

COMMUNICATIONS.

FOR THE REGISTER.
MR. STYX—I herewith enclose you a chapter from my diary, exhibiting, in some degree, the destitution and degradation which exist among the poor of our prosperous and enlightened city.

Suppose we were to establish a Repository of Work in this city for the employment of the poor—and suppose the subscribers were to enter into a compact to refuse assistance to such as would not avail themselves of the opportunity offered to maintain themselves in comfort and respectability—would not these persons be finally compelled to work or leave the city?

Diary of a Sunday-School Teacher.
CHAPTER III.
Ellen Rockwell is the next on my list. Her father is a poor man, sometimes a fisherman, sometimes a day laborer, and sometimes an idler, but always a rough, unpleasant man.

Ellen Rockwell is the next on my list. Her father is a poor man, sometimes a fisherman, sometimes a day laborer, and sometimes an idler, but always a rough, unpleasant man. I have often thought, however, that she might have been a sufficient salarier for the man's disagreeable manner.

When I entered the door, Ellen sat meditating a pair of pantaloons for her father. She was the only person at home. Her mother was gossiping at a neighbor's, the children were scattered about the village under various pretenses, and the father had just gone out to the mill.

THE PROPOSED UNION OF PRESBYTERIAN CHURCHES.

In the General Assembly of the Old School Presbyterian Church, on the 11th instant, the Rev. Dr. Breckinridge spoke at length in opposition to the proposed union of the two divisions of that church.

In the matter of the proposals made to this General Assembly on behalf of the United Synod of the Presbyterian Church, lately constituted in the State of Tennessee out of a portion of those New School Presbyterians residing from that Southern State who have separated from the Old School, and after the General Assembly of 1837, this General Assembly made the following resolutions:

Although the committee appointed by the Synod of the United Presbyterians have not completed this General Assembly the official papers which this body is understood to have adopted and expressed of their own peculiar views, and of the conditions sine qua non, of the proposed union of the two churches, are before this Assembly, we are not at liberty to act as if we were ignorant of them.

Mr. Harris, of Illinois, from the committee of elections, made a report accompanied by a resolution that Messrs. Phelps and Kavanaugh be admitted as members of the Synod, on condition that they should give up their membership in the Old School, and that they should be subject to the same discipline as the other members of the Synod.

Mr. Green introduced a bill to pay the Oregon and Washington war claims. Referred to the military committee.

Mr. Wilson submitted a resolution to print for the use of the Senate 60,000 extra copies of the Public Acts of the United States for 1837.

Mr. Washburne, of Maine, suggested that the vote on the subject be postponed until to-morrow, and that the House go into committee on the private calendar.
