of the community, called another meeting for Monday night. At the appointed time, only some forty or fifty persons were in attendance, and they soon adjourned without organizing.

A FLYING TRIP TO RALEIGH. We were in Raleigh on Tuesday last, and President having left the City, to be absent for a at home again on Thursday morning, at 2 o'clock. It was a hasty trip and the only unpleasant part of it was the short time we had since we were in the Metropolis, and of course we were prepared to see many changes in the appearance of the place and the inhabitants. We noticed a new Episcopal church in progress of erection, which though fine, we do not think handsome. Our old friend Col. Yarborough is putting up a large and elegant Hotel opposite the Court House, and Capt. Guion is making extensive improvements to his Hotel near the Capitol Besides these, numerous handsome family residences have happy and prosperous-a few old maids and mis- been put up all over the city, which add much erable amalgamationists North, with a certain to its beauty. elasticity and vigor
The great peculiarity and excellence of Dr. Christie's Galvanic Chratives,

consists, in the fact that they arrest and cure disease by out ward application, in place of the usual mode of drugging and physicking the patient, till exhausted Nature sinks hopelessly under the infliction

They atrengthen the whole system, equalize the circulation of the blood, promate the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since more than

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilization, DYSPEPSIA. or any other Chronic or Nervous Disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary reflect, out which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now compare this with the effect resulting from the application of the GALVANIC BELT. Take a Dyspeptic sufferer, even in the worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continuous Galvanic circulation throughout the system. Thus the most severe cases of DYSPEPSIA are PERMANENTLY CURED. A FEW DAYS IS OFTEN AMPLY SUFFICIENT TO ERADICATE THE DISEASE OF YEARS.

Rev. Dr. Landis, a Clergyman of New Jersey, of distinguished attainments and exacted Sidney, New Jersey, July 12, 1848.

Da. A. H. CHRISTIE-Dear Sir.: You wish to know of me what has been the result in my own case, of the application of THE GALVANIC BELT AND NECKLACE. My reply is as follows:

For about twenty years I had been suffering from Dyspersia. Every year the symptoms became worse, nor course in their parmanent relief from any course of medical treatment whatever. About fourteen years, kince, in consequence of frequent exposure to the weather, in the discharge of my pastoral duties, I became subject to a severe Chronic Rheumatism, which for year after year, caused me indescribable anguish. Farther: in the winter of '45 and '46, in consequence of preaching a great deal ir my own and various wher churches in this region, I was attacked by the Bronobitis, which soon became so severe as to require an immediate suspension of us assignal labors. which soon became so severe as to require an immediate suspension of my pastoral labors. My nervous system was now thereughly prestrated, and as my Bronchitis became worse, so also did my Dyspepsia and Rheumatic affection—thus evincing that these disorders were connected with each other through the medium of the Nervous System. In the whole pharmacopesia there seemed to be no remedial agent which could reach and recuperate my Nervous System; every thing that I had tried for this purpose had completely failed. At last was led by my friends to examine your inventions, and (though in the proper senguine homes of their efficiency.) I determined with no very sanguine hopes of their efficiency.) I determined to try the effect of the application of the GALVANIC BELT AND NECKLACE, with the MAGNETIC FLUID. This was in June, 1846. To MY GREAT ASTONISHMENT, IN TWO DAYS MY DYSPERSIA HAD GONE; IN EIGHT DAYS I WAS KNABLED TO BESUME MY PASTORAL LABORS; NOR HAVE I SINCE OMITTED

A SINGLE SERVICE ON ACCOUNT OF THE BRONCHITIS; AND MY BHEUMATIC AFFECTION HAS ENTIRELY CEASED TO TROUBER ME. Such is the wonderful and happy results of the experiment. I have recommended the BELT and FLUID to many who have been likewise suffering from Neuralgic affections. They have tried them, with HAFFY BESULTS, I BELIEVE, IN EVERT

Nervous and Sick Headache, Dizziness of the Head, Neuralgia in the Face, Buzzing or Hoaring in the Ears, Deafness, which is generally Nervous, and that distressed complaint, called Tic Doloreux. Palsy and Paralysis. All physicians acknowledge that these terrible diseases are

caused by a deficiency of Nervous Energy in the affected limbs. Dr. Chairrin's Galvanic Articles will supply this deficient power, and a complete and entire cure is thus effected. 1000 Cases of Palsy and Paralysis have been reported to Ds. CHRISTIE and his Agents within the last two years, which have been entirely restored.

**CAP. ANDREW J. F. Tomes of Brooklyn, N. Y., had not been able to walk a step for near four years, and was so help-less that he had to be fed. The most celebrated physicisms gave him up. In five days after he commenced wearing the Galvanic Brit, Necklack, and Bracklets, he walked across the room, and in three weeks he had perfectly recovered his health. Captain Tomes is seventy years of age.

Severe Deafness Cured. The following is an extract from a letter lately received from a distinguished physician in the State of Virginia:

"A. H. Christir, M. D.—Dear Sir: One of my patients, unknown to me, obtained your Galvanic Bell and Necklace, with the Magnetic Flind, for a serious affection of Deafness. The case was that of a lady whose Nervous system was much disordered, and her general health poor. Much was done previously to the application of the Belt, but with very little success, and I feel it only right to tell you, that since she commenced we... ing the Belt and using the Fluid, but a few weeks ago, she has ENTIRELY RECOVERED HER REARING, and her general health is better than for several years."
