Mr. C. W. JAMES, No. 1 Harrison Street Cincirnati, Ohio, is our General Collecting Agent for the Western States and Texas, assisted by H THOMAS, S. W. RAMSAY, WILLIAM H THOMAS, THOS M. JAMES, C. M. L. WISE-MAN, A. L. CHILDS, and Dr. WILLIAM IRWIN Receipts of either will be good.

Mr. ISRAEL E. JAMES, No. 182 South Tentl Street, Philadelphia, is our General Traveling Agent, assisted by WM. H. WELD, JNO. COL INS, JAMES DEERING, J. HAMMITT, R. S. JAMES, THOS. D. NICE, R. W. THE RESULT of the election in Virginia, as the "Philadelphia Sun" very truly observes, gives to the American party the character of a National organization, and shows that its principles are as much adapted to the South as the North. It proves that its enemies could not infuse into the South the notion that it was designed to war with their peculiar institutions, and that its tendency was subversive of the Constitution. Patriotic Virginians saw in it the bond which was to grapple the States of the Confederacy together with books of steel, and they clung to it with a tenacity which showed how justly they appreciated its value. Though they were not able to lift the "Old Dominion" out of the slough of party politics, into which the Richmond Junto had plunged it, yet they came near enough to prove that the period is at hand when it is probable she will be redeemed, regenerated and disenthralled. The Democratic party had the power and the offices in the State, and the national patronage was dispensed on the same side. This was all wielded for the purpose of arresting the spread of American principles, and it is not surprising that it was sufficiently strong to prevent their success .-Had there been a secret ballot, no one could question that the result would have been other wise : for then men would have voted according to their consciences and convictions. The viva roce vote enabled the political leaders to mark and punish all who held office and place, and who did not vote according to the bidding of locofocoism; for the decree had goneforth that any wavering was to be attended with decapita-

VIRGINIA ELECTION .- Official returns receivel at Richmond from one hundred and ten counties give Mr. Wise a majority of 10,791. The thirty-two counties to hear from gave Mr. Pierce 591 majority. The Congressional delegation, it is now probable, will be wholly locofoco. The dominant party have, as far as heard from, gained fifteen and lost thirteen members of the Legislature.

CURIOSITIES OF THE CENSUS .- The census of 1850 shows that the oldest person living in the United States was 140. This person was an Indian woman, residing in North Carolina. In the same State was an Indian aged 125, a negro woman 111, two black females 110 each, one mulatto male 120, and several white males and females aged from 106 to 114. In the parish of Lafayette, Louisiana, was a female black, aged from 110 to 115. There were in the United States, in 1850, 2,555 persons over 100 years. This shows that about one person in 9,000 will thank the News to set us right, but we make be likely to live to that age. There are now 20,000 persons in the United States who were living when the Declaration of Independence was signed, in 1776. They must necessarily be about 80 years old now, in order to have lived at that time. The French census of 1851 shows only 102 persons over 100 years old, though their total population was near 36,000,000. Old is very certain: it would, we imagine, impair factions of the day. frequently than in France.

THE ALLIED FLEET before Sebastonol maintain a very strict blockade. Even small boats from the harbor are prevented from coming out by numerous launches from the blockading force, which cruise by night close into the | quently, mouth of the port. At night, one or more steamers advance to within a half a mile of the marine forts, and, after firing a broadside of shot and shell, many of which fall upon the city itself, steam off again. The forts at once reply to the fire, but the darkness prevents the vessels from being seen, except at the moment of the opening of the broadside. On the night of the 24th of April, the French screw liner Montebello, 120, approached within half a mile of the forts, and, after firing sixty guns, hersteampipes blew out from the boilers. In this help less state, the wind being on shore, she drifted in, and would have been lost, but for the providential coming up of a steam frigate and gunfrom the fleet, the Russians send up shells, which, as they explode, send forth fire balls to spread light, and thus to indicate the position of the attack.

FILLMORE-THE MODEL PRESIDENT. The Thibodeax (La.) Minerva gives emphatic utterance to the following sentiment :

"No man stands higher in our opinion as statesman, or enjoys a greater share of the affections of the people of Old Lafourche, than Millard Fillmore, whose administration occupies one of the brightest pages of the history of our country. We have no hesitation in asserting that Mr. Fillmore is this day the first choice of Louisiana for the Presidency; and his nomina tion for that high office would cause to be rallied around him some of the most eminent and jority for Gentry. wisest of BOTH POLITICAL PARTIES."

We shall be slow to commit ourselves to any particular candidate for the next Presidency; we have men here in North Carolina who would worthily fill that high office, and whom we should be pleased to support; but we do say, with the "Memphis Eagle," that Millard Fillmore deserves well of the Republic.

For nearly three years he performed the duties of the Chief Magistracy of the country, and during that period made a name for prudence, moderation and administrative skill, which History has recorded in large and resplendent characters. Leaving office in 1853, he carried with him to retirement as much of respect, admiration and gratitude as any of his predecessors, since the days of Washington .-That feeling has suffered no diminution since. On the contrary, it has gone on increasing, and his retirement, instead of lowering, has elevated, him in the hearts of his countrymen. Even those who had been in the habit of maligning him while in office have, since he ceased to be President, reluctantly accorded to him every quality that adorns a man, or marks a pure, upright and far sighted statesman. North or South-and especially at the South-his name cannot be mentioned in public assemblies or in private circles without eliciting expressions of profound respect and applause. All, without distinction of party, now freely accord to him the meed of a sincere heart and an earnest patriotism; and all have conceded that if he erred at all as President, his motives were ever the

Never, perhaps, in the history of this country, were tributes of respect, such as these, more fairly, or honorably, or (all things considered) more GLORIOUSLY, earned. Coming, as he did, from the stronghold of Abolitionism, Western New York, he, on every occasion, in the exer- ed that he had been selected by Mr. Cheves, the cise of his high functions, proved himself the firm friend of the constitutional rights of the South, and the unsectional President of the whole Union.

Now ice in the City of Raleigh is worth the enormous sum of one cent per pound. ANDREW J. DONELSON, ESQ. The subjoined letters from Major Donelson speak for themselves. The political antece dents of the writer; his personal and official relations with General Jackson; the responsible diplomatic stations to which he was called by President Polk; the large degree of confidence reposed in him by President Jackson and President Polk; the determined opposition which he ever avowed to the doctrines and schemes of secessionists and disunionists, of whatever stripe; and his steadfast maintenance of the principles of the Compromise Measures of 1850, at a time when his private interests might have been subserved by truckling to the requirements of the leaders of the Southern Democratic opponents of those measures,-these considerations all lend interest to the political relations which Major Donelson, in entire accordance with what he understands to be the good old-fashioned Democracy of Jefferson. Madison, and Jackson, deems it his duty to hold towards the present Democratic candidate for Governor of Tennessee and the present Democratic occupant of the White House at Washington .- Nashville Sentinel.

To the Editor of the Republican Banner: SIR: As several of my acquaintances in vaious portions of the country have written to me, expressing a wish to know my views respecting the recent nomination of Governor Johncan answer them more briefly than by asking the publication in your columns of the following note to Mr. Eastman of the Union and American. This gentleman was known as a fireeater during the discussions on the Compromise of 1850, and became at once the favorite of the new school of Democrats, after it was ascertainfamous disunion orator of South Carolina, to print and circulate copies of his speech in the Nashville Southern Convention. In that speech Mr. Cheves boldly advocated the formation of Southern Confederacy, and ridiculed the Con-Undoubtedly Millard Fillmore has richly and stitution of the United States as a dead carcass. Mr. Cheves is still a great name in the estimation of the fire-eating or filibustering class of politicians who are scattered in ambush throughout the country, waiting to see what advantage can be secured to the project of seizing Cubs and establishing a Southern Confederacy, from the treachery and imbecility of Mr. Pierce and his Cabinet. Yours, respectfully,

A. J. DONELSON. NASHVILLE, May 22, 1855. Sin: As I am not a nullifier or abolitionist, or apologist, in any degree, for President Pierce and his cabinet, in their attempt to govern the factions in the land, you will oblige me by era-

You maintained the opinion during the discussions on the Compromise of 1850, and after its passage, that that measure was a cowardly surrender of the cause of State Rights, in which respect you agreed exactly with such harmonious statesmen as Messrs. Davis, (the Secretary of War.) Mr. Soule, (late Minister to Madrid,) Giddings, of Ohio, Sumner, of Massachusetts, and Seward, of New York. If you have changed that opinion, or if any of those have who cooperated with you in the memorable crusade of hat period against the peace of the country, I have seen no evidence of it in the columns of your paper, but, on the contrary, much that is calculated to deceive the people, and, under the guise of the word Democracy, to inaugurate an-

We all remember that the most active leader of the Tennessee division of the new school of Democrats, after a mysterious flourish of patriotism on the top of his Mount Pisgah, came down and informed us that his heart would break before he could rejoice at the passage of the Compromise, and more recently, that the present nominee to the office of Governor, by the same school of Democrats, shocked the religious sense of the age in calling Democracy the Jacob's ladder of the sacred scriptures. If the people of Tennessee are prepared to fill their hief offices with those who preach this kind of higher lawism, I do not see how their voice is to become potential in putting down the fanaticism of such men as Giddings and Seward. The people of the North have certainly equal rights with us of the South, and it may be expected that they will exercise them with as much freedom as we do ours. TRUE PHILOSOPHY AND TRUE SPIRIT .- The Richmond Whig," commenting upon the result of the Virginia election, remarks:

"We speak from experience when we say, that there is no more pleasant and delightful stream in the world than Salt river. We have lived upon its banks all our days, and nearly all the best friends we have in the world live there with us, and we are utterly astonished at ourselves, that we should ever have felt or expressed a wish to leave it for less inviting regions. To be sure, there are no "spiles" there to gladden the hearts of worldly and selfish natures; but we have never been accustomed to the "spiles." and indeed we feel entirely too spiritual ever to care about things so gross and so far beneath he aspirations of immortals. HOW THEY EXPECT TO BEAT IN BALTIMORE -The anti-Americans in this city are quite given ust now to talk about defeating "Sam's boys" at our next election here, and when asked to explain why they expect such a result, they say "we have not half the working men in the city now that we had last year, as the where to seek a living." Verily this is pretty talk for a party that for years set itself up as the poor man's party, and claimed to be the especial champion of the working man. Two years ago the folly of this claim was proven by attacks upon the working classes which appeared in their organ, and in articles in the Sun from them rejoicing over the calamity that deprived so many working men of employment and brought suffering upon their families. What these professed friends of the poor are rejoicing over ought to be a source of heartfelt regret and sorrow to every good citizen, but bigotry and intolerance have now got so strong a hold upon the Pierce Democracy, that nothing delights them more than the distress which followed in the track of the financial catastrophe. No doubt they would like to see the whole army of foreign paupers and convicts; but in spite of all their intolerance and proscription, they will find quite enough of the American spirit left in Baltimore to give them another overwhelming defeat at the next election. It is still in store on the banks of our rivers, and the consequence is a great monetary pressure. But worse than all this is the great scarcity of provisions. Ba con 15 cents per pound, corn meal \$1,50 per bushel, and flour \$20 per barrel, and it is difficult to get those necessaries at these high prices. Unless we can get rain in the next ten days
