RALEIGH, N. C. SATURDAY MORNING, MAY 21, 1859.

OPPOSITION MEETING IN THIS

The meeting held by the citizens of Wake-

received by the meeting.

Mr. Edwards' acceptance of the nomination tendered to him. There is an ardent and general wish throughout the Opposition party of the District, that he should oppose Mr. Branch. The latter gentleman is not strong in this District. Numbers of his own party utterly disapprove of his course on the Thirty Million Bill, and a still larger number will disapprove of it when that iniquitious and high-handed measure shall be placed before the people in all its enormity.

let him go in and reap it.

Mr. Edwards has a fine field before him-

MR. BRANCH'S LETTER OF ACCEP-

presses his gratification that the "copposition" tion show the utter absurdity of Mr. Branch's agree with him (!) in a wish to acquire Cuba, proposition !- the utter want of all analogy is most remarkably transparent. Agree with between the cases? We have always heard him! But how! Do tell us Mr. Branch. that ship-huilders and fort-constructors were You want Cubs, and you would get it at the but too glad to get the government contracts expense of the liberties of the country. You for such matters, without waiting to be bribwould get it, or try to get it, by means of an ed to undertake them. But why pursue Mr. outrageous and enormous grant of money Branch's letter any further? His case is a and power to the President of the United States. You would get it, or try to get it, by means which a majority of your constituents utterly discountenance. Do the Opposition agree with you in this? You are lamentably blind if you can derive pleasure from such an opinion. The Opposition do desire the acquisition of Cuba, but they desire it to be made in an honorable, peaceful, and lawful manner, and not by your proposed method, for so far from agreeing with you as to your mode of getting, or trying to get Cuba, rather than invest the President with the enormous power with which you propose to clothe him, they would drive him, and you, and the rest of Congress, into the

letter so inconsequential, so destitute of all analogy, that we cannot imagine what he could have been thinking about when he wrote it. Here it is :

charge that I proposed to place thirty millions of to what amount we do not know. dollars in the hands of the President, to be use at his discretion. My bill specified the object for which the money might be used, namely to pay for Cuba, "provided said treaty when signed by the authorised agents of the two governments, and duly ratified by the government of Spain, shall call for the expenditure of the same or any part thereof." When money is appropriated by Congress to build a ship or erect a fort, or any other his direction? Certainly not. The whole revenues of government, amounting to from sixty to eighty millions of dollars per annum, are appro-prioted and expended in the same way, my bill

When our distinguished fellow citizen, Judge Saunders, was Minister to Spain, President Polk instructed him to offer to the Spanish Govern-ment one hundred millions of dollars for Cuba-It was done with so much secrecy that if the offer had been accentable to Spain, a treaty would have been entered into, pledging this government for the payment of the price, probably without the knowledge of an individual in the United States, except the President and Secretary of State It would then have been secretly submitted to, and secretly acted on by the Senate. If ratified it would have been "the supreme law of the land; and the judges in every State shall [would] be bound thereby, any thing in the Constitution or laws of any State, to the contrary notwithstanding." All this would have been done, and constitutionally done, not only without the consent but without the knowledge of the people or of their representatives in Congress.

Here it will be seen that Mr. Branch denies that he proposed to place Thirty Mil-County who are opposed to the sway of the lions of Dollars in the hands of the Presicorrupt, extravagant and profligate party dent to use at his discretion; but that the which now rules the country, was of a charac- money was to be placed in his hands for the ter well calculated to show that the flame of specific purpose of purchasing Cuba. Now, no patriotic indignation against the powers that one knows better than Mr. Branch, that be, which is now burning throughout the Thirty Millions of Dollars would not begin country, is blazing among the freemen of to purchase Cuba, for he himself proves that Wake. This is a busy season among the fact by his reference to the failure of Judge farmers, and there was not a large attendance Saunders, when Minister to Spain, to acquire at the Court, but for all that, the meeting Cuba for the price of One Hundred Millions was highly respectable in size, and was com- of Dollars. Mr. Branch positively does not posed of the genuine old Whig grif of the understand, either the President's views in county. Some of our Democratic friends, asking for the Thirty Millions, or his own too, did the meeting the infinite honor of bill for which he was so much glorified. The gracing it with their presence, and heard President did not wish the Thirty Millions more truth told in a short time than they the purchase Cuba, but to induce Spain to have heard for a twelve month.

An account of the proceedings, as given Branch, if the grant had been made to the by the Secretary of the meeting, will be President, and Spain had refused to treat, as found in another column, but we should do she undoubtedly would have done, what acinjustice to Mr. Gales, as well as to our own count would have ever been rendered of the feelings, did we permit the Secretary's ne- Thirty Millions? What earthly anology is cessarily brief account of his remarks to go there between the course of Judge Saunders forth without saying that Mr. G's speech was, and that which the President proposed to in every particular, a most excellent one. It pursue! Judge Saunders, when he proposed was a calm, condensed, and argumentative exposure of the enormities of Democracy, Cuba, did not have one copper of it in his and was most heartily and enthusiastically hands. He simply proposed to Spain that if she would sell Cuba, by treaty, to the United We sincerely hope that in our next issue States, the latter party would pay the sum we shall have the gratification of announcing of one handred millions for it. Had Spain agreed to such a treaty, it would have been enbmitted to the Senate, and if ratified by that body, Cuba would have been ours, and if rejected, not a cent of money would have been paid, and no harm would have been done. The course pursued by Judge Saunders was honest and plain, and no more like the course proposed by Mr. Buchanan and his Lieutenant Mr. Branch, than a horsechestant is like a chestnut horse. Is it necessary to show the most simple-minded reader that there is no earthly analogy between the cases -to impress upon him that in one case President Polk, through our Minister, Judge Saunders, proposed to Spain that The truth of what we stated the other day if she would agree, by treaty, to sell Cuba, in reference to the shuffling, evasive course the sum of one hundred millions of dollars of the famous Franklinton Convention, is would be paid for it in the event that the abundantly proved by the answer of Mr. Senate of the United States ratified said Branch to the letter of the committee appriz- treaty, and that in the other case, the sum of ing him of his nomination. In its every line thirty millions was to be placed in the hands of it shows that the writer is tortured by the the President, in the absence of all knowlfear that he missed the mark egregiously edge that Spain would agree to treat at all, when he undertook the championship of the and in face of the fact that she had but very Thirty Million Bill, and he finds, however recently refused to treat for the sale of Cuba? much he might have been tickled by them at What analogy, too, is there between the thirthe time, that the puffs and laudations of ty million bill and appropriations to build sycophantic Washington letter writers, are ships and forts. When ships and forts are but a miserably poor compensation for the to be built, have appropriations of money frowns of a displeased and misrepresented con- ever been made to induce ship-builders and fort-builders to treat about the contracts for The innocency with which Mr. Branch ex- their construction? WHIG AND AMERICAN MEETING IN WAKE.

At a merting of, the American-Whig party Wake county, held at the Town Hall in Raleigh on Tuesday, the 17th of May, Capt. Stephen Stephenson was called to the chair, and Joseph Jones requested to act as Secretary.

The object of the meeting being explained by

Seaton Gales, Esq., moved that a committee of five be appointed to report matter for the action of the meeting, which was carried, and the Chairman appointed the following gentlemen on said committee, viz: Maj. Wm. F. Collins, Jno. J. L. McCullers, Esq., Col. Geo. Little, Dr. W. J. Busbee, and Seaton Gales, Esq.

After retirement, the Committee reported the following preamble and resolutions:

WHEREAS, it is a fundamental principle of our government that all political power is vested in and derived from the people, and whereas it is important that the people abould often meet to-gether to consult for the good of the country;

therefore, be it

1. Resolved, That the gross corruptions and extravagance of the party at present in power are beyond endurance, and render it indispensably necessary that there should be a co-operation of all patriotic men for the sake of our common Union and the common good:

2. Resolved, That it is the duty of all honest

citizens, of whatever political creed, to assist in driving from the public councils all those selfish agitators who, for partizan purposes and party success, have pandered to the most mischievous sectional prejudices, have squandered the mubli-money with a reckless and unheard of prodigality have encouraged and endorsed the most despot assumptions of Executive power, and have "shock ed the public morals with the grossest exhibition of derruption in high places."

3. Resolved, That it is as imagnitous as it is idle for the so-called Democracy to allage that this extravagance is attributable to other causes than ap

injustifiable and shameful expenditure of the pub

ic money to reward dishonest politicians, as is fully shown by recent reports of various investigaing committee.

4. Resolved, That we are opposed to the surrer der of the war-making power into the hands of the President, and to the proposed Protectorate over Mexico, and that, while we are fully sensible of the importance of acquiring Guba, whenever such acquisition can be made in a peaceable and legitimate manner, we are opposed to the startling and outrageous proposition to place at the disposal of President Buchanan \$30,000,000 of the people's money under the pretext to purphase Cuba, but designed, most probably, for selfish electioneering intrinsees.

. 5. Resolved, That the Bill passed by the last engress, appropriating a certain amount of the icrdomain to each State to add in the estabhment of Agricultural Schools, was a wise, Contitutional scheme, which would have proved o incalculable bases to the country; and that the President in vetoing said Bill; acted in his usual wanten disregard of the wishes and wants of the eople, es pressed through their Representatives. 6. Resolved, That we are opposed to the President's plan of establishing a Federal Commission of Bankruptcy over our State corporations; that we favor a Tariff based upon a moderate pretection of the various interests of the country; and that, as the public lands are a common inheritance, we favor a distribution thereof equally among all

. Resolved, That we regard with profund adiration the patriotic and firm stand taken by our friends in our sister States of Virginia, Kentucky and Tennessee, and wish them God speed in their gallant efforts to wrest the government from the

grasp of the spoilers. 8. Resolved, That, we have heard suggested with great gratification, the name of Col. L. C. Edwards, of Granville, in connection with the congressional canvass in this District, and, should consent to become a candidate, we sheerfully tender him our cordial and earnest support.

The resolutions were unanimously adopted, when the meeting was ably and eloquently addressed by Jno. W. Syme, Esq., Editor of the Register. Seaton Gales, Esq., being next called upon to eloquent speech in support of the resolutions.

Jno. W. Syme, Esq., moved that a Committee of six be appointed by the Chairman to inform Col Edwards of the action of this meeting, and earnestly request that he become a candidate to represent this District in the next Congress of the United States, which motion being carried, the Chairman appointed the following on the Committee, viz: Dr. F. J. Haywood, Seaton Gales, Esq., Col. Geo. Little, Jno. W. Syme, Esq., Maj. Willie D. Jones, and Everard Hall, Esq.

On motion of Jas. J. Litchford, Esq., the proceedings of the meeting were ordered to be published in the Register.

THE ROAD OVER MOUNT CENIS.

RALEIGH, WEDNESDAY MORNING, MAY 25, 1859.

As this road will soon become famous as the route of the French army into Italy, the following description given by a correspondent of the New York Times, who recently passed over it, will be read with interest.

The road over Mount Cenis is macademized throughout its whole extent, and is wide and in perfect order, consisting of easy grades. On the top of the mountain there was much snow, but most of it was removed from the road—a work of great labor, as the cuts in some places were ten feet deep, and the snow so compact that its sides were perpendicular. The diligence was several hours in passing through this region of snow, an it was snowing at the time, and extremely cold.— On Monday and Tuesday of this week it rained hard on the west side of the mountain, and it was feared that the passage of troops was impeded by fresh snows. The journey over the pass is no pleasant affair even to one who occupied the protected seats of a comfortable diligence—such was my fortunate position—what must it be to soldier on foot, wet with severe rains, and incumbered

with knapsacks and arms.

The pass is 6,835 feet high—nearly 300 feet higher than the famous Simpson pass. That of the great St. Bernard over which Napoleon conducted his army before any road had been formed, is 8,200 feet. The easy grades of the Mont Cenis road, and the protection furnished by granite posts on its exterior, within seven or eight feet of each other. Brinly planted in the earth, and about four feet high—indicate that a principal object in thus forming it, was the easy and safe hauling of cannon and baggage over the line. I walked for miles over the road, in the ascent from the Sardinjan side, and carefully observed its construction The engineering difficulties were immense, but they have been overcome with such skill, that the ascast is uniform and easy in every part. Occasionally a level place is left to afford relief to horses om the wearisomeness of a steady pull. I noticed that the marks of the drill used in blasting were nearly obliterated, the effect of long continued exposure to severe storms, and the character of the rock, which is a soft limestone. It may be, if the history of the road shall ever be lost, that future antiquarians may contend from the obliteration of all signs of blasting that at least no great difficulthey do not insist that it was formed a natural bed One is struck with wonder that such a great work, over high mountains, should have been formed and finished on a line exceeding fifty miles so completely that it exceeds in excellence any road know of in the United States whether public or private, and long or short. It iskept in high order, and is descended on a brisk trot, with entire

It seemed most appropriate, as this great road was the work of the older Napoleon, that the reresentative of his name should distinguish himself by using it for the march of a great army aimed at the same power which Napoleon successfully encountered soon after crossing the Swiss

THE PRESIDENT COMING TO N. C .- President Buchanan has sent the following reply to a committee of invitation :

WASHINGTON CITY, May 12, 1859. GENTLEMEN :- I have been honored by your very kind invitation on the part of the Trustees of the University of North Carolina, to visit Chapel Hill at the Annual Commencement in June next. It affords me pleasure to say that I cordially and gratefully accept this invitation. I have long desired to visit "the Old North State," and become better sequeinted with a people for whom I have ever entertained the highest respect and esteem.— The occasion being literary, and not political, is just such an one as I should myself have selected.

> It is said that one of the conditions of the compromise between Douglas and Buchanan to unite the discordant elements of Democracy is, that Douglas shall recognise the Buchanan wing of the Pennsylvania democracy as the legitimate party organization in that State. Poor Forney! What will become of him in this arrangement? He had better prepare at once to lead his followers into the "People's party." STATE MEDICAL SOCIETY .- The Standard of Wednesday says:

"The Medical Society of the State of North Carolina held its tenth annual meeting in the town

of Statesville, commencing on the 10th and closing its labors on the 12th.

We learn from a friend that the number in attendance was much larger than at any previous meeting, and that the best feeling prevailed.

Dr. Alexander, of Cabarrus, offered a prize of fifty dollars for the best essay on the effects of to-bacco on the system; and Dr. Manson, of Granville, offered a gold medal for the best written essay on any medical subject. These offers were accepted

by the Society. The most important business before the Society was the acceptance or rejection of the charter of incorporation and the act authorizing the estab-lishment of a Medical Board, passed by the last Legislature. The act was accepted, and the Society, having the appointing power, elected the following gentlemen to constitute the Board : Drs. J. H. Dickson, Charles E. Johnson, W. H. Mc-Kee, O. F. Marson, C. Winslow, J. G. Tull, and Happoldt, of Morganton. This Board will serve for a term of six years.

The following gentlemen were chosen officers of the Society: Dr. N. J. Pittman, of Edgecombe, President; Drs. Henry, Leach, Whitehead, and Winborne, Vice Presidents; Dr. W. G. Thomas, Secretary; Dr. C. W. Graham, Treasurer; and Dr. W. T. Howard, Orator.

The annual address was delivered by Dr. J. J Summerell, of Salisbury. It is represented as a fine specimen of elequence. The next meeting of the Society will be held in Washington, Beaufort county, on the first Wednesday in April, 1860."

What! Why a Beautiful Head of Hair. Because it is the ornament God himself provided for all our race. Reader, although the rose may bloom ever so brightly in the glowing cheek, the eye be ever so sparkling, the teeth be those of pearls, if the head is bereft of its covering, or the hair be snarled and shriveled, harsh and dry, or worse still, if sprinkled with gray, pature will lose more than half her charms. Prof. Wood's Hair Restorative, if used two or three times a week, will restore and permanently secure to all such an ornament. Read the following and judge:

NEW YORK, April 19, 1858. DR. Wood - Dear Sir :- Permit me to express to you the obligations I am under for the entire resteration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative," it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficatious as well as agreeable.

Woon-Dear Sir :- Some month or six weeks ago, Lruceived a bottle of your Hair Restoraeve and gave it to my wife, who concluded to try it on her hair, little thinking at the time that it would restore the gray hair to its original color, but to her as well as my surprise, after a few weeks' trial it has per-formed that wonderful effect by turning all the gray hairs to a dark brown, at the same time beautifying and thickening the hair. I strongly recommend th above Restorative to all persons in want of such CHARLES CARDEW.

NEW YORK, July 25, 1857. PROF. O. J. Woon: With confidence do I recommend your Hair Restorative, as being the most efficacious article I ever saw. Since using your Hair Restorative my hair and whiskers, which were almost white have gradually grown dark; and I now feel confiden that a few more applications will restore them to their natural color. It also has relieved me of all dandruff and unpleasant itching, so common among persons who perspire freely.

PROF. Wood :- About two years ago my hair com menced falling off and turning gray; I was fast be coming bald, and had tried many remedies to no effect commenced using your Restorative in January last. A few applications fastened my hair firmly. It began to fill up, grow out, and turned back to its former color, (black.) At this time it is fully restored to its or ginal color, health and appearance, and I cheerfully recommend its use to all. Chicago, Ill., May 1, 1857.

The Restorative is put up in bottles of 3 sizes, viz: large, medium and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and re O. THE PEACE INSTITUTE.

We are gratified to learn that the efforts being made for the establishment in Raleigh of a first class Presbyterian School, will in all probability be crowned with success. The Rev. J. M. At kinson, of this City, who has been laboring with so much zeal to raise the necessary funds, has kindly shown us his subscription book and explained to us his views and plans; and we have no hesitation in saying that the enterprise will pay, while at the same time it will contribute in no small degree to the growing prosperity of this community and the advancement of sound learn-

The subscription list is headed by the venera ble William Peace, Esq., of this City, with \$10,000; and the institution takes its name from him We learn that a sufficient amount, about \$30, 000, has been raised to justify a beginning; and it is expected that \$20,000 in addition will be readily obtained.

The intention is to establish a superior School for young ladies—an institution which will fur-nish thorough instruction, and prepare young women for an intelligent discharge of the dutler and responsibilities of life. We learn that the buildings will be erected just without the northeastern limits of the City, on grounds obtained from the Hon, Kenneth Rayner and Dr. T. D. Hogg, near the residences of A. M.
