THE LOUISBURG CONVENTION .- THE FOURTH CONGRESSIONAL DISTRICT.

It is very generally rumored that the Conwhich assembled in Louisburg, on Monday last, the South : nominated JAMES B. SHEPARD, Esq., of this City, as their candidate for Congress in this District,-composed of the counties of Wake, Warren, Johnston, Nash, Orange, Granville and Franklin.

The reported composition of the Convention, together with the nomination of Mr. SHEPARD, at once give the lie direct to the oft repeated assertion of the locofoco press, that the new orunwards of one hundred and fifty delegates were in attendance, of which number a considerable majority were formerly Democrats! Mr. | med for the express purpose of keeping out the SHEPARD, it is well known, has heretofore been a most decided, firm and unwavering Democrat, -having been several times elected to the Legislature of the State by his party; and in 1846, he was their candidate for Governor of the

If it turn out to be the case that Mr. SHEPARD is the nominee of the Louisburg Convention, we shall not besitate to give him a cordial support. He possesses the finest qualities of head and heart,-is an able and accomplished debater and a chivalrous gentleman. He will not fail, we believe, to expose and denounce, in proper terms, the corrupt designs, imbecile character and anti-American tendencies of the present Administration, with which all good men are thoroughly disgusted.

But more,-when we "know" more.

THE FIRST DISTRICT.

RALEIGH AND FAYETTEVILLE. We are gratified to learn that exertions are being made to induce the Post Office Department at Washington to authorize the new and enterprising contractor (D. G. McRae, Esq.,) to put four horse coaches on the route between this place and Fayetteville. THE AMERICAN PARTY OF NEW YORK. It was stated, in a telegraphic dispatch, in our last, that the American Convention, recent

ly assembled at Syracuse, had expelled a member for uttering sentiments of disloyalty to the Union. We have since been put in possession of the Conservative, National, Constitutional resolutions adopted by the Convention. The following is the platform, and it commends itself to the cordial acceptance and approbation of every Southern heart:

1. Americans shall rule America.

2. The Union of these States. 3. No North-No South-No East-No West. 4. The United States of America as they are,

one and inseperable. 5. No sectarian interference in our legislation or in the administration of American laws. 6. Hostility to the assumptions of the Pope, through the bishops, pricets, and prelates of the Roman Catholic church, here, in a republic sanctified by Protestant blood. 7. Thorough reform in the naturalization

your fortunes and your sacred honors. So help you God and keep you steadfast! [Each one shall answer, "I do."] 8. Free and liberal educational institutions for all sects and classes, with the Bible, God's holy word, as a universal text book.

The Convention in New York, too, adopted enthusiastically the Third Degree of the American party, which we publish below, accompanied by some comments of the "Richmond Penny Post." It will be seen that the "Post" admits it be the genuine obligation which members of the Degree have to assume, and we therefore ask to it the earnest and undivided attention of our readers,-begging them, at the same time, to recollect that it is stigmatized by the Abolitionists as the "cotton" or "nigger" Degree; because it enjoins the preservation of vention of delegates of the American party, the Union and the protection of the rights of

THE UNION, OR THIRD DEGREE.

We publish below the third degree of the American party, exposed by some perjured villain, or purloined by an unprincipal thief. We are glad that such a rascal has existed, and much good may his rascality do our opponents. t puts a final quietus upon the calumny of our adversaries, that the American party is Abolition. This is its third degree, and it proves, OUR ORDER. A gentleman who participated in the formation of this degree and the obligation is now in the city, and tells us it was forabolitionists. We publish it with great pleas ure, and the only regret we have in the matter is, that the scoundrel was not smart enough to expose it long ago. Read it, all of you, and say can an abolitionist be a member of the American party! No! no! no! will be the unani-

[From the Cleveland (Ohio) Leader, May 9.1 KNOW NOTHING THIRD DEGREE .- It is known to all Know Nothings, and many outsiders besides, that a new Know Nothing ritual has been signals, grips and pass-words, and that a new degree has been added. For one or two months past the county deputies have been busy introducing it into the various Councils. The "new work" costs each subordinate lodge \$12. This at Washington. We have often alluded to the pro-slavery the confirmation of it in black and white before us. The great mass of the Know Nothings of obligation stultifying their political sentiments, we place before them the oath they will be required to take. And here let us ask them, and all honest man, what question has ever disturbed the peace, or endangered the perpetuity of the Union, save the Slavery question? Under the pretext of "preserving the Union," the members are really sworn to "put down Anti Slavery agitation." And as to the description of adjustment or all "political discontents of differences," which they are sworn to procure, took place between the two gentlemen at Rox- | what is it but more compromises of the Fillmore and Fugitive Slave Law? Every rational man understands what the originators of this degree were after when they invented it. We all know the grand object was to ignore and crush out Northern opposition to slavery ag gression, under the old pretext of saving the Union. The Slaveholders who cooked up the degree, with the aid of New York Silver Greys, have but one interpretation for it, and that is, a dagger with which Anti-Slavery men are expected to commit political suicide, under the

delusion that they are saving the Union ! We should also call the special attention of those who have seen "Sam," but have not had a sight at this last wrinkle on his brow, to that part of the oath which binds them to support only Third degree members of the Order-none but orthodox Union savers-for office, and ask all honest men, in or out-of the Order, wherein Pierce was nominated, or the Whig platform.

THE NEXT EUROPEAN NEWS .- Much anxiety is evinced for the arrival of the next Steamer as the result of the bombardment of Sevasto pol will probably decide the seige. It was expected that the assault would be made after five days' firing, but ten days have not render ed it practicable. The best report from the Allies is that their fire is superior to that of the Russians, and that some advantages have been gained over the exterior defences. Meantime the guns of the beseigers are getting strained and there are rumors that their ammunition is falling low. It is said that the government has received intelligence which it withholds from the public, and naturally the worst construction is put upon the news that is suppressed.

"Hisses."-These may be heard in the galleries of the Massachusetts house, and no longer on the floor. Hiss is expelled. The story of Joseph and Potiphar's wife is supplanted by what we have always asserted, that AN ABO- that of Joseph Hiss and Patterson's (Billy's) announces his intention of proving one hundred and eighty of his associates guilty of adultery.

The wheels are of cast iron; the hour bell is eight feet high and above nine feet in diameter, weighing from fourteen to fifteen tons. The weight of the hammer is four hundred pounds.

Chloroform, used so frequently to ease the pains of the suffering, is now very often employed to ease the plethoric of their surplus cash. In Iowa, a man was recently robbed of \$800 by the application of chloroform. Being in, he applied cloths wet with chloroform to the faces of the sleeping husband and wife, and then found the money hid between the straw and feather beds.

He had only money enough to pay his wife's fine and his own first fine, and or the other was sent to jail.

WEATHER AND HEALTH AT NEW ORLEANS .-The hot weather begins to be oppressive at New Orleans, and many of the inhabitants are preparing to leave their business and the city for the summer. The Picavune urges the necessity of immediately adopting quarantine regulations. At present the city appears to enjuy good health.

WHAT IS BAGGAGE?-In a recent suit in New York, the question came up, whether a gold watch is an article of wearing apparel to be deemed baggage. The Superior Court decided it is an article of wearing apparel, and when not carried about the person, but in a trunk, while travelling, is to be deemed baggage.

All those he conveyed to his victims, who paid him their money, gave him his commission, and went away confident in the security that held their funds. One great cause why he was enabled to continue his frauds so long undiscovered, is the fact that nearly all of his sufferers are French, who do not understand our language, and who were ignorant of the legal procedure in such cases. Gazetteer of the United States. EDITED BY T. BALDWIN AND J. THOMAS, M. D. With a new and superb Map of the United States, Engraved on Steel. Above 1200 pages, 5vo.

The publishers take pleasure in announcing the

completion of this, the most elaborate, comprehen sive, and perfect Gazetteer of the United States, that has ever issued from the press. In its preparation, no considerations of expense or labor nave been allowed to interfere with a work designed to be as perfect as possible in every department, and in all of its details. Nor have the successive issues of other Gagetteers, hurried through the press to claim the market, tempted the publishers to offer their book before all the ample Census (of 1850) and other material in the hands of the Editors were fully digested and accurately arranged. When this Gazetteer was first announced, 800 pages, or, at the most, 600, were designed as the limit of the book. But so wast was the amount of matter accumulated by the personal labors of the Editors and their assistants, as well as though the active efforts of several thousand Correspondents in all parts of the United States, the work has swelled to near 1300 pages. The amount of new matter which it contains, all of a recent character, is very large, and in many instances embracing Statistics and Populations to 1854. This gives it an intrinsic value over every other work of the kind in existence. The only complete and thoroughly reliable Ga-

zetteer of the United States yet published !
