"To the close observer, the fact is as apparent as the unclouded sun at noon-day, that the American Party will carry the Empire State next fall. There is no earthly power that can prevent its having a large pluralty, if not a clear majority, in the State. To nobody is this so apparent as to the Republicans and Democrats. While to them it is a fact disheartening and chilling, to Americans it is full of hope and well calculated to inspire confidence and renewed energy for the

THE PRINCIPLES OF THE AMERICAN PARTY. Much as the "Democracy" abuse and denounce what they are pleased to term our "vile principles," they have all be enendorsed from time to time by their own great men. In a Fourth of July oration, delivered at Lancaster, Pa., in 1815, the Hon. James Buchanau uttered these senti-

"Above all, we ought to drive from our shores foreign influence, and cherish American feeling. Foreign influence has been in every age the curse of Republics. Its jaundiced eye sees everything in false colors. The thick atmosphere of prejudice by which it is ever surrounded excludes from its sight the light of reason."

Mr. Buchanan must have here had allusion t that foreign influence which is always present among us in the Roman Church, over which foreigners alone are allowed to preside. That kind of foreign influence is certain'y in a fair way to prove the curse of this Republic, and the reason is, because there does not appear to be courage enough among native-born Catholics to induce them to make an effort to subdue it. The eyes of those foreigners are certainly jaundiced, and 'prejudice" against liberal institutions, of both a political and religious nature, is their pre-

dominating principle, and passion, too. Mr. Buchanan's sentiments above quoted will nake an excellent motto for American journals, and we recommend that they be kept before the people. If the Democratic advocates of thi gentleman's nomination to the Presidency had been informed of the strong native principles cherished by him in his younger days, then we must congratulate them on turning good natives, and advise them to give up the contest for their friend, and rally to the support of the American

The Washington Union, the organ of President Pierce, and the acknowledged organ the prominent men in the American party, for of the Democracy, is edited by A. O. P Nicholson, formerly of Tennessee, who was an active and prominent member of the National Democratic Convention that nominated Pierce, and concocted the Democratic Platform of 1852 .-The Union is, therefore, good authority, in any matter pertaining either to the Convention or the platform. No candid, intelligent man ever doubted, that the Democratic Platform of 1852 was framed with the express view of avoiding any approval or disapproval of the compromise measures of 1850; yet few, if any, supposed that one of the framers, (the editor of the Washington Union.) would boldly declare that such was the object of the builders. In an editorial

in the Union, Mr. Nicholson says: " If the Baltimore Platform had expressly approved or disapproved of the Compromise, the ominee would have met with certain defeat."

This is making a clean breast of the matter. It is a bold avowal, that the platform was so framed as to cater and bid for the freesoil support of the North and the support of the disuionists of the South, and the friends of the Compromise everywhere. What an acknowledgment? and what a commentary upon the sincerity of a party, which claims to be the national party, par excellence, and the only true friends of the Constitution and the people. After such an avowal of the character and objects of the Democratic Platform of 1852, which the Democrats of the South told the people was all that the South could desire, what most be thought of the cool impudence of the leaders and organs of the party, who are now prating so londly about platforms; and who affect such a holy horror of the American platform!

For the flattering terms in which you have ommunicated this proceeding, I beg leave to ffer you my sincere thanks. I accept the position assigned me by the American party, with a just sense, I trust, of the responsibility belonging to it. I attended the convention with no expectation that such an honor awaited me, and if my own feelings and wishes could have been onsulted, it would have fallen upon some other member of the American party, in whose ranks are so many distinguished individuals, better known to the country and better prepared by experience for the high duties of the station, should the voice of the people be in accord with that of which you are the organ on this occasion. perly appreciate the value and true character of But acting upon the maxim left us by the great men of the earlier days of the republic, that public office should be neither sought nor declined.
