We had the pleasure of listening to one of the est excellent sermons in the Presbyterian Church from the Rev. Mr. Lacy, that it has ever been our gold fortune to hear. We shall not pretend, of ourse, to quote any of the language, or, even, here, to catch the spirit of his discourse—but its fect upon the congregation was marked and apstept, and it was, every way, a most appropriate, frent and teeling outpouring of praise to the Alnighty Disposer of events, for the multiplied blesnigs he has showered upon us as a "State, a Peowe and a Republic." We were rejoiced to see, ent the Reverend Speaker took so suitable an ocann to impress upon his hearers, with eloquent amestness, a sense of the gratitude they ought to selfor the tranquility in which the Country reges, after the persions crisis from which it has internerged; and that he enjoined it upon them, as the return for so gracious an interposition of lime Pravidence, to frown down, in the future, nery attempt to dismember our glorious Union.

THE EX-CHARGE'S LETTER_AGAIN. In our article of the week, with reference to this sommelent gentleman, and his recent exhibition in the columns of the "Standard," it was rather, then, our object to defend ourselves from his false and malignant insinuations, than to meet the issue which he attempts again to make with the Administration as to its former disposition to execute the Fugitive Stave Law. Having done that -and having satisfied the Ex-Charge aforesaid, we trust, that we are not disposed to brook his arrogance or submit tamely to his abuse-we propose, now, briefly, but more particularly, to examine the other matters in hand.

It was doubtless perceived by all who read Mr

RENCHER's recent publication, that the only point on which he takes issue with us, is with reference to the statement that "he held different language while in Washington from that employed in his letter to General Saunders," last winter. But it will also be perceived, by reference to the articles contained in this paper in Jan. and February 1851, as well as from our article of Friday last, that we represented him, up on the best authority, we say again, as having held different sentiments and anguage while at the seat of Government, or (what was infinitely worse.) as not having been manly enough to speak out, or disposed to utter the slightest complaint, when the whole action and the determination of the Cabinet to enforce the law were candidly and in good faith com-By late arrivals from Europe, it appears that municated to him. Every man to aid in the execution of this Law, and was refused. Now the history of the times show that the Marshall never did any such thing, but, on the contrary, declared that no such aid was neces sary. He then goes on to state, that the Marshall called for the use of the Navy Yards and public ships in which to confine prisoners, if he should capture any, and it, too, was refused-but on what ground he does not do the Administration the justice to state. The statement itself is true, but the inference Mr. Rencher draws from it of negligence of duty is not, because the reason of the refusal was, that Congress had provided for such case, by resolution, directing the Marshall to hire a prison, &c. This issue was made at the time, we say, both in the "Republic" and in this paper, and there is no disposition on his part to

After this letter to Gen. S., the Shadrach case occurred, and the President sent a Message to Congress, accompanied by the various orders to Commodore Read, at Philadelphia, the Boston Marshall, &c. We republish two of these orders below, confirming as they did and do, what was told Mr. Rencher as to the action of the Cabinet, and proving, as they did and do, that from the first, within a month after the passage of the Fugitive Slave law, the President took a most energetic and decided stand for its maintenance. All these orders-so full and explicit-have been repeated to the troops of the U. S., at the various points where resistance was attempted or expected, upon proper calls from civil officers.

WAR DEPARTMENT WASHINGTON, February 17th, 1851. Sir: Information has just been communicated to the President that a number of persons, principally people of color, in the city of Boston, did, a few days since combine to prevent the execution of the law providing for the arrest of fugitive slaves, and did for Mr. Webster has undoubtedly intended for some | cibly rescue a slave who had been arrested from the custody of the officers of justice. It is possible that the city authorities may find it necessary to call in the military force to aid in the execution of the law. If such should be the case, or the marshal or any of his deputies shall exhibit to you the certificate of the circuit or district judge of the United States in the State of Massachusetts, stating that, in his opinion, the aid of a military force is necessary to insure the due execution of the laws, and shall require your aid and that of the troops under your command, as a part of the posse comitatus, you will place under the direction and control of the marshal, yearself and such portion of your command as may be deemed adequate to the purpose. If neither the circuit nor district judge should be in the city of Boston when the exigency above referred to shall occur, the written certificate of the marshal alone will be deemed sufficient for you

to afford the requisite aid.

Fort Independance, Boston Harbor, Massachusetts. NAVY DEPARTMENT, Feb., 17, 1851. Sir : The Department has received information that prisoner, arrested as a Fugitive Slave in Boston. was forcibly rescued from the Deputy Marshal of that District, on Saturday last, by lawless violence, and the kindness of friends could suggest, they too in the very seat of justice of that city. When we had last advices he had not been re captured. It therefore becomes necessary to take immediate measures for the execution of the law in this and all similar cases : and whilst it is hoped that the civil officers will stand in need of no military assistance from the forces of the United States, you are instructed that if the Marshal or his deputy, charged with the services of process by competent authority, shall produce to you the certificate of the justice or district judge of the United States, that in his opinion, combinations against the execution of the law of the United States exist in that District, too powerful to be overcome by the civil authority, you will promptly order the marines or any other force under your command, to accompany and aid the marshal in making arrests, in preventing rescue, or in recapturing any person who has escaped or been rescued by virtue of any process

herein described to receive, while on his service, the orders of the marshal or deputy, and act only in strict obedience thereto.

WILL. A. GRAHAM. Commodore John Downes, commandant U. State Navy Yard, Boston, Massachusetts.

And here we drop the subject. Our simple object has been to vindicate History and the course of the Administration. In his recent Card, Mr. Rencher seems to admit-with a bad grace enough t is true-that the President has discharged his duty in all latter cases.

If the Ex-Charge shall again wake up at any future period, we will endeavor to have our eyes

AMERICAN INTERFERENCE IN THE POL-

ITICS OF EUROPE. Mr. CROSKEY, Consul of the United States, at Southampton, made the following remarks at the Kossuth banquet given by the Southampton Mayor:

"No country had so firmly adhered to the doctrine of non-intervention as had the United States. The doctrine had been bequeathed to them by Washington, and they still looked upon it as a sacred bequest. But there were many of his countrymen who considered that, with their increased power and their daz zling future, a new and a somewhat different policy might be forced upon them by the necessities of thele growing condition. The time would come, when the Inited States would be forced into taking more than

an interest in European politics, &c., &c.' The belief is rapidly springing up in the public mind, and, indeed, a large number of the thinking men of the present age are of the opinion, that a crisis is about to arrive in the politics of the old world, and not a few are found in our midst who avow that the time has come for this government and people to involve themselves in the domestic broils of foreign States, for the purpose of giving freedom to the down-trodden serfs of the north, and the oppressed citizens of the south of Europe. days of Washington, when, and until now, interwas considered so dangerous, and against which, in his farewell address, he so feelingly warned us it is difficult to determine. There never was a time when, perhaps, in spite of a few recent occurrences, the American flag was more respected, or so or when our citizens, traveling abroad, were treated with greater consideration than now, and it would be difficult for one who has observed the in that policy, which has brought us thus far along every grade, from Freshman to Senior. the road of prosperity. AFFLICTING MORTALITY IN A FAMILY.

The following melancholy particulars of the death of four interesting children, of one family, were related to us a few days since. Mr. and Mrs. John B. Williamson, with their

five children, started for the North from Vicksburg, Miss., in the latter part of October, on the steamer California, and had a pleasant passage to the mouth of the Onio. Below Smithland their hoat got aground, and they accordingly took passage for Louisville on the Asia, a Cincinnati and St. Louis packet, which happened to come up soon after. This boat was very crowded and dirty .-The night they reached Louisville their infant child, Sidney Miller, was taken sick, and the next night he died at the Galt House, where the family put up. The attending physician pronounced the disease cholera infantum.

The next day, 7th of November, the family started for Cincinnati, and on their way two of the other children were taken sick. When they arrived at the Walnut Street House in this city. Cecilia, aged 7 years, was dangerously ill. She died on Sunday morning, the 9th inst., of what was pronounced malignant scarlet fever. In the meantime the two remaining daughters, Florence disease, and notwithstanding everything was done for them which medical skill, parental affection, died. Part the first is a geographical and topographi cal description of the State, much more compre hensive than is to be found in any work hitherto published, and showing that North Carolina, pro perly appreciated by her sons, it something mo e than 'a narrow strip of land separating Virginia from South Carolina." The sublimity of her ocean scenery; the picturesqueness of the snowy banks rising like fairy islands of inchantment from the depths of sea and sound; the rugged grandeur of her "sky cleaving" mountains, with all the intermediate variety of savannah forests, hill, dale and valley, are in a syle pleising and highly descriptive, laid before the reader. Our hearts ever answer in tune and in time, love, As octave to octave and rhyme unto rhyme, love, cannot weep but your tears will be flowing, You cannot smile but my cheek will be glowing-I could not die without you at my side, love, You will not linger when I will have died, love.

ome to me, dear, ere I die of my sorrow, Rise on my gloom like the Sun of to-morrow. Strong swift, and fond as the words which I speak, love, With a song at your lip and a smile on your cheek, love, Come, for my heart in your absence is weary-Haste, for my spirit is sickened and dreary, Come to the arms which alone should caress thee, Come to the heart which is throbbing to press thee.

IN OXFORD, N. C. N Monday, the 15th of December next, at the Court House door, in the town of Oxford, I shall sell by public auction, to the highest bidder, the house and lot in said town, with the lands thereto attached, for many years owned and occupied by Thomas B. Littlejohu, Esq ;

It is not often that property so valuable and desimble is offered for sale. The improvements consist of a large well bailt two story dwelling house, kitchens, dairies, offices, ice house, granary, carriage house, a large failing garden, and all the other fixtures, that usually belong to a well improved residence in town or country. The dwelling house is 56 by 40, with four good rooms, and 12 feet passages on each floor, four rooms in the basement and two in the garrett, and is situated in the midst of a beane tiful grove of forest trees of four or five acres in extent. There is no situation in this part of the country, which combines more advantages, as a residence, whether the object be elegance or comfort or both together. Though not more than two hundred and fifty yards from the Court House, it is as quiet and retired as a residence in the country. Attached to the improved lets, there is a farm, of some 120 or 130 acres, watered, and in good condi-

tion, with 8 or 10 acres well adapted for meadow At any time before the sale, I will take pleasure in showing the premises to any one desiring to pur-

Terms of Sale. One third cash-the residue in two equal annual. payments-the title to be reserved until the whole purchase money is paid. Possession to be given immediately.

I shall sell the above described property as Trustee, appointed under a decree of the Court of Equity, of Granville county, in the room of John Nuttall, de eased, the original trustee named in a deed in trest executed to him by the said Thomas B. Littlejohn; and for other purposes The title is unauestionable.
