RALEIGH, N. C. SATURDAY MORNING, MAY 22, 1858.

IN QUITE A QUANDARY. Some days since, our readers will rememer, we published the masterly speech of the Hon. A G. Brown, a Democratic Senator from the Democratic State of Mississippi, in support of the constitutionality of Distribution, and very respectfully invited the Standard to answerit, pledging ourself, in the event of its complying with the invitation, to publish its reply in the Register. Days have passed, and the Standard has peither answered its Democratio com patriot, or made any reply to our courseous invitation to do so. We must, therefore, conclude that the Standard knows that it cannot answer Mr. Brown. and that any attempt on its part to do so, would only show its readers how utterly untenable is the position it occupies. Instead of enter-Mr. McRae asseverates in the most solemn Judge Ellis' election. manner that he is as good a Democrat as he was when he received the confidence and frocker of Democrats, says "he is no Democrat," and, therefore, poor Mr. McRae's light as a Democrat is snuffed out. Years ago, the example of Virginia, whose political abstrac- Baptist Association. tions have sent out from her bosom thousands of her citizens to people and build up other States, seduced many of the Democracy of this State into a false position, and now their leaders will not let them get out of it, if they can prevent them. Every mother's son of these leaders knows, and would say on his death-bed, if he had nothing better to think of that Distribution is both constitutional and eminently expedient, but party necessities and party aspirations forbid the avowal

THE WAKE COUNTY LEGISLATIVE TICKET.

Speaking of the Democratic Legislative ticket for this county, Citizen Holden says, to "nominate is to elect." Now, we consider this as a decidedly back handed compliment to the ticket, for it is as much as to say that in spite of its want of merit it will be carried through by the sheer force of party drill. We cannot help thinking that there is something about this ticket, or somebody on it, that has put the Citizen into a state of awful disgruntlement.

THE WILMINGTON JOURNAL AND OURSELF.

The Wilmington Journal takes us very tartly to task for, as it alleges, rejoicing over the fact that Judge Ellis was sick at Charlotte. To those who know us, we need not say that we would not rejoice over the sickpess of our bitterest enemy, and, therefore, could not have any other feeling but that of regret for the sickness of one who never injured us, and with whom our relations are courteous and respectful. By what we said about Judge Ellis we simply meant to intimate that Mr. McRae had made him polifically sick, and our use of the word "gaps" was in allusion to his proposition to fill up the "gap," and to a disease to which young chickens are subject. Nine-tenths of our readers, we are sure, understood us.

Thus, we see that the Virginia Sentinel Democratic jurnal, is quite up to snuff about our meaning. It says :

"The rival candidates for Governor in North Carolina are meeting each other on the stump; and the journals of the respective parties are claiming the usual "brilliant triumphs" for their respective champions. A paper before us announces in glaring head type, that at a recent discussion the candidate to which the editor is opposed was so crushed out that he was "taken with the gaps."— That must indeed have been a had defeat.

THE ALTERNATIVES.

If the policy proposed by Judge Ellis is endorsed by the people of this State, they must choose between excessive taxation, and ing upon a discussion to which we have, over leaving the public works in their present unand over again, invited it, it will be the finished state. If excessive taxation is re-Standard's one to hurl out anathemas sorted to, it will drive off the citizens in against Democrats in favor of Distribution, crowds, thereby increasing the burthens on and roundly assert that they are not Demo- those who remain. CAN VESSELS. "Ion," the intelligent correspondent of the Balimore Sun, writing from Washington on the 18th

A number of persons attended the galleries and obbles of the two Houses to-day, in the expecta-tion of the commulcation, by the President, of a message in regard to the British outrages. But no message was received

no mewage was received.

It is not probable that the President has any official information on the subject. The officers of the British cruisers have no report, except to their own government, of their transactions.—

They have no doubt made very thorough work in their examination of American vessels, not only in Cuban ports and on the coast of Cuba, but on all high seas, whenever they could meet an Amer-ican flag.

It appears that in many cases the cruisers as-ailed the American vessels with volleys from mall arms or at least with discharges from rifles. Bullets, on more than one occasion, are reported to have whistled through their rigging and struck in their masks and bulwarks. This is very great aggravation of the outrage, for in time of peace, and when the object is only to speak a merchant-man, a man of war never makes even a signal with small arms, but fires an unshotted gun. The firing of small arms is never tolerated except in an attack upon a pirate or an enemy. In these cases the object was probably to show that the vessels to be stopped were considered as pirates, and were so treated.

The U. S. steam-frigate Colorado, has, according to report, been dispatched to find the home squadron. That magnificent squadron consists of two vessels, one of which is at Tampico. While the Colorado is looking for the other, some weeks or months may elapse, and by that time the Brit-ish cruisers will probably have discharged their duty under their orders, and desisted from further outrages. There is, therefore, much less danger of a collision from that quarter than has been ex-

The Senate this morning adopted Mr. Seward's motion directing the committee on foreign affairs to inquire whether any legislation is necessary to enable us to protect American vessels against Brit-ish aggression in the Gulf of Mexico. The Pres-ident for this purpose should have naval means at his disposal. It is not too late to countermand the rders of the Wabash and other vessels that were to be dispatched for the Mediterranean. It may be expected that a clamor will be made throughout the country in behalf of decided measures for the prevention of further outrages such as have been perpetrated.

Of course, the Enquirer will continue to be the organ of Wise, and will press him for the next Presidential nomination. We may expect, therefore, to see opened a regular and determined war between the Wise and Hunter factions in this State. As in duty bound, and as is usual with us, we shall huzza for both sides with great pusto. Here is the extract from the new editors'

"We have been utterly opposed to the immediate dmission to the Union of the Territory of Kansas under the so called Constitution, framed at Lecompton, in November last. We still believe that the Constitutional Convention, although legitimately assembled, resorted to a means of submission of the constitution entirely at variance with republican principles and sanctioned by no preeadent of republican history. We cannot recognize that this constitution has been either formally or virtually adopted, either by the convention was intended to defeat, and did defeat, all fair expression of that popular will to which the schedule of submission professed to defer. Under these circumstances, we agreed with a large number of the Democratic party, by insisting that a consti-tution legally framed should also be legally adoptea before it could be imposed by Congressional action upon a sovereign people; that the Lecompton constitution should be submitted to a full, fair, free submission to the people, who should thus be enabled to elect its ratification or rejec-

CARTHAGE, Moore county, May 17, '58. MR. SYME-Sir: D. K. McRae spoke here today, Judge Ellis not with him-Mr. McRae being on his way to fill an appointment at the Greensboro' College on Wednesday. Quite a crowd of the citizens of Moore were present, and listened to Mr. McRae with evident satisfaction. The universal opinion seems to be that McRae is right in his views about Distribution, and all agree that but for the ties of party binding the Ellis wing of the Democracy to go for the Charlette nominee, McRae would beat him 10,000 votes. They say he out talks Ellis so far that the Demogracy new are sorry they did not nominate Holden, as Holden could not have done any worse than Ellis as a sneaker. I am told that at Anson, and in Mecklenburg, and at Rockingham, in Richmond county, Ellis took ground for increasing the State debt, for Internal Increasing the State debt for Internal Improvements to the amount of four or five millions of dollars, and pro-poses no way to meet it, whereas McRae is in favor of a judicious appropriation of money for finishing the works already begun, and meeting the responsibility of the already existing debt and that which may accrue by reason of the completion of the works now in progress, by ademand upon the Government for a fair division of the

THE MOUNT VERNON SALE.

Various journals pour hotshot into the proprieter of Mount Vernon on account of the hard terms of his sale. The Lynchburg Virginian contrasts his conduct with the noble generosity of Mr. Everett. The Charlottesville Advocate suggests cine as yours, which is actually good and honest, will be that an examination be made, of the tomb of Washington, to ascertain whether the occupan of the place may not have already disposed of the tones of his ancestor, to Phiness T. Barnum. The Washington correspondent of the Philadelphia

" Mr. John A. Washington has got the buttend of the bargain with the ladies purchasing Mount Vernon. In the first place, he gets a housand dollars per acre for land not intrinsicalworth twenty. An hundred dollars per acre rould be an extravagant price. All the building and improvements together are not worth five hundred dollars.

"He then retains possession and occupancy of the premises until the last dollar of the purchase noney is paid, and receives interest on the amount unpaid all the while, so that he is to live rent free at the mansion; and besides the outrageous price of two hundred thousand dollars, get fifty thouand dollars more in the shape of interest. If this is not trafficing in the sacred dust of his ancestor, know not what else to call it."

The Charlottesville Advocate of a later date presses its regret for a paragraph imputing extortion to Mr. Washington, owner of Mt. Veron, in his sale to the ladies, and says: "We are glad to learn, and now make the statement as the only reparation we have in our pow-er to make to Col. AYER'S CATHARTIC PILLS. (SUGAR COATED.)

CLEANSE THE BLOOD AND CURE THE SICK. Invalids, Fathers, Mothers, Physicians, Philanthropists, read their Effects, and judge of their Virtues. FOR THE CURE OF

Headache, Sick Headache, Foul Stomach PINTSEURG, Pa., May 1, 1855. Dr. J. C. Aver-Sir: I have been repeatedly cured the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foal stomach, which they cleanse at once. If they will cure others as they do me, the fact is worth knowing. Yours with great respect, ED. W. PREBLE,

Clerk of Steamer Clarion Bilious Disorders and Liver Complaints, DEPARTMENT OF THE INTERIOR,

WASHINGTON, D. C., Feb. 7, 1856. Size: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we can employ. Their regulating action on the fiver is quick and decided, consequently they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did t readily yield to them.

Fraternally yours, ALONZO BALL, M. D., Physician of the Marine Hospital. Dysentary, Relax, and Worms.

Post Office, Hartland, Liv. Co., Mich., Nov. 16, 1855. Dr. AYER: Your Pills are the perfection of medi cine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentary. One of our neighbors had it bad, and my wife cured him with awo doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medi-Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Dr. AYER: I have used yours Pills with extraordi nary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remeny have ever known, and I can confidently recommen

them to my friends. Yours, WARSAW, Wyoming Co., N. Y., Oct. 24, 1855. DEAR SIR: I am using your Cathartic Pills in my ractice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

From a Forwarding Merchant of St. Louis Dr. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother had been long grievously afflicted with blotches and pimples on her

skin and her hair. After our child was cured, she also tried your Pills, and they cured her.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to all sallowness or unnatucruciating neuralgic pains, which ended in chronic rheu-matism. Notwithstanding I had the best of physicians, the disease grew worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackensie, I tried your Pills. Their effects were slow, but sure. By severing in the use of them, I am now entirely well SENATE CHANBER, Baton Rouge, La., 5 Dec., 1855. Dr. AYER: I have been entirely cured by your Pills Rheumatic Gout-a painful disease that had afflicted VINCENT SLIDELL.

a Dinner Pill, they are agreeable and effectual. Fits, Suppression, Paralysis, Inflammation, and even, Deafness, and Partial Blindness, have been cured by the alterative action of these Pills. Most of the Pills in market contain Mercury, which,

although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no moreary or mineral substance whatever. AVER'S CHERRY PECTORAL,

and for the relief of consumptive patients in advanced stages of the disease.
We need not speak to the public of its virtues. Throughout every town, almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the nilles in any civilized country on this continent without some personal experience of its effects; and fewer vet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral saves more lives by the consumptions it prevents than those it cures .-Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened on the vitals, est your life away. All know the dreadful fatality of lung orders, and as they know too the virtues of this rem edy, we need not do more than assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

COYNER'S WHITE AND BLACK SUL-This favorite resort for pleasure and health will be opened for the accommodation of visitors on the lat of June. It is situated on the line and in full view of the Var and Tenn. Railroad, about balf a mile from Bonasck's Depot, Romoke, Va., at which Depot an Omnibus and porters will always be found waiting the arrival of the cars, to convey visitors and their baggage to the Springs.

Important improvements have been made since inst

A Telegraph office has been established, which affords onvenient and instantaneous communication with all

parts of the country.

Another White Sulphur—stronger, bolder, and a superior Challybeate Springs have been discovered and improved since the last ceason—so that the variety and value of the mineral waters now afforded at the pisca are unequalled by any other place now known to the public. This similarity of the White Sulphur to the justly and far-famed Greenbrier White Sulphur is so striking as to be at once recognized by all who have

used both of the waters.

These White and Black Sulphur waters have effected numerous cures. The White Sulphu-, in aggravated cases of dyspepsia, serious affections of the liver, bidneys, and bladder, general debility, and especially discases of the nervous system, and those discuses pecula to remales. The Black Sulphur, in all kinds of dis eases of the shin, aggrevated cases of tetter and o be eruptions of the skin—of great numbers and or long

standing : seventy have been entirely oured. The accommodations are equal to any to be found in the mountains of Virginia, and the teste and attendance of the most satisfactory character—as to all which we beg to refer to the large number of persons who

have heretofore visited the place.

A Billiard Saloon, Ten Pin Alley, and other amusements afford pleusant and healthy recreation. E. Davidge's celebrated Band, from Baltimore, has been engaged for the season. J. A. HEFELFINGER,

THE LIVER INVIGORATORY PREPARED BY DR. SANFORD Compounded Entirely From GUMS,

S ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purger it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The Liver is one of the principal regulators of the human body; and when it performs its funcof the human body; and the system are fully detions well, the powers of almost entirely depen-tion of the Licer for the veloped.
