If these things are put right before the people, it were a libel on popular intelligence to doubt the result .---Distribution candidates for the Legislature have a bright example in the patriotic course of the Distribution candidate for the office of Governor. With a self-sacrificing spirit worthy of all praise, Danean K. # JUDGE ELLIS AND THE STANDARD THE RENCONTRE BETWEEN MESSRS. A" LOGGERHEADS---HON. A. W. MCRAE AND ELLIS.

Citizen Holden after reading us a lecture pon the tone of an article of ours, proceeds to devote a column of depuncia ion to the Hon. A. W. Venable because he dared, withont consulting the Standard, to urge an old friend of his to became a sandidate for the Legislature as an advocate of Distribution. This onslaught will not surprise or injure Mr. Venable. He was fully prepared at any time for any amount of vituperation th . Standard might level at him. He knew that the Standard had never forgiven him for beating his ardent admirer-who did not think a seat in the Executive chair would add a feather to his cap - out of sight. But the object of this article is not to defend Mr. Venable, for he needs no defene ; at the hands of anybody

from any assault made on him by the Stand ard, but to show how widely the Standard and his favorite and cherished candidate, Judge Ellis, differ in their estimates of Mr. Venable's conduct in the memorable campaign of 1853.

gives a copy of the convention concluded between theGovernment of Costa Rica and Nicapagua on the one part, and Felix Dolly, acting on behalf of Millaud & Co. of Paris, on the other, relative to the concession of the inter-oceanic canal by the river San Juan and Lake Nicaragua. The document is work in two years, and complete it in six, and the channel of the canal is to admit two of the largest ships to pass abreast. It is to be entirely under French direction, and that Government is to have the exclusive privilege of keeping two ships of war on the water of the route throughout the whole period occupied in the construction of the canal-The duration of the concession is minety-nine years from the opening of the canal, and the line is to be open to all flags at a moderate uniform toil. The Times pronounces this scheme impracticable, the capital being estimated at ten to fifteen millions sterling. Appended to the above convention is a declaration signed by the President of Costa Rica and Nicaragua setting forth the sufferings they have endured from the fillibusters, and the risks they still run from fresh invasions known to be in preparation, and, in reality, under the patronage of the United States Govern ment, and appealing to the great Powers of Eu rope to sustain them in their independence, an

The destruction of life and property by th heavy freshets at the West is terrible. The la dispatches announce the breaking away of the Great Yazoo Pass in the Mississippi River, below Memphis. The water formed a new channel on Thursday night, thirty yards in width, and rapidy increasing. The deluging of the entire Yazoo Valley is apprehended as the result of this new

calamity. The accounts from the upper portion of the Mississippi River are frightful. The town of Brooklyn, on the Illinois shore, has been nearly swept away. The City of Cairo, at the junction of the Ohio and Mississippi, is entirely inundated; but a later dispatch intimates that the destruction property, in consequence of the overflow, will be less than was anticipated from the earlier ac counts. The Ohio is falling, and the Missouri Valley is reported nearly free from water. The losses along the line of the Mississippi are the most serious.

News from Salt Lake City to the 11th of May states that Gov. Cumming had returned to Camp Scott, but that he was expected to go back again immediately. Everything was quiet and indicative of peace in the Mormon capital. The army at Camp Scott is reported in very good health They had provisions sufficient to last until the 10th of June, and Col. Hoffman, with a supply train was only a few days' march from the Camp. Up to the 9th of June nothing had been heard from Capt. Marcy at any of the posts on the plains. Additional telegraphic advices from Utah, inform us that 70 Mormon families had come into Camp Scott and claimed protection, which had been accorded to them.

# FROM UTAH.

The Paris correspondent of the London Times WASHINGTON, June 20 .- Col. Kane arrived here last night, bringing dispatches from Governor Cumming, whom he left at Camp Scott on the 16th uit. The dispatches were at once delivered to the President of the United States. Their purport has not officially transpired, but it is accer-tained that many of the accounts with which the public mind has been occupied, are erroneous and alculated to deceive the country in respect to Utah matters generally. To this fact many attributed the uncourteous refusal of Col. Kane to communicate with the press.

There was great hope in Utah, as elsewhere that the war was at an end. A peace party had been formed and was sufficienty strong in time to arrest the march of the Mormon forces against our own last spring. It was the impression in Utah that Brigham Young, who openly espoused the cause of the United States, would, in this respect be able to maintain his position. There was at one time strong opposition to him, before emi-gration was resolved upon, but ever since this feelng of hostility has been subsiding. All the norhern settlements are evacuated with the exception of the few Mormons left to guard the public property at Salt Lake City. Besides these, there are no Mormons within forty miles of that city.

A Fact Worth Knowing.

At this particular season, when the weather is as changeable as the wind-when the most robust consti-tutions are attacked and undermined-and when feeble systems are shattered and unnerved, it is abs necessary that scientific principles should be brought to the aid of Nature, in order to avert the contraction of those diseases that usually become stated and fixed from the continuous changes referred to. A MASONIC EDITOR NOT PLEASED WITH HIS INN.

The worthy Editor of the Weldon Patriot visited Wilmington a few days since, to attend a meeting of the Grand Chapter of Royal Arch Masons. The trip was a pleasant one, except in one very essential particular. His hostelry was by no means to his taste, inasmuch as he found that the quality of the entertainment was in the inverse ratio to the quantity of the charges. But we will let our. contemporary give his exposure of the "Carolina Hotel" in his own words :

Arrived at Wilmington, we took an Omnibus and drove down to the Carolina Hotel, where we found a sufficient amount of etiquette, if not of comfort. This House is kept, we believe, by a man has declared himself a candidate in the place of of the name of Gage, pernaps from the peculiar Gen. W. F.
