THE DEFEAT OF THE ADMINISTRA.

TION, AND BREAKING UP OF THE DEMOCRATIC PARTY. We said weeks ago that the Administratration of Mr. Buchanan had failed egreglously in the first year of its existence, and while backed by a Congress of its own party kidney. No preceding Administration, coming into power under such auspices, has ever incurred so miserable a fate. Elected on the ground that his success was necessary to quell the fell spirit of Abolition, and thus save the Union, he finds himself deserted as soon as the issue is made in Congress upon the great test question of the canvass, by the very men upon whom he had most claim for support. From his own Keystone State. of which be vaunts himself the "favorite son," no less than five members, to wit : Mesers. Hickman, Owen Jones, Chapman, Montgomery and Dewart, have deserted him, by responding age to the resolution referring the President's Message recommending the Lecompton constitution to a select committee. Had three of these "natural allies of the South" and Pennsylvania Democrats, voted the other way, the message would have been referred to the Standing Committee on Territories, and thus the friends of the Lecompton constitution would have attained their object. Besides these Pennsylvania Democrata who thus contributed to thwart the President and the other friends of Lecompton, Messrs. Harris, Smith, Morris, Shaw and Marshall, of Illinois-English, Foley and Davis, of beck, Miller, Cox, Burns, Lawrence and Hall, of Ohio-all roaring Democrats-all Cincinnati platform men, and "natural allies of the South," went for the select committee, or, in other words, against Lecompton, or in other words still, against slavery in The elect of this decision will be to keep the question open for an indefinite time, and, in the end, bring in Kansas as a Free State. We see now the true value of Democratic professions and pretences. With full power to perform all they promised, they have failed at the first pinch of the hill .-Will any body hereafter have the effrontery to tell Southern men, that they must look to Northern Democrate for aid and comfort !-And what will be said by the sheep-stomached gentry who ratted the Whig and joined the Democratic party, because the latter were the especial friends of slavery! Will they not say to themselves in the plural what Falstaff said of bimself in the singular-"What thrice doubled asses were we!" At any rate, if they don't say it, they'll think it, and we, for one, will say it of them with the unction of one who speaks gospel truth. We
