DAVID RAMSAY, Ch'n JUNIUS M. ALEXANDER, Sec.

We have seen it stated (says the Boston Adas,) that the Pierce Club at Concord, New lampshire, the home of the General, have made JOHN VAN BUREN, Of New York, N. P. BANKS, and WHITING GRISWOLD, of this State, honorary members. Messrs. Banks and Griswold were members of the Massachusetts Legislature last Jur and this, and were among the most active of the Coalitionists to elect Mr. Sumner to the nited States Senate. The junior editor of the Port voted for Hon, HENRY WILSON, the Presilent of the late Pittsburgh Freesoil Convention, for State Senator last fall, and the Post and both titors advocated his election.

We perceive, also, that a large locofoco mass meeting was held at Concord, N. II., on Thursday last, at which Gen. Pierce is reported to have presided! Among the speakers on the occasion were the notorious free-soilers. John Van Buren and Senator Dix !!

This information we submit to the judgment of those WHIGS who are unwilling to accept Gen. Scott, on the Whic platform, because he is supported by Governor SEWARD.

Washington, August 16, 1852. WM. H. GRANBERY, Esq. -Sir: I have the honor to receive your note of the 16th inst., stating that at the head of a Democratic paper, published at Elizabeth City, N. C., called the "Democratic Pioneer," is the following: "I WOULD SOONER CUT OFF MY RIGHT HAND THAN LEND IT TO THE SUPPORT OF SLAVERY."-General Scott to Senator Wade."

All I can say of the above is, (what I have requently said of it since it has been floating about in the papers,) that General Scott never made such a declaration to me in my hearing nor did I ever say, or pretend that he ever did and I believe it to have been fabricated with a which was presided over by that gallant and old General. And permit me to add, that the morbid sensitiveness of the Southern mind, on this subject, renders it peculiarly liable to such impositions; and Northern demagogues, knowing this, will not fail to take advantage of it. HISTORY SET RIGHT.

A few weeks ago it went the rounds of the locofoco papers, also, that among the many Whigs who did not intend to support Gen. Scott, was Thomas H. Clay, son of Henry Clay. Colonel Pickell, of Baltimore, an old school-mate of Mr Clay, after having seen the report, wrote him a letter of inquiry respecting it, to which Mr. Clay promptly and satisfactorily replies. Will those papers who published the declaration in the first place, now give the contradiction? Here is the letter which speaks for itself, and does not need a word of introduction :

Mansfield, August 12, 1852.

Dear Colonel: Your letter of August 3d was Whereupon, for the purpose of effecting the only received this morning. I trust that you need no assurance from me that I reciprocate all your kind wishes and feelings as expressed

You wrote "it was published is som e of the her cities, that you had stated to your days before his death, th rmined to support Pierce and King, and not vote for Scott and Graham, and that your father approved of your determination." Such is not the fact. Prior to the meeting of the Whig Conver tion, many apprehensions were entertained a to its action on the Compromise resolutions, and it was doubted by many whether its platform would be as strong as some of us deem it ought to be. Under this state of things, I remarked Davic-Col. T. M. Young, G. A. Miller, and vote, the nominee of the Convention, unless the justly deny. I can never forget the anxious soapproval of those measures by the Convention was strong and emphatic. They are strong enough for me; Gen. Scott has adopted them, and I believe him to be a man of honor. Mr. Graham's position was never equivocal. If the vote of so humble an individual as myself be of any consequence, I authorize you to give it what publicity you choose. If alive, I vote for Scott and Graham.

I remain, truly, your friend, THOS. H. CLAY.

Hale and Chase supported it. The motion was then disagreed to; yeas 16, nays 38. A bill granting time for the payment of the luties on railroad iron imported by the Wilmingon and Manchester Railroad Company, was taken up and ordered to be engrossed.

The House conidered the bill authorizing soldiers engaged in the last war with Great Britain to surrender their bounty lands unfit for cultivation and seect others in lieu thereof; but had not disposed of the same when the morning hour expired. The bill for the relief of the Raleigh and Gason railroad company was laid upon the tableveas 81, navs 79.

Mr. Venable moved to reconsider the vote by which the bill was laid on the table. The Speaker decided that it was not cometent for the gentleman to make the motion, as he did not vote with the majority. Mr. Cartter said that, to accommodate the

gentleman, he would make the motion to reconsider, he having voted with the majority. The motion was entered on the Journal, to be considered at some other time. The consideration of the navy appropriation

bill was taken up in Committee of the Whole on the state of the Union. A large number of amendments were severally offered and debated, and nearly all of them voted down. The proceedings generally were

uninteresting. The committee finally rose and reported the bill to the House. Mr. Houston moved the previous question, which was seconded, and the House then proceeded to vote on the amendments, and the bill was passed before the adjournment.

circumstances beyond my control have hitherto prevented me. I now hope to enjoy that pleasure soon after retiring from public life; and if anything could add to the inducements to do so, it would be the cordial invitation thus extended from the "Empire State of the South." THE PROSPECT.

The Philadelphia Inquirer, after giving a brief sketch of General Scott's brilliant career public life, closes with the following: Here then, in brief, we have an outline the Life of Winfield Scott, the Whig candi-

date for the Presidency. Does it not prove him every inch of a man, a soldier, a hero, a civilian and a pacificator? Has he not earned the gratitude of the American people-and does he not deserve the highest honor in their gift? May not the Whigs point with confidence to their standard-bearer? May they not challenge a comparison with his competitor, Franklin Pierce? The one, a war-worn veteran, whose brow is bound by laurels won not only in the battle-field, but in the enlightened counsels of negotiation and peace—the other a very worthy citizen, no doubt, but not dreamed of for the Presidency by any considerable portion of the people of the United States, until in a moment of extremity he was suggested as a kind of last resort by the Baltimore Convention. But we repeat-what are the chances? We think that they are altogether in favor of the Conqueror of Mexico. He is known to the masses. They admire his character, they appreciate his services, and they are determined to give him a still more decided mark of respect and affection through the ballot-boxes. The intelligence from New York, Pennsylvania, and Ohio, is of the most encouraging character. That he will receive the electoral votes of those three great States is in the highest degree probable. The entire electoral vote is 296. The number necessary to a choice is 146. New York has thirty-five votes, Pennsylvania twenty-seven, Ohio twenty-three, the aggregate being eighty-five. Still necessary to make the competent number to elect, sixty-four. And where are these to be obtained? We will first put down the States

that have heretofore been undoubtedly Whig. Massachusetts. Rhode Island. Connecticut, Vermont, New Jersey, Delaware. Maryland, North Carolina, Kentucky, Louisiana. Tennessec.

"We have thus 85 more-or 21 more than he necessary number. We have also a chance for Maine, Indiana, Michigan, Wisconsin, Iowa, Florida and California. So that if we leave a large margin for changes against us, the prospect is still favorable. Some persons express a loubt of the success of the Scott Electoral ticket in Massachusetts. We do not indulge in any such misapprehension-but even should the Old Bay State falter for once, we could, it will be seen, do without her. Georgia, too, may also wheel into line, and give us her ten electoral votes. The prospect, therefore, we repeat, is full of encouragement. The chances are every way in favor of the Whig candidate. He is the man for the crisis and the occasion; he has been tried and tested in the field and at the council board, and has ever shown himself to be clear-headed, strong-minded, warm-hearted and patriotic. Heretofore his banner has ever Why should it not be so again

DEMOCRATIC EVIDENCE.

Mr. Merriwether, of Kentucky, having submitted a resolution in the Senate for the purpose of ascertaining the amount of money paid by the Government to Gen'ls Scott and Pierce for their services, in the course of the debate. Mr. Butler said, (we quote from the Republic) that perhaps he stood with respect to the candidates for the Presidency more in a position of indifference than any other Senator. He regretted that this resolution had been introduced in the Senate. He was opposed to any such inquiries. He felt satisfied that the two generals who were now honorable rivals would resist this as the last species of warfare they wished to be engaged in. He had not the slightest doubt but that every cent received by General Scott was honorably earned by faithful

service. Mr. Clemens said he would vote against the amendment, particularly that part relating to cost of medical attendanc, because it was impossible to estimate the value and cost of the medical attendance, received by either one .-Surgeons of the army were not paid according half as much as he deserved.

The Democratic Platform is repudiated by Northern Freesoilers and Southern States Rights Democrats, and yet these two parties are equally vociferous for Pierce and King. A Northern the Southern wing of the party :

Quitman, of Miss., says that it did, and therefore declines taking an active part in the support of General Pierce, as he was opposed to the Compromise at the time of its passage, and to those who advo-cated it, and still is.
