We hear much of Democracy, and thousands shout its praises, but few there are who ever stop to inquire whether, in this country, it has not become a mere name with the party claiming to be Democratic, without any longer having any substance to justify them even to a claim of the name. According to Webster, Democracy is "a form of Government in which the supreme power is lodged in the hands of the people collectively, or in which the people exercise the powers of legislation"-in a word, such a Government as that of Athens; and a Democrat is one who "favors the extension of the right of suffrage to all classes of men."-Applying such a test to the so called Democracy of this country, we are, of course, left in the dark as to its claims to the name; for in its character, organization, discipline, principles and measures, it bears no more resemblance to the Democracy of Athens than does a Hottenvotaries have given many definitions of its real character, purposes and objects; among whom is the author of the Republic of the United States of America, who describes it as fol-

What motion is to them, Democracy is to principle. It is the soul of action. It conforms to the providence of God. It has confidence in man, and an abiding reliance in his high destiny. It seeks the largest liberty, the greatest good, and the surest hoppinesa. It aims to build up the great interests of the many, to the least detriment of the few. it remembers the past, without neglecting the present. It establishes the present, without learing to previde for the fature. It cares for the weak, while it permits no injustice to the strong. It conquers the oppressor, and prepares the subjects of tyranny for freedom. It mests the bigot's heart to meekness, and reconciles his mind to knowledge. It dispels the clouds of ignorance and superstition, and prepares the people for instruction and self-respect. t adds wisdom to legislation, and improved judgment to government. It favors enterprise that yields a reward to many, and an industry that is permanent. It is the pioneer of humanity-the conservator of nations. It fails only when it reases to be true to itself. Vox Populi Fox Dei has proved to be a proverb and pre-Accepting this as a correct definition of the so-called Democracy of the United States, let

us see how far it carries out its professed objects, and what claim its acts give it to the name it bears. "It conforms to the providence of God." If this be the mission of true Democracy, in what respect does the so-called Democratic Party thus conform? It cannot be by such procedures as the violation of treaties with nations with which we are at peace, nor by encouraging Fillibuster expeditions to rob and plunder neighboring Governments; and yet these are characteristics of the so-called Democracy we now have in this country.

Dave (the murderer) on being questioned again, acknowledged that he had done the deed, but Hardy hired him to do it, telling him he would give him five dollars, if he (Dave) would kill her. He then went with some gentleman and showed them where he took her from -said she was sitting down playing in the water. He then showed them where, in taking her off, he had thrown her on the ground, evidently very hard. A little further on he had thrown her on the ground again, and then again.
