MR. GILMERS LETTER OF ACCEP-TANCE.

MAT 4, 1859. To THE HON. JOHN A. GILMER :

Dear Sir :- As the organ of the Convention of the 3rd instant, assembled in the town of Graham to nominate a Whig candidate for the next Congressional election, it is our honor and our pleasure, a well as our duty to address to you this note .--It is an honor to be delegated by an assemblage of such citizens to discharge a public duty,-it is a pleasure, as not only in unison with the desires of our own hearts, but as conveying the unanimous and enthusiastic expression of the entire Convention. A Convention, large in number-every county in the District being represented-remarka-ble for the age and fixed, solid character of the members-with perfect unity of purpose and harmony of action ; a consention, thus constituted, comes before you with an influence which, we trust, will prevail with you to acquiesce in their decision. They have instructed us to inform you that one name only was before them for Congress,that that name was received with the most hearty good will and cheer-that not one desired another, but with a united voice they proclaimed John A. Gilmer as their Candidate, pleuging to him their ready and ocnstant co-operation in all the can-

Allow us in behalf of the Convention, and as individuals, to ask your concurrence in the action of the Covention

> With high regard. Your obedient sv'ts.

GREENSBORO', May 6th, 1856.

GENTLEMEN :- The emotions with which 1 received, through your kind and complimentary letter, the news of the unanimous nomination of the Convention at Graham, can be better imagined than explained by me. The friendly assurance of your own personal regard and good wishes, which accompany your very polite communication, impress me with great hum'lity and thankful-

While I most sincerely as ure you of my pre ference not to be a candidate again, I am frank to admit that the peculiar circumstances in which the most malignant, virulent, and persistent de-traction has placed me, create anxiety that the nomination, so enthusiastically made, may be ratified and confirmed by my fellow-citizens of the District.

Although encumbered, in early life, with the usual embarrassments of poverty and the lack of influential friends, I have always considered it a privilege, in a free country like ours, fairly and honorably to aspire to the respect and confidence of my countrymen. The experiments, however, of a short life, have taught me that for all those, who shall attempt the exercise of this privilege, there are in store many cups of bitterness.

While in the discharge of my duties, as the Reresentative of our District in the last Congress, I was, doubtless, often in error, but it was on all ocmasions my desire to give the people for whom I scted the results of my best conclusions, after the most careful examination. It was my sincere pura with all the all mand, that faithful and honorable course that I enceived my constituents would have me take, were all the lights before them, and they present to advise. My vote on the vexed question of Kansas, namesubject of political sectional agitation,--whether stering, the practice of forming privately armed bands of robbers in our midst to distract and plunder mighboring nations at peace with us, shall be tolerated in this professed Christian Nation,-whether we shall maintain the present usage of levying taxes on the property of foreigners, ought to this country for sale, to raise the means of supporting the Government, or whether we shall adopt free trade with all the world, let foreigners bring and se'l among us what they please without paying anything for it, and come to di-rect taxes, and levy thesame on our own property, already taxed to the utmost point of endurance,whether we shall keep up the present British Tariff, which, by reason of the facilities that frauds are practised upon it, fails to raise sufficient revenue to support the Government, and makes the borrowing of millions every year necessary, and which, by reason of its being regulated by the ad valoresn foreign valuation, has a sliding scale, and which stide is always in favor of the foreigners, and against our own people, saying to the foreigners, when you have it most in your power to crush our own industry, we will add to your facilities to do this the more effectually, and to our own people, when they most need the incidental protection which a Revenue Tsriff ought to afford, you shall have the very best aid and protection possible,-whether integrity and honesty, in making

and completing Government contracts, shall be entorced, and plundering in high and low places put down,-these are grave questions for the conideration of the people. Thanking you again, gentlemen, for the kind-

ness of your letter, and the promise of your cooperation in the canvass, I beg you to accept assurances of my high regard and esteem.

Yours truly, JOHN A. GILMER. To Messrs, Joseph S. Totten and others, Commit-

	A GLANCE AT THE PAST-BATTLES						
1	EUROPE.						

As a matter of interest, at present, we give the following result of desperate battles in Europe since 1812:

On the beights, four miles from Salamanca, in Spain, the English and Spaniards under Wellington, totally defeated the French under Marmont. on the 22d July, 1812. The allies lost 5,200 men and the French 16,000. At the battle of Smolenski, in Russia, in 1812, the French loss was 17,000, and that of the Rus-

sians 10:000. At Borodino, on the 7th September, was fought desperate battle between the Russians and French. The French lost in killed, wounded and

number. The survivors of the French army, from the Russian campaign, were not more than 35,000 out of an army of 500,000 men. At Lutzen, in Russian Saxony, on the 2d May, 1813, the allied Russian and Prussian forces were

defeated by the French under Napoleon, the French losing 18,000 and the allies 15,000.

At Bautzen, in Saxony, on the 21st and 22d May, 1813, a battle took place between the ailies and the French, in which the French loss was put down at 25,000, and that of the alijes 15,000. At Dresden, in Saxony, on the 26th and 27th August, 1815, the allies were defeated by the French. The loss of the allies was about 25,000 in killed, wounded and prisoners, and that of the French about 12,000. . Leirsie in Saxony, in October, 1813, a des

A FRIGHTFUL ACCIDENT-A MAN CAR-RIED UP ONE HUNDRED FEET ABOVE THE EARTH.

[From the Wheeling Intelligencer, May 7.] The most frightful, and at the same time the most remarkable accident we have ever seen on record, occurred at the Catholic Church, yesterday morning. Some twenty persons were engaged in patting up the new bell which arrived from Pittsburg the evening before. There was a windlass erected on the ground, to which was attached a snatch-block and shieve. Immediately above the open space in the cupola, to which the bell was to be drawn up, there protruded a beam, to which was attached another snatch-block and pully, and the bell was to have been conveyed to the top by means of strong ropes working through these shieves by the power of the windlass and cylinder upon the ground. The bell had been raised in this way almost up to the open space in the cupola, and the men were just ready to pull it in. A man named Thomas Newton was below, engaged in guiding the folds of the rope as it wound round the cylinder. To do this, he had a firm grasp upon the rope. When the bell had reached a great height from the ground, one of the cogs in the windlass fixture gave way. Another revolution of the whee' ripped off all the cogs; the bell fell to the ground, and Newton, who had hold of the lower end of the rope, was carried up with frightful velocity a distance of one hundred feet from the ground, and about four feet above the aper-

ture where the bell was to have been taken in. For the instant, every one was surprised beyond measure, and before those engaged in the work could comprehend what had happened, Newton with his hands all lacerated and bleeding, worked himself down opposite the aperture, and called for help to those within. Bishop Whelen, who was on the platform in the cupola, reached out at the risk of his life almost, and seizing Newton by the waist, pulled him from his awful position. The accident struck every body with amazement, and IN all but the eye witnesses were loth to believe in the incredulous feat. The belt weighed three thousand seven hundred pounds, and as it fell without hindrance, some idea may be formed of the rapidity with which Newton ascended. He says he thought of letting go the rope, bu. before his thought was clearly defined, he was at the beam, a hundred feet above. He had not time to let go his hold upon the rope. Some cogs and pieces of machinery were hurled a distance of two squares from the church, and a Mr. Smith, who was standing near, received an ugly wound in the face from a flying particle. Mr. Newton was taken to the office of Dr. Hupp, where his wounded hands were dressed. The flesh was all torn from the palms of his hands, even to the bone, which is supposed to have been done by the death grasp prisoners, 50,000 ; and the Russians about the same | and his sliding down the rope during the swift passage into the air. Altogether, we suppose there is not a more startling or remarkable accident, or a more miraculous escape, on record.

ARRIVAL OF PAUL MORPHY.

Paul Morphy arrived in New York in the Persia on Wednesday with his brother-in law, and is stopping at the St. Nicholas hotel. He was waited upon soon after his arrival by Col. D. D. Mead, President of the New York Chess Club, Frederick Perrin, President of the Brooklyn Chesa Club: Mr. Theodore Lichtenheim, Daniel W Fiske, W. J. A. Fuiler, J. L. Graham. jr., and many other leading memoers of the New York Chess Club.

Mr. Morphy spent's couple of hours at the rooms of the New York Chess Club, and played four of five games at the odds of a knight, with Mr. F. Perrin, one of the strongest players in this country, and easily won all the games but one.

RUFFIN SNUBBED.

The democracy of Pitt County held a meeting at the Court House in Greenville, last week, and recommended William B. Rodman Esq., of this Town, to the favorable consideration of the democratic Convention, which is to convene in Newbern, sometime in June next, as a candidate to represent this District in the next Congress. This was megnanimous in the democracy of Pitt, particularly when we take into consideration that they had a gentleman of their own in every way eral Singeltary. As between Messrs Rodman and Singeltary, it would be difficult for us to decide, as both gentlemen are our friends.

Ruffin has given univer-al dissatisfaction; it is visible in every portion of the District, but whethr the leaders will continue to force him upon the democracy against their will, for reasons unnecessary here to mention, will soon be determined .-This and the First District, are poorly, meanly represented in Congress, and but for the reminiscences of former days they would be unknown in that august body. Either of those gentlemen spoken of, would make an excellent representative, and would doubtless make an effort to do something towards improving our navigation, which is so much needed. Any one who may have the independence to oppose the mendacity of the Ruffin Clique, for the good of their country, it is thought

can be elected by a handsome majority. Washington Times.

SCHEME TO CARRY OFF THE POPE.

The Nord, a journal generally extremely well informed, contains the following significant tele-

"The greater part of the army occupation of Rome has been recalled; only 2,000 men will re- informed that such is the case in every town he main in the Holy City." The meaning of this visits. A more fastidious entertainment, or one withdrawal of the French garrison, at the present uncture, may be explained by a reference to the before visited the South. history of the First Napoleon's Italian campaigns, and the policy of the nephew, as laid down in the pamphlets that have recently appeared in France.

ral power of the Pope is urged as an essential condition of the "regeneration of Italy" id est, her annexation to France. But how accompish such a coup without arousing a fanatical opposition on the part of the strict Catholics,-a powerful element throughout Italy and France?

will surely follow upon the departure of the French troops, and a capture of the Holy Father by the of their proceedings in due season. remaining 2000, under the convenient and plausible pretext of protecting him against the violence of an inturiated mob.

The Holy Father, thus saved a second time would be respectfully but speedily removed to Civita Vecchia, under escort of his 2000 ; thence to Paris, and at every station he, no doubt, will be received with great honors and enthusiasm. Such is the most probable meaning of the short elegram of Le Nord ; the withdrawal of the garrison it would be difficult to explain, in any other way, for the troops are not needed, just now, for the occupation of Sardinia, and it they were, Rome s a point of highist rategical importance, which cannot be abandoned-and abandoned it will not be, for the Revolution having served the above dollar notes, and prohibit the issue of an

lish isw and order there. It is very likely, though, of ten or a multiple of ten, the object bein the Pope will see through the scheme, and be fortunate enough to make a timely escape from his protectors.

FOR THE REGISTER. STATESVILLE-WESTERN RAILROAD-EVERETT'S VARIETIES-STATE MEDI-CAL ASSOCIATION.

MR. EDITOR :- Statesville has at last assumed the importance of a first class town, and richly merits a consideration abroad. Such rapid advancement has it made of late, that few who visited it ten years ago would recognize in it to-day the same town. The streets are enlarged, and many of the buildings have assumed the imperial air of a commercial city. A fine botel has recentworthy of repretenting the people of this District in the affairs of the nation, in the person of Gen-land town. Its schools are in a most prosperous condition, both the Female and Military College. In the Female are about one hundred students; and in the Military, which has been quite recently opened, are about half that number.

The Western Railroad is progressing finely .-To-day passenger trains commenced running as far as "Maclin Creek." In a few days, twentyfive miles more wi'l be added to the line of pas senger travel. The construction of this part of the road has been attended with much expense, and, of necessity, slow, from the many rivers it bridges. But the work so far is of a very permanent character, and reflects much credit upon the skill of Chief Engineer James C. Turner, Esq.-The viaduct at Maclin's Creek is a model for beauty and strength. It consists of three semi-circular arches of granite, one of fifty and two of thirtyfour feet span, resting on abutments and piers of granite, and is forty-five feet from grade to surface of water. This road, when completed will challenge comparison with any in the South. Since the completion of the railroad to this town, we have been visited by swams of traveling entertainments, but none that will compare with that given by the celebrated and deservedly popular Everett. He is certainly a genius in his way,

and commands the attention of the most religious His success in this place was most signal, and I am calculated to afford greater amusement, has never

His Infant-Troupe is a worthy, and we think, a full entertainment in itself. They will make the hardest visage smile, and the most penurious forget that a half a dollar was expended to see them. I am told he will visit Raleigh soon. If so, take your family and enjoy the rare treat. The State Medical Association is now in session

There is a very full attendance, and one would think, from the numbers, that half of the Siste were invalids, and the other " M. D.'s"; for we could not reasonably suppose that such a vast number could be supported with few patients. As yet they have done but little, but will inform you

Very simply, by a revolution in Rome, which

ly-whether it was best for my section and the Union, all things considered, to force the Lecompton Constitution on the free people of that distracted Territory, against the well known wishes of an overwhelming majority of har people, was the re-sult of mature deliberation. I verily believe ninetenths of my people, without distinction of party, with all the facts before them, would have voted in the same way, and would have considered it unwise and impolitic to have given any other vote. Born and reared in the South, I flatter myself that I possess a proper degree of Southern pride ; and, in common with the conservatives of my own s'ction, am impressed with my proper share of jealousy and watchful anxiety for the position and fate of the Southern States with their institutions in the Union. I think I know something also o: Southern feeling and Southern bonor, and if I do. it is, that while they calmly and sternly ssk and demand all that is fairly due, they are the last to do wrong under any circumstances. In the South it is yet s maxim that "Honesty is the best policy." Her own good sense should teach her, especially as she is gradually falling into a minority, that any other policy " may return to plague the in-ventors." I have too much confidence in Southern honor to suspect her for one moment of a disposition knowingly to profit by fraud and vioence. And I trust she may never be so far mirled as to forget that in practice, forbearance and fair dealing are not without their influence, even on those inclined to do us harm. But the story of Kansas and Lecompton is too long to be embraced in this reply. Suffice it to say, that Congress finally concluded that the best way to settle the difficulty at last was, in substance, what the veteran Crittenden, and those who acted with bim. proposed,-to leave it to be settied by the people of Kansas themselves; and the South, as I am happy to see, is rapidly coming to a favorable conclusion. not only as to the wisdom of the ourse, but that the South, after all, really had had but little interest in the determination of that question, which by the agitation of extremists, had become so extremely sectional, that, if otherwise decided, in the deliberate judgment of many thousands, conversant with the facts, would have at once destroyed the peace of the country,-and if not the very Union itself, would inevitably have brought a conflict between the people of Kansas and the U. 8. forces, if not a bloody commingling of Northern and Southern arms on the plains of Kansasa sectional phrensy unnecessarily produced, preading with electric speed to all sections, to the delight of those only, who desire to destroy the Union.

I am fully aware of the responsibility I take in accepting the nomination which the Convention has tendered to me. The batteries from which so many poisoned missiles have been hurled at me and all conservatives in the South, are not yet lowered. A furion of the whole South is demanded, and none so clamorous for it, as those of " the Southern League" whose avowed object is to precipitate the South into disunion. Like begets like: and when the disunionists of the North and the South shall have secured the division of the whole country into two parties-a united Southern sectional against a Northern united sectional party-they will have the people of these happy States in the very position against which the Father of his country hath bequeathed to us his most solemn and affectionate warnings. I am of the South, and shall always act with the South when I concieve she is in the right, and acting for her own true interests under the Consti-

Should it be the pleasure of my fellow-citizens to place me again in Congress, I am not insensible of the responsibilities of that position. This country, through her representatives, has yet to determine the question as to what is an economi-cal administration of the Government. Whether the policy of the present Administration, of preaching economy, retrenchment and reform, and at the same time, expending annually more than eighty millions of dollars, issuing treasury notes, torrowing millions, and fixing on the country in time of peace an immense national debt, is to be sanctioned and approved,-whether the country shall be taxed some hundreds of millions of dollars to build a Railroad to the Pacific Ocean, furnishing

about 40.000 men. At Vitoria, in Spain, on the 21st of June, 1813, the English and French fought a battle, in which the French lost 7,000 and the English 5,180 men. At Toulouse, in France, Wellington defeated the French under Soult. on the 10th April, 1814. The French loss was 4,700; allied army's loss 4,-580 men.

At Ligay, in France, a battle occurred between the Prussians and French on the 16th June, 1815, two days before the battle of Water oo, in which the Prussians lost 15,000 men and the French 6,-

In the indecisive battle at Quatre Bras, in Belgium, on the 16th June, the day before that of Waterloo, the allies lost 5,200 men and the French

At Waterloo the total loss of the allies was 16,-636 : Napoleon's was about 40,000.

Neither the Austrians nor the Prossians can derive much encouragement from history to engage in a war with France. The French troops have only been-matched in these wars by the English, the Spaniards and the Russians-scarcely by the last named.

SENATOR CLINGMAN ABROAD. A foreign correspondent of the New York Tribune savs :

"Mr. Clingman, who arrived in England by the Arabia on the 2d instant, suffered so much from sea-sickness, that he has been exceedingly feeble since his landing, and he imformed me that he still constantly experiences a nausea resembling that produced by the motion of a vessel. Not a little discomfited was the Senator on arriving at Paris. He had procured from Mr. Cass despatches for Minister Mason, in the confident expectation of passing through the customs unannoyed. On arriving at the Paris station he remarked to his compagnon de voyage, 'I'll wait while they examine your trunks, which, I suppose, will require a considerable time.' The douanier, however, merely opened and shut Mr. H.'s trunks, while Mr. Clingman suffered the vexation of seeing his own baggage ransacked, almost every article being dragged from his trunk. The great despatch, with its ocean of sealing-wax, lying ostentatiously at the ton of the honorable gentleman's packing, had only served to whet the curiosity or the suspicions of the customs officer."

> THE RELIGIOUS ANNIVERSARIES IN NEW YORK .- Yesterday was a sort of grand field day for the participants in the proceedings of the anniversary meetings. No less than ten of these annual gatherings were held, morning, afternoon and evening, and notwithstanding the inclement weather, they were all tolerably well a'tended.

The great point of attraction was the meeting of the American Tract Society, as an exciting and stormy discussion on the subject of slavery was expected; and that expectation was fully realized. Two resolutions were introduced, and necessarily laid on the table, the first directing the Publishing Committee to publish a tract on the slave trade, and the second stating that the society would be gratified by such publication. A resolution offered by Dr. Spring, that in tabling the above reslutions the Society did not mean to express a doubt of Staunton, who was a candidate for Judge at the as to the sinfulness of the slave trade, was then passed .- N. PROVED FATAL .- Captain Bossiere, one of the proprietors of the New Orleans Courier, we are

pained to announce, is dead. He breathed his last on Monday (yesterday) week. As our readers may know, the Captain was wounded recently in an unfortunate shooting affray with Mr. J. M. Vernon, in a law office on Exchange Alley, the affray springing out of a business disagreement .--Mr. Vernon, who had been released under bail, on certificate that he was out of danger, was re-arrested immediately upon his death being made known. Captain Bossiere was a native of Baltimore, and was 59 years of age.

THE TICINO .- A name which is in every one's mouth should be correctly pronounced. The letters of the Italian language do not all have the same sounds which they have in English. The pronounciation of this name is Teecheeno. It is a small river, connecting the Lake Maggiore with the Po, and has its importance from its being the boundary between Lombardy and Sardinia ; therefore the Austrians become invaders the moment

they pass to its western bank.

Baldwin was the successful com- petitor. So, in lieu of writing his friend an origi- nal letter of congratulation, he took his letter to him, erased his own name wherever it occurred, inserted that of Col. Baldwin in its place, and re- turned it, otherwise unchanged, except the signa- ture. So they are even, each one being equally complimented by the other, and are faster friends than ever.—[Blue Ridge R-publican.] Mexico, since its establishment as a republic, which is thirty-seven years ago, has had fifty-six Presidents.] Great excitement exists at Omaha city, Nebras- ka, on account of the alleged discovery of gold in	yesterday which came very near being fatal. It seems, that a white girl employed by Henry Sav- age, Esq., as nurse for an infant, was standing on the upper pizza of Mr. O. G. Parsley's residence, and amusing the child by reaching over the rail- ing and breaking twigs from a tree which grew in front of the house, the branches of which hung very near within reach of the girl while standing on the piazza. In attempting to reach a twig with one hand while she held the child with the other, the girl lost her balance, and she with the child in her arms fell headlong over the railing and down upon the steps below, a distance of about 15 feet. Providentially, the injuries to both are not at all dangerous, though for a time it was thought that the girl was severely hurt. Her escape was miraculous. The child got off, we believe, with a slight bruise on the head and we are pleased to	two children. The jury were unable to decide whether the shooting was the result of accident or design. WHO DOUGLAS VOTES FOR.—On the train of cars which conveyed Senator Douglas to Canada, a vote, as usual nowadays, was taken. The can- vasser did not know Douglas, and when he came to him in passing through the cars, the following conversation took place: Canvasser. Who do you vote for, sir? Bu- chanan or Fremont? Douglas, (angrily looking up from the perusal of the Chicago Times.) Vote for the devil. And the vote was so registered. For the devil, 1 Mrs. Virginia Breckinridge, wife of Rev. R.
