The attempt to "the Territories can, before they assume sovereignty," or before they hold a convention to make a State constitution, "interfere in any way with slavery." Unlucky, Mr. Holden ' Before the ink in which the above sentences were printed was dry, out comes an elaborate article from Judge Douglas, claiming the right of "the Territories, before they ever swerve from our conscientious convictions of assume souereignty," to get rid of slavery altogether, and absolutely denying the jurisdiction of the Supreme Court of the United States in the premises. This bomb shell made Mr. Holden dizzy. He did'nt know what to do, although he knew something must be said; so accordingly we find the following little for men, except in the way of kindness, and

FOR THE CONVENTION.

The "Charlotte Whig" is with the "Weldon Patriot," the "North Carolina Argus," the Elizabeth City "State" and this paper, for an Opposition Convention in December. The "Whig" says :

OPPOSITION CONVENTION .- The Raleigh Register suggested a few days ago, that the Opposition Party hold a State Convention on an early day in December By some means this proposition of the Register escaped our notice, but we now respond to it most cheerfully. The N. C. Argus and Weldon Patriot have responded, the latter of which suggests that the Convention meet at Raleigh, on the 1st Wednesday of December next.-That time will be very opportune, for from now until the 1st Wednesday in December, Courts will be held in every county, and will afford a fine opportunity for the appointment of Delegates, so that every county may be represented.

We have before us a very worthy Democratic paper published at Warrenton by "William A. Walsh, Editor and Proprietor." We know Mr. Walsh somewhat, if not intimately. Our intercourse with Mr. Walsh has been of the most pleapresume these feelings are reciprocated on his part. Of any personal difficulties or disagreements between Mr. W. and any other Democrats we care not to speak or even know; but what good can come of finding fault with those with whom we will co-operate in the ensuing campaign ?- Why de so has done us enough harm already. The experiment has been carried far enough. Let us turn to other things. Because men don't choose to abnegate their own convictions, it won't do to lenounce them as the Warrenton News does, as being "unequal to the crisis." For our part, as Democrats, as conductors of a paper that has fought for the Democratic party now fifteen years, without once flinching, we feel bound to state distinctly that no mere individuals shall make issues for us and compel us to adopt them, nor shall we Democratic policy and Democratic principles, even although we run the risk of being classed with those who are unequal to the crisis. There are Democrats in this State who refused to sustain issues made by the party of the State in State convention assembled, as in the case of Free Suffrage, who are willing now to denounce others for not obeying their dictation and adopting issues not made by the party in any convention. We care we really desire to regard all Democrats as friends, we certainly so regard the editor of the Warrenton News, but it is time that we should understand

"UNION INDISPENSABLE."

Under this caption the Charlotte Bulletin of the 29th ult., has an article in which it "call" upon us:

We call upon the acknowledged and worthy leader of the Whig press, in North Carolina, (the Editor of the Raleigh Register,) for whom we entertain the most exalted opinion, to look well into the movement now being made in this State to organize the Opposition party. It will not be mereolina-it will serve the purpose of strengthening the arms of Black Republicanism, without any design to do so. The defeat or the disorganization of a true Southern party, at the South, must result

in giving to our enemies the advantage they seek. While we gratefully appreciate the kind notice taken of us by our Charlotte contemporary, we must respectfully inform him that we cannot take his view of the subject in hand. We regard an Opposition party at Express. the South, as eminently necessary for the protection of Southern, as well as of National interests. As far as the Institution of Slavery is concerned, it was but the other day that we proved by the undeniable history of the last twenty-odd years, that the Democratic party had managed that subject, not with regard to the preservation and safety of the Institution, but with an eye to their own possession of the spoils of the Federal Government, and demonstrated that under their rule slavery had become weaker and weaker. The present, too, is the very last period at which we would think of abandoning our Opposi-

tion colors. In the first place, the party in power have prodigality and corruption, and should, therefore, be driven from office. In the second place, it is vastly more than probable that we THE RICHMOND ENQUIRER AND JUDGE shall soon see Southern Democrats sustaining for the Presidency a Democrat who asserts that the Territories have the power to prohibit er exclude slavery, a power just as dangerous as direct Congressional legislation

against slavery. You now see, friend Bulletin, why we cannot abandon opposition to Democracy.

"KITTRELL'S SPRINGS." The unprecedented "run" which this place has had since the virtues of its waters were discovered warrants the question, "if it has been so attractive in its present rough and uncomfortable condition, as far as lodgings and other accommodations are concerned, what would it not do, if people could be comfortably lodged and well fed at it?" In several diseases, especially scrofula, it has been found to be a specific. It is very accessible from all quarters of the country, and all that is necessary to make it renowned not only through the State, but through the Union, is the expenditure upon it of an amount of capital necessary to make suitable accommo-

COL. JNO. H. MANLY.

We are pleased to see that our late fellowcitizen, Col. Jno. H. Manly, has been elected to the General Assembly of Texas, by a large majority over his competitors, and also far ahead of his own ticket.

We extract from a Texas paper the following paragraph, giving an account of a political meeting in the city of Houston :

"Col. Manly was called out by five hundre earnest and intelligent voices, and followed Mr Cage in one of the most eloquent and telling speeches to which I had ever listened. He touched the chords of popular sympathy with a master hand as he spoke of the hero of San Jacinto, and of his services both in the camp and the Senate. The responses to his patriotic utterances were from earnest and resolute hearts," &c., &c.

The Colonel has settled in Houston in the practice of Law, where, we have no doubt, his popular address and gifted elocution will secure him eminent success.

NEW PUBLICATIONS. LE Bon Tun .- The September number of this splendid Magazine of the Fashions, has been received from the publisher, S. T. Taylor, 407 Broadway, New York. It contains three supurb engravings, and patterns showing the latest styles. All of the fair sex who desire to be posted in regard to the fashions, either as to dresses or milline-

THE NORTH CAROLINA PLANTER .- The September number of this publication is before us, containing its usual quota of interesting Agricultural information. The publisher announces his intention of discontinuing the publication unless he is more liberally supported, his subscription list numbering at this time less than 800. He complains of the neglect of the State Agricultural Society, the State generally. With so limited a patronage we do not wonder that the Planter has not been better than it is.

Another aurora, said by those who saw it to have been equally as brilliant, and probably more so, than the one on Sunday night, was observed on yesterday morning, about 2 o'clock. On this occasion the display was said to be magnificent, it being so light that many arose from their beds, supposing it was day. These wonderful displays of the aurora-borealis have never been satisfactorily accounted for. They are attributed by some to electricity, and, indeed, it would seem that when they appear the air is generally surcharged with electricity, as, for instance, last Sunday night, demoralized and debased the country by their | when the atmosphere was so heavily charged with electrical matter that the telegraph lines at the North were unable to operate.

" As we have already repeatedly urged upon the attention of our readers, this doctrine is even more practically and effectively subversive of the constitutional rights of slaveholders, than is the doctrine maintained by Mr. Seward and his adherents of the Black Republican party. Mr. Seward holds that Congress may rightfully exclude slave property from the territories. Mr. Douglas contends that this power resides in the local authorities of each territory.

"So far, then, as the great question of principle involved is concerned, there is no material difference between Mr. Douglas and Mr. Seward .-Both deny the inaliepable right of the citizens of each State to enjoy on territory common to all the States, every species of property which any citizen may lawfully hold within the limits of any one of the States. Mr. Seward attributes th power to abrogate this right to a federal legislative body, where the attempt would be met with the strenuous opposition of a full body of Southern representatives, whose action and deliberation are onstant subjects of watchful attention and jealous omment to the whole people of the Union. Mr. Douglas attributes the power to isolated and obscure local authorities, among whom theslaveholders of the Union may be altogether excluded even from partial representation, whose members and constituencies are comparatively irresponsi

And further on, the Enquirer says: "This is the doctrine of Mr. Douglas' essay fully expressed. So far as the practical interests of the South are concerned, it is much worse doc trine than that of Mr. Seward. The Democracy of Virginia steadfastly refuse to yield to either."

SALE OF THE WHITE SULPHER SPRINGS. We learn that Dr. Elliott has sold his place in Catawba county, on which is situated the White Sulpher Springs, to Col. H. L. Robards, of Salisbury. Col. DEATH OF COL. DAVENPORT .- We learn from the Charlotte Whig that Col. Wm. Davenport is dead. He died on the 18th instant. He was in the 90th year of his age. He was one of the oldest and most influential citizens of Caldwell county, and contributed largely towards the erection of Davenport Female College, which will be a lasting monument to his good name. EUROPEAN NEWS.

The European news by the steamship Indian, at Quebec, from Liverpool on the 17th instant, is interesting. The French Army of Italy made its triumphal entry into Paris on Sunday, the 14th. The streets were decorated and crowded to excess, and the night illuminations were on a grand scale. In the evening a grand banquet was given by the Emperor to the principal chiefs of the army, at the close of which he made a speech, and distributed medals to those engaged in the campaignthe day of the fete, the Emperor pardoned up wards of a thousand persons, sentenced to prison for various crimes. And the Moniteur of the next day published an Imperial decree, granting entire amnesty to all persons sentenced for political of-fences. Lord John Bussell had announced in the British House of Commons that it was the intention of the Government to require the Chinese to fully carry out the conditions of the treaty with that country, for the ratification of which a special envoy had been sent to Pekin. The nomination of Charles Lennox Whyke, as Envoy Extraordinary to Centrall America, and rumored cession of territo ry in Honduras to Great Britain, bad given rise to the ression that the English Government was seeking to strengthen its position in that quarter. Sir W. Gore Ouseley was about to be recalled. The Ministerial crisis in Austria, was not yet over. It was reported that the new Constitution would be characterized by the principle of decentralization; by the re-establishment of the representative provinces; by the prerogatives given to the aristocracy, and lastly by a strict Catholic spirit. Everything was quiet in Italy. The report of a Red Republican movement in Parma had been positively denied. Garibaldi had accepted the command of all the forces of the Centrality. He had arrived at Leghorn. It was reported that the French Government had addressed a dispatch to the Great Powers, declaring that France would not assist the seif-elected Princes to return to their dominions by force, nor permit Austria or any other Power to afford them military aid for that purpose. The King of Prussia had not expired, but his death

The Peace Conterence at Zurich was still in session, but apparently effecting nothing, although one of the Austrian Plenipotentiaries was reported to have stated on a public occasion that he had strong faith in the final success of the Conference. This declaration had been received with the greatest enthusiasm. The National Assembly of Maoin favor of national liberty.

The Dictatorships of Parms had been accepted by M. Fould. The Presidency of the Council of Rome had been resigned by Cardinal Antonelli, but he still

THE GREAT EASTERN STEAMSHIP .- This ship is announced to sail for Portland early in September. Preparations have been made for one thousand first-class passengers, and no second class will be taken. The price of passage will be about one hundred dollars. The crew and officers will number about 500. There will be 180 seamen, 180 firemen, 130 stewards, 15 engineers, 20 officers, 2 surgeons and a chaplain. Ten thousand tons of coal will be carried, and such are the mechanical appliances of the ship, that the immense quantity can be put on board in two days.

CAUSE OF DEATH .- First Lieut. Stanford, o N.
