CITY OF RALEIGH, WEDNESDAY MORNING, APRIL 19, 1854.

NO. 26

## OUR WASHINGTON CORRESPONDENCE.

WASHINGTON, April 11, 1854.

The Gadsden treaty, instead of being rejected entirely by the Senate, which its opponents have the power to do, will probably be amended so as to give Mexico seven or eight millions of dollars, instead of fifteen, for the Mesilla valley territory; enough for the purposes of a railroad, should one ever be constructed—to the Pacific, and for the release of small claims under the 11th article of the treaty of Guadalupe Hidalgo.

As to the Garay claim, that is discarded altogether, not only as groundless, but as something worse. It is intimated that if the facts which have come out in the Senate, in regard to this claim, could be exhibited to the public, they would throw Gardnerism wholly in the shade. The treaty will probably be finally disposed of to-morrow or next day.

The Nebraska question is still never ending theme of daily speeches in the House, it being the parent of from two to three every day, pro and con; and so it will continue to be, though the subject is already worn thread-bare, so long as it continues to agitate the public mind. I think, however, that there is not so great a degree of feeling on the subject among members as there has been. Both northern and southern gentlemen are cooling down somewhat in regard to it, and I meet with many of the latter now who not only express entire indifference as to the fate of the bill, but with not a few who even think that they are in a measure relieved from the necessity of voting on it.

On the other hand, many from the north now admit that its passage would be productive of no harm to them, and, setting aside the evil of the precedent of disturbing a long settled compromise, they have little or no objection to see this seething down of feeling which existed here a few weeks ago, and to observe a more genial and fraternal disposition and leaning towards each other by gentlemen from the two sections of our country. Had not this spirit been brought forward, I cannot imagine any thing that would have produced the least unkind feeling between the two sections of the country; and it is most devoutly to be hoped that it will be the last time that national strife has been kindled up to alienate, even for a moment, one portion of our country from the other. Unfortunately, there are too many demagogues in both, who find they can make more political capital for themselves by exciting the people of the two sections against each other, misrepresenting the one to the other, and fostering their prejudices, than they can by endeavoring to allay sectional feeling and by combating such prejudices; as pettifoggers find it more profitable to excite quarrels among their clients than to prevent them. The consequence is that both the north and the south have their agitators, and unfortunately these have their willing audience and followers, who readily swallow and believe all that is told them, and thus become embittered to the most friendly regard directed towards them.

It has been with no little surprise and regret that we have heard that Mr. Everett has laid claim to the paternity of Mr. Webster's celebrated Hulseman letter; not that he might not have written it, but that he might not have done so in the name of Mr. Webster. The letter was never entirely approved by some very distinguished gentlemen who were here at the time—Mr. Clay, for instance. They deemed it unnecessary harsh and wanting in that courteous style which should ever characterize diplomatic correspondence. It was said to have been Mr. Everett's intention to publish his draft of the letter with the emendations of Mr. Webster; but it is added now, that he has been dissuaded from so doing by friends in Boston. His "second, sober thought," was a wise one.

There is something curious about this letter. In the first place, Mr. Webster said that he composed it while breathing the pure, invigorating air of the mountains of New Hampshire; and now, Mr. Everett, his friend, claims its paternity. In the next place, a friend of mine states that he heard a rough draft or general outline of the letter read by one who had prepared it in the State Department some time before the letter itself appeared. Again, Mr. Hulseman states in his despatch to Mr. Webster, that he received the instructions from his government in time to enable him to make the despatch to his Mr. Webster, predecessor. Now, so far from this, he did receive those instructions some months before Mr. Webster's predecessor went out to office, and then to him, with the chief clerk of the Department, who took a copy of them, and proposed to write to the Secretary on the subject, but did not. But I suppose Mr. Hulseman's statement to Mr. Webster is only to be considered a diplomatic fib.

There is no longer any doubt of a long and bloody European war, and one in which we cannot but take a lively interest. The extraordinary character of the propositions made by the Emperor of Russia to the British government at St. Petersburg, his subsequent declaration by the late publication of the secret correspondence between Sir G. H. Seymour and the Home Government, gives additional interest to the coming contest. It is one, also, in the result of which the Russian Empire will be increased, since the Russian Emperor does not tolerate protestantism, nor the circulation of the Bible in his dominions, and, being himself the head of the Greek Church there, appoints and removes his priests as he does his civil and military officers.

The members of the Greek Church in Turkey are as free to worship God after their own manner as the Catholics are here. The Greek Patriarch, who resides in Constantinople, is the head of this Church in Turkey, and is entirely unrestrained by the Turkish government. The Emperor of Russia claims to be the head of this Church in Turkey as well as in his own Empire; and has made every effort to become so. To this, however, the Turkish government will not listen, and she is right, as the Church in that case, would be a mere political machine in the hands of Nicholas, with which to create disturbances and embarrassments in the Sultan's dominions.

I understand that a speech will soon be made upon this Eastern question in the Senate, by a Senator competent to enlighten the public upon a topic so little understood in this country.

## OUR NEW YORK CORRESPONDENCE.

NEW YORK, April 11, 1854.

**Trinity Church in New York.**—Preliminary report of the Board of Trustees of Trinity Church, Company of Officers for California—Sale of Turkish Mouschaks.

In my last letter I presented some details relative to Columbia College in this city, and stated that its city property was derived from a grant made by the corporation of Trinity Church. As the subjects are somewhat associated together, I now proceed to mention a few facts in respect to Trinity Church itself. This is, without doubt, the wealthiest corporation in this country, and if it should ever be deprived of its possessions, the spoliation would fall heavily upon Columbia College, provided the title by which it holds should be invalidated. At all events, supposing this to remain intact, there is a provision in the old charter limiting the annual income to five thousand dollars.

## PARIS GOSSIP—THE FASHIONS.

[Correspondence New York Express.]

PARIS, March 13.—Spring dresses and hats begin to be displayed in open carriages of the lightest colors—pink, blue, lilac and white,—and parasols to match, which must cost from two to four hundred francs for a fashionable woman! The handles of these parasols are of coral, gold, ivory, or tortoise shell, ornamented with precious stones. The silk should match the hat it shades! All dresses must be trimmed excessively with flowers, ruffles, and ribbons of various colors. You cannot possibly overload either robe or head, for the present style. Really, a Parisian lady, in full toilette, is to me a most absurd object; but tastes differ, fortunately for the merchants, who now ought to grow rich, I think.

Let us have put a check on hats, and concerts in public and private, "receptions" are the rage. The most fashionable American lady in Paris, Mrs. Kidgway, will be home for the next "four Fridays," (she has already given two magnificent balls.) The resident party of Livingston, Wall, & Co., W. H. Babitt, has issued cards for "every Saturday evening." Neither our Minister nor our Consul has entertained, as yet, but almost all the other Americans here throw open their apartments frequently to the world, and seem to delight in opening the American reputation for hospitality, even in Paris. The recent weather has revived every one, and the streets and drives are crowded with promenaders, after mid day. In New York, ladies dress to exhibit themselves on Broadway, or in the Fifth Avenue, here, in the Bois de Boulogne, where every one goes from two to five o'clock, and where you see the newest and richest robes trailing in the mud, while equipages pace along slowly in the road until their wearers have seen the new dresses all around, when the ladies re-enter their carriages, and drive off to inspect others, who are in turn getting out to exhibit themselves.

**GREAT MATCH RACE—SHORTEST TIME ON RECORD.**  
NEW ORLEANS, April 8.—Leconte, the celebrated Louisiana horse, to-day won the four mile race, time 7 minutes 26 seconds, beating Lexington, winner of the great race some days ago. This is the shortest time on record. An immense concourse of people was present. It was a scene of intense interest and excitement. Much money changed hands.

**BOBSON, April 7.**—The statement recently made public that Hon. Edward Everett was the author of the celebrated Hulseman letter creates no excitement in this city whatever; neither has the disclosure of the fact caused any ill-feeling between the friends of the late Mr. Everett and Senator Everett. The original draft of a statement was returned to Mr. Everett more than a year ago, by Mr. Webster's literary executors, and a printed copy taken, which, with the original, will be preserved among Mr. Everett's papers. He does not contemplate any publication. Mr. Everett's recent visit to Boston had nothing to do with the matter. He came simply to visit his wife, who, for some time past, has been in very delicate health.

**GUANO.**—Below we give the quantity of Guano that has been received at the three Depots in this county, Macon, Warrenton and Kidgway, since the 1st of Oct. 1853. We have learned the amounts received at Littleton and Henderson, and would be obliged to the Agents at those Stations for a statement of the amount received by them for farmers of Warren county during the above time. We should be very glad to obtain also, from all the Stations in this county, a statement of the amounts received for the last year, if they have leisure to devote to the research, that we might show the increase of consumption in the county during each year. This calculation is up to the 5th inst.

|                  |           |
|------------------|-----------|
| Warrenton—pounds | 458,527   |
| Macon            | 95,854    |
| Kidgway          | 547,874   |
| Total            | 1,102,255 |

We shall revert to this subject again, and should like to see the nearly increased amount of Guano, and also the increased exportation of Wheat and Tobacco.—Warrenton News.

The following suggestion we take from the N. Y. Herald:

A Sick Man.—The Emperor Nicholas in his familiar conversations with the British Minister at St. Petersburg applies despatches the Emperor of Turkey as a sick man on his dying bed, and thinks it wise to arrange the division of his estates among heirs, while he is yet alive, so as to prevent the fearful squabble which must otherwise ensue after his death. So with President Pierce at this time. He, too, is a sick man, and the sooner the democracy arranges the distribution of his political effects the better.—The Emperor Nicholas is a long-headed politician. Let the democracy reflect upon his advice, and act accordingly.

**ABOLITIONISM DEFINED.**—Senator Bucklewood, of Pennsylvania, in an admirable speech in favor of the Nebraska bill, thus defines abolitionism:

"Sir, the spirit of abolitionism is thoroughly venomous and implacable. No concessions will satisfy or appease it. Inspired by a deadly, inextinguishable hatred of our system of confederate government, it would rush to the accomplishment of its designs over a prostrate Constitution, and through the barefaced flames of civil war, to destroy it. It is a passion, and passions, it is to be resisted as an enemy whom no quarter is to be given, and to conciliate whom is to betray our country."

Senator Gwin has broken up his household establishment at Washington—all to be sold at auction on Thursday next. Mrs. Gwin's children and servants will in the next steamer for California, (the George Law) and the Senator, it is stated, will follow, as soon as he can leave the Senate. An election for a United States Senator comes off on the third Monday of the present month, and it is supposed Dr. Gwin will find it hard work to secure a re-election, as he is all once hard pressed by a strange opponent. It is stated in the San Francisco Advertiser, that the Hon. David C. Broderick, the "great New York subterranean hero," will beat him beyond a doubt.

**IMPORTANT NEWS.**—The Washington correspondent of the New York Herald says that the President soon expects to receive an answer from the Spanish government, positively refusing to accede to the demand made with regard to the Greek Warrior affair, together with information that the English and France have despatched strong fleets to reinforce their squadrons in the West Indies, thus carrying out the terms of the secret treaty to uphold the Spanish dynasty at Cuba.

Congress has generously given eight months pay to the officers and soldiers who were saved from the ill-fated San Francisco, but Congress has not yet given anything to the brave and noble men who saved them.

## BY LAST NIGHT'S MAIL!

CONGRESS

The Senate, on Tuesday, after disposing of the usual morning business, yielded to a request of Mr. BAKER to defer the consideration of Executive business till the bill allowing a credit for duties on railroad iron might be considered; and this bill having been taken up, it led to a discussion which occupied the remainder of the sitting. Its further consideration was then postponed to the 24th inst.

In the House of Representatives, Mr. BENNETT's bill, granting lands equally to the several States, came up for consideration; and, after an ineffectual motion to lay it upon the table, it was postponed for two weeks.

The House resumed, in Committee of the Whole, the consideration of the Civil and Diplomatic Appropriation bill, but made no progress thereon. Mr. CULLUM, of Tennessee, spoke an hour on the Nebraska bill, considering it in the aspect of an attempted repudiation of the obligations of some of the most distinguished men of the country, and denouncing the people of the South who asked for the measure from their own representatives, or desired it at the hands of a Northern champion.

The land graduation bill was postponed, and business on the Speaker's table was considered and referred.—*Intelligencer of Wednesday.*

**WASHINGTON April 12.**  
SENATE.—After the transaction of some unimportant business the Senate went into Executive session and afterwards adjourned.

**CHARLESTON, April 11.**  
In the Convention this morning, resolutions in favor of the Pacific Railroad and direct train were debated by Messrs. Jones, of Tennessee, and Albert Pike, of Arkansas. The latter denounced all reliance upon Congress for aid.

**THE PACIFIC RAILROAD.**—The Convention adjourned.

**DEMONSTRATION OF THE ADMINISTRATION.**  
NEW YORK, April 12th.  
The Democratic State Committee of New York has passed resolutions condemnatory of the Administration.

**NORTHERN MARKETS.**  
BALTIMORE, April 12.—Sales of 3500 bbls. of flour at \$7 50-92. Wheat—white wheat \$1 75-80. Corn—yellow corn 70c; white 75c.

**NEW YORK, April 12.**—Flour—This article is easier to-day. Southern \$7 02-7 87. Corn 75c to 76c per bushel.

**NORTH CAROLINA COPPER ORE.**—It is stated that the one hundred tons of copper ore sold at auction in New York, on Saturday, for the North Carolina Copper Company, brought \$5,300 for every one per cent, and is estimated to net the company from 18,000 to \$20,000. In three weeks, it is said, the company will have cleared up of 100 tons, for immediate delivery.—*Balt. Sun, 11th.*

**Fifty Dollars Reward.**  
RANAWAY from me, at Chapel Hill, a negro man, known by the name of GEORGE ARKINGTON. Said negro is straight and well-formed; about thirty or thirty-five years of age; five feet ten inches high; weighs from a hundred and fifty to a hundred and sixty pounds. In complexion, he is a very bright mulatto, almost white; has straight hair, of a light brown color and blue eyes. Has a scar on his forehead, and a small mark on his forehead, caused by a burn when a child. It is supposed that he will endeavor to make his way to the North. He is a most excellent carriage driver, of very genteel appearance and would scarcely be taken for a servant. The above reward of fifty dollars will be paid for him, if delivered to me at Chapel Hill, or twenty-five dollars, if lodged in any of the jails of this sort on reasonable terms as any person in the State,—having made extensive arrangements for so doing. He flatters himself that the work he has already done in Raleigh has given entire satisfaction, and he hopes by strict attention to his business, he may merit a continuance of public favor. H. Wiley.—For sale by W. L. POMEROY, Raleigh, April 14.

**"Eagle Hotel" for Sale!**  
I AM authorized by the owner of the Eagle Hotel, at Chapel Hill, to offer it for sale. Miss HILLMAN, who has been in possession of it for about twenty years, desires to retire to a more private life. This Hotel is probably as good property of the kind as is to be found in the State. Its income for several years past has ranged from fifteen to twenty thousand dollars a year; and at present is rather beyond the later amount. As buyers will probably examine the property for themselves, any further description here is unnecessary. Possession will be surrendered on the 10th of June, if desired. For further information, address the subscriber at Chapel Hill, N. C. SAMUEL F. PHILLIPS, w3m 31.

**DENTAL CIRCULAR.**  
GREAT AND IMPORTANT DISCOVERY IN MECHANICAL DENTISTRY.  
Having received the highest Premium and a Diploma from the State Fair of N. C. and Va. THE Subscriber respectfully informs the public that he has succeeded in making a Mineral Compound, by which he can make entire Sets of Teeth on PLATINA PLATE, with continuous gum, which are almost equal to nature. Teeth inserted on this beautiful and indestructible method infinitely surpass, in elegance and natural appearance, any others that have hitherto been presented to the public. These are cemented to the plate, the cement being as strong as the Teeth. It perfectly fuses to the teeth and plate, forming a solid and continuous gum, without crack or crevice. This Gum cannot be acted upon even by the most powerful acids, and has a perfectly natural and life-like appearance; never becoming offensive or disagreeable to the wearer, as there is no place for secretions to form. The Subscriber having spent many years in the presentation of SCIENTIFIC AND MECHANICAL DENTISTRY. Can confidently assure the public, that whatever operations may be entrusted to his care, will be performed in such a manner as to give entire satisfaction. BELLEHAM, an accomplished and competent Assistant, has been employed to aid the Subscriber in the mechanical execution of his work, and other operations. Those interested are requested to call and examine specimens of the above—together with his beautiful Book Teeth. DR. ALFRED WHITEHEAD, Dentist, Office, corner of Third and Bollingbrook Sts. N. C. FETTERBURG, Va. N. B.—Being largely engaged in manufacturing Mineral Teeth, Dentists can be supplied on reasonable terms. Also, Mechanical work done for Dentists residing in the country; and all materials furnished. A. WHITEHEAD, 17-17 Feb. 24th, 1854.

**1000 Acres of Land for Sale.**  
THE Subscriber wishes to sell his lands in the county of Beaufort. They lie on a large and navigable stream, (South Creek), which empties into Pamlico River, on its Southern side, some thirty miles east of the town of Washington. Said lands are a part of the large and fertile swamp, formerly owned by Isaiah Rogers, Esq., can be easily drained, and, competent Judges say, render it productive as the best lands in the county of Hyde. The tract is a dense unbroken forest, and offers the most flattering inducements to the planter, who wishes to establish a profitable farm in North Carolina. These lands, at Mattamuskeet, would command thirty dollars per acre, and are really more valuable, located, as they are, in a region of country, seldom, if ever, visited by storm, and altogether free from the danger of floods and tides.—They would be sold upon the most liberal terms, and a perfect title given the purchaser. Any person or persons wishing to purchase said lands can do so by calling upon him at Mr. Lawrence's Hotel, Raleigh, or upon Mr. Wm. H. Willard, of Washington, N. C., whom he has authorized to act as agent in the premises for him. RICHARD L. WYNE, w4 16 Feb. 16, 1854.

DESIRE particularly to inform the Merchants of North Carolina and the Eastern section of Virginia, that they have just received their Spring stock, comprising the largest and most desirable assortment that we have ever had the pleasure of offering for their sale. We would be pleased at the same time that we can and will compete with any house in the wholesale Shoe business, whether North, South, East or West of us, in regard to styles, qualities and prices. When the facts are taken into consideration, that we confine ourselves strictly to a wholesale and jobbing business, that we purchase our goods chiefly for cash, and that we conduct our business at a more moderate expense than any northern house, we think it will be apparent to all that we are prepared to enter into the strongest kind of competition with our cities. We respectfully solicit a call from Merchants visiting Norfolk, when we can assure them of the truth of our assertions. We would be pleased to receive orders, which shall be faithfully and punctually executed. March 7, 1854. 2m 20

**SWAMP LANDS—N. C.** I WILL sell at Public Auction, at the Exchange, Philadelphia, on the 2nd day of May next, thirty-nine Hundred Acres of Swamp Land in Beaufort County, N. C. This tract is without the attention of Capitalists, and is situated on the level of Tar and Roanoke Rivers, and within six miles of them, thus rendering its reclamation by drainage feasible at a small expense. It is densely timbered with Cypress, Juniper, and some Pine. Terms and further particulars, when known, will be published in our papers, and we feel confident that we can sell as low, and offer as great inducements, as any other Jobbing House in the country. We respectfully solicit from merchants and dealers generally an examination of our stock. MUIR & BRYAN, Sign of the Pad-lock, Petersburg, Va. March 14, 1854. 2mos 22

We have a larger and more commanding stock of goods than we ever yet offered to the trade, and we feel confident that we can sell as low, and offer as great inducements, as any other Jobbing House in the country. We respectfully solicit from merchants and dealers generally an examination of our stock. MUIR & BRYAN, Sign of the Pad-lock, Petersburg, Va. March 14, 1854. 2mos 22

**Now for Cheap Goods.** MURRAY & ONAL HAVE taken the store lately occupied by W. & A. Smith, and are receiving their stock of Fancy and Staple Dry Goods, Groceries, Crockery and Glassware, &c. Being new beginners, they have to build up a trade; so do this, they are determined to be undersold by none in the city. They will sell goods cheap and no mistake; to be convinced of this fact, call and price their goods before purchasing elsewhere. We would be pleased to show, and if the goods suit, they guarantee to make the price right. Don't purchase before examining their stock.
