RALEIGH, N. C.

SATURDAY MORNING, MARCH 5, 1859.

THE TWO REPORTS.

We publish in to-day's issue the majority and minority reports of the special committee on Naval contracts and expenditures. It will be seen that the majority report, made by the friends of the administration, alleges that "glaring abuses" exist in the management of the Brooklyn Navy Yard, while that of the minority makes disclosures which conviet the President and Secretary of the Navy of the grossest corruption. It would almost seem that it is the aim of the ad ninis ration to establish a notoriety for infamy. In every department the foulest corruption prevails, and the immense patronage of the Government is but an instrument in the hands of the President to accomplish the vile purposes of his partizans.

For proof of Mr. Buchanan's contivano at the villanies which now disgrace the country, we refer to the annexed precious letter, which will let the people of the country see the manner in which their money is used to buy up votes for Democracie partizans:

PHILADELPHIA, Sept. 13, 1858. " Dear Sir :- I venture to suggest to you the introduce of awarding the contracts for the macainery of the sloop, now building at the navy rard at this time, and, if it can be done without prejudice to the public service; to Merrick & Theirs is the adv establishment in the first district which employs a begre number of mechanics; at this time, 300; when in full work,

any event, but with that shop at work, full handd, two weeks prior to the election, the result would, I think, be piaced beyond all doubt. With much respect,

" W. C. PATTERSON."

Instead of acting like an honest man, and sharply rebuking Patterson for his rascally proposition, Mr. Buchanan, as it was ascertained by the Investigating Committee, enthe following endorsement upon it:

"The enclosed letter from Colonel Patterson, of Philadelphia, is submitted to the attention of the under Democratic rule. Secretary of the Navy.

Is it any wonder that the Government is in debt? Is it surprising that the expenditures have reached the enormous sum of a hundred million of dollars ? Positively Mr. Buchanan and his rotten administration are enough to breed a political yellow fever Their stench is rank unto heaven. This knavish proposition of Patterson, endorsed by Mr. Buchanan, was in the sequel carried out. The contract was awarded to Merrick & Sons, and men were employed in their workshop for two weeks prior to the election in Pennsylvania, and to their wotes Mr. Florence was indebted for his election. Without these votes he would have inevitably been defeated. This contract was not awarded to est bidders, but because they would marshall

WHIG SPIRIT IN VIRGINIA.

Never since 1849, when the Whigs of Virginia came within some fourteen hundred votes of carrying the State, have we seen the party in the Old Dominion animated by so buoyant and determined a spirit as now prevails among them. The Democracy in Virginia are alarmed, as well they may be. Their cand date for Governor is the selected, while his opponent is the very man to show him up in his true light before the people. The divisions and distractions prevalent among the Democracy of the entire and active on the part of the Whigs. John Whitfield, a printer of Montgomery, Als., has fallen heir to an estate worth \$50,000, in the THE POSTAL BILL.

We sincerely hope that the Postal bill has ot physed the House in the share in which it passed the Senate. It is an ou rageous bill and the career of every member voting for it should be brought to a close. Grant that the Post Office Department does notsustain itself at the precent rates of postage, is there no way of supplying the deficiency but such an increase of postage as the Seuate Bill provides for ?

A considerable cur ailment of expenditure might be made, and the money saved by it might go to misking up the deficiency. in the Post Office D partment, by reducing the pay of members of Congress. The average pay of a member of Congress for the long and short session is about \$24 a day. Now rather than put a heavy tax on the business and knowledge of the country by increasing greatly the postage on letters and newspapers, let the pay of members of Congress be reduced one half, and then about a million a year would be saved, and as we said above, might be devoted to assist in making up the deficiency in the Post Office Department. The people ought not, and will not permit members of Congress to luxuriate on \$24 a day while the use of such a necessary

MR. ROGER A. PRYOR VS. THE AD-

We learn that Roger A. Pryor, Esq , the editor of the "States," made a speech to the Democracy of Petersburg on Friday night last in which he scored Mr. Buchanan's Administration from neck to heels. We shall of course get a faithful report of Mr. Pryor's speech in the Petersburg "Press," and when. we do, we will lay before our readers some choice extracts from it.

The Naval appropriation bill was then considered, and amended in committee of the whole -The appropriation of \$1,106,000 for repairs, &c. of navy yards, was reduced to \$112,000.

The Appropriation bills occurred almost exdusively the attention of Congress, on Monday. In the Senate, after another refusal to take up the Homestead bill, Committees of Conference were appointed, to meet similar Committees, from the House relative to the disagreements on the amendments to the Legislative, Executive and Judicial, and the Consular and Diplomatic Appropriation bills. Mr. Houston made his farewell address to the Senate, in which he reviewed and vindicated his course in Congress. The Post-Office Appropriation bill, which calls for an aggregate of upwards of \$19,000.000, was then taken up, and discussed for several hours. An amendment was adopted, which provides that in no event shall the liabilities be allowed to exceed the appropriations for the current fiscal year. Several other important amendments were adopted, but the final vote

In the House a colloquy of a personal nature took place between Messrs. Reagan and Bryan, of Texas, which created considerable excitement .-The Naval appropriation bill was passed-the amendments reducing the Navy yard appropriations from \$1,192,000 to \$130,000, and reducing the appropriation for repairs, ornament, etc., from \$3,100,000 to \$1,900,000, having been concurred Mr. Phelps asked loave to report a bill to revise the Treasury note act, but the House refused to suspend the rules. He then moved to go into Committee on the General Appropriation bill, which was agreed to. A motion to strike out the Coast Survey appropriation was unsuccessful .-The report of the Committee appointed to investigate the accounts of the late Superintendent of Public printing was received. It ceasures Mr eaman for improper and illegal conduct.

Congress again on Tuesday devoted its attention almost exclusively to the consideration of the Ap

propriation bills. In the Senate, the credentia's of Mr. Douglas for another six years' term were presented. The Committee, and a clause was appended similar to that on the Post-routes bill raising the rate of postage to five cents, and abolishing the franking privilege. It was agreed that the Post office advertising should hereafter bedone only in the two papers of the largest circulationin in each State, aud two in Washington city. A motion by Mr. Wilson that Mr. Butterfield, the Overland Mail contractor, be allowed to carry the mails by any route he may choose, provoked a long debate, in the course of which it came out that the letters by that conveyance cost each from thirty-five to sixty dollars. The amendment was rejected. The amendments adopted in Committee were subsequently ac'ed upon by the Senate, and most of them agreed to. One of them reduces the contract of Butterfield & Co. The Bill was finally passed, 29 to 22. The Naval Appropriation bill was ta-

ken up at 10 o'clock at night. In the House, the Miscellaneous Appropriation bill was fi ally possed, after action on the Senate's amendments. The Ocean Mail Appropriation bill, after debate in Committee of the Whole, was tabled by the House, by eleven majority. The members seem to have come to the conclusion that the contract system so far as relates to the Ocean Mail service, is wrong, and the business should be left open to competition. The Senate's amendments to the Army bill were acted upon in Committee and will be finally disposed of by the House on Wednesday.

Express: "It is a duty we owe the public to speak of things in which it is interested in their tru- light, but it is not only a duty we owe the travelling public, but also contributing our mite to commend merit when we spea well of the Macon House, located in Portsmouth, to which city and its enterprising inhabitants this betel i

Fam'liar with the principal hotels in several States, and having had several years experience in travelling, we venture the assertion that the Macon, in what con stitutes a first class hotel, is not inferior to any, either North or South. True, others may and de present a finer appearance, a more gaudy equippage, but none surpass the Macon in substantial entertainment and

perful compliance with the wishes of the guests. This is no fancy sketch, nor yet is the description overwrought. Every one who stops at this house will the purpose of nominating a whig candidate for attest our correctness—we only regret we are not able manner, and to a hotel which should be the pride and the home of the traveller who passys through, or stops in that city; and we hope that all our readers will do themselves the justice to call at this house when occa
