RALEIGH. N. C. SATURDAY MORNING, JULY 14, 1860

Let it be remembered that the Raleigh Standard thinks that the plan of running anti-AD VALOREM Democratic Candidates for the Legislature in all the Countles, would be "DISASTROUS" to the Democratic Party.

"That our Revenue system is a very had one, must be admitted by every Senator who has given it the slightest investigation."- Extract from Senator D'edene's Speech.

Bear it in mind that the anti-Ad Valorem Party propose in their Platform to tax every thing in the State, except Slaves, according to Value. ger Let it be borne in mind that Mr.

Frank I. Wilson, late an associate editor of the Raleigh Standard, said that he thought unionist cannot be found at the South outside Judge Ellis would be beaten. Remember that JOHN W. ELLIS com-

pares the West to a "horse-leech," whose eternel cry is "give, give," and the East to a goose that permits the West to take all the eggs Among the Democrats of the South are many she lays. Remember that JOHN W. ELLIS is in

favor of raising the Poll Tax on Slaves, when he knows full well that by doing so the tax on WHITE Polls will be correspondingly in-

Remember that Gov. John W. Ellis interrogated one of the Clerks in the Postoffice in Raleigh to find out if Frank I. Wilson had not been circulating the Working Men's

DAY OF ELECTION.

The day of election in this State of a Governor and members of the General Assembly, is but a little more than a fortnight remote. and it becomes us to ask our friends if they are ready to do their full duty on that most important occasion? Whether we look at this election as it concerns our State, or National Interests, we cannot fail to see that one more important has rarely occurred. In a State point of view, this election will settle a great and vital principle. It will determine whether the present unfair, unjust and oppressive system of taxation-a system which gives undue privileges to the rich, and imposes undue burthens upon the poor-shall be continued, or whether every man shall be taxed in preportion to what he is worth-the rich man in proportion to his riches, and the poor man in proportion to his poverty. A large, and yet to be increased State debt, has to be paid, and it is for the votors of North Carolina to say whether the most valuable property in the State shall or shall not be made to pay a fair and just proportion of that Debt. That's the question in a nutshell, and how it can be a "question" at all, how there can be a negative to the proposition that slave property should be taxed according to its value, is a mystery to us. Besides the settlement of the principle of taxation, the next Legislature will be called on to elect a Judge of the Supreme Court and two Judges of the Circuit Court.

When we come to look at the effect of the election on our National Interests, we cannot fail to realize its great importance. Upon the next Legislature will be devolved the duty of electing a United States Senator and re-arranging the Congressional Districts -He must be an inattentive observer of passing events who does not see that the party heretofore called the Democratic, has been toru to pieces by internal dissensions, and is now wholly unable to ward off the danger which threatens the Union of these States, a danger brought on by the Democratic party during its sway of nearly a quarter of a century .-So far from the Democracy being able to save the Constitution and the Union, a wing of it is in favor of the destruction of both by "precipitating" certain "States into a revolution." What, then, is the duty of the Union-loving men of North Carolina? Manifestly to sustain the candidates who will sustain the only National, the only Constitutional and Union preserving ticket that is before the country, the ticket of John Bell and Edward Everett. Let Democratic editors and speakers say what they will, the country must now choose between Bell and Everett and Lincoln and Hamlin. Were the Democracy united, they could not of themselves elect a man of their own, and it is worse than idle-it is foolish, and wicked for them, now that they are furiously quarrelling among themselves, and have two tickets before the people, to pretend that either Douglas or Breckinridge has the ghost of a chance to be elected. We ap- the very boldest design, was no other than peal then to every Union-loving man in the celebrated Thomas Paine.

State to stand in the coming election by the candidates who will stand by the Constitutional Union ticket of Bell and Everett, for by doing so they will insure the vote of the State to them in November, and exercise a powerful influence in behalf of the Union upon other States. It cannot be disguised that in the event of the election of Lincoln the fire-eaters of the South will attempt to break up the Union. They were ready to do this had Fremont been elected four years ago. We know what we say when we declare that there was a conspiracy to prevent Fremont's inauguration-that there was a conspiracy to put him to death on the steps of the Eastern portico of the capitol before he could take the oaths of office, and to seize upon the Government property at the South. Some of those who were engaged in that conspiracy are alive now, and ready to execute upon Lincoln that which they were prepared to do to Fremont. These men, so far from valuing the Union, will avail themselves of any, the baldest excuse, to destroy it, and these men are to a man Democrats. A disthe Democratic party. The Whigs at the South are to a man for defending the Union "at all hazards, and to the last extremity." who would thank their God for an opportunity to destroy it, and "let chaos come again." Men of North Carolina, it is for you to say on the 2nd of August, who you will choose to govern you at this most critical and alarming period-Whigs or Democrats.

HOW THE TIMES HAVE CHANGED, AND HOW FOLKS HAVE CHANGED WITH THEM.

But a short time since the Raleigh Standard lost no opportunity of expressing its entire and hearty confidence in the purity and uprightness of Mr. Buchanan's administration. Not a meeting of the Democracy of this State, whether County, District, State, or Koads, was held which did not wind up with compliments to Old Buck. Now, however, things, at least so far as the Standard is concerned, have taken a very different turn. In its issue of Wednesday last we find the following.

THE PRESIDENT FOR BRECKING DE AND LANE. We learn from the Constitution, the organ of the President, that the Breckinridge and Lane Democratic National Committee waited on President Buchanan on the 27th June, and through Mr. Wright, of Massachusetts, expressed the pleasure felt in thus paying their respects to him. The President in reply, after thanking them for their call, "expressed his most hearty approbation of the principles which had been proclaimed, and nomination which had been made by the Naional Demogratic Convention." The Constitution

"The whole interview was most agreeable, and we feel confident that every member of the com mittee left the presence of the President with the determination to do his devoir in the great battle that is coming on for the Constitution, the Union, and the equality of the States, under the banners of Breckinridge and Lane."

Comment on the foregoing is unnecessary Mr. Wright, who addressed the President, seceded at Baltimere, and had just been appointed by the President Superintendent of the Springfield Armory. Comment on that is unnecessary, feel under profound obligations to Mr. for his tender regard for our rights as a slave-holder. Our thanks as a slaveholder are also due to B. F. Butler, who insisted on the Cincinnati platform pure and simple at Charleston-to A. W. Chapin, Postmaster at Springfield-to R. W Carpenter. Postmaster at Greenfield-to James S. Whitney, collector of the Port of Boston, all Massachusetts men, and all of whom seceded at Baltimore. Also, Col. Greene, of the Boston Post. Naval Officer at Boston, who would have seceded if he had been at Baltimore, and who approves the course of Messrs. Wright, Whitney, and others. Whatever may be said of Massachusetts in other respects, present circumstances indicate that none of her public men will ever "bring the patronage of the government into conflict with the freedom

The above is a pretty sharp rebuke upon Mr. Buchanan, inasmuch as it charges him with running counter to the Jeffersoniannot the "Calhoun" -maxim, that "The patronage of the Government must not by brought into conflict with the freedom of elections." But we should be glad to know whe the Standard's thunder on this subject has slept so long ? It knew perfectly well that Mr. Buchanan, in the most glaring manner, used the patronage of the Government in Philadelphia to effect the election of his man Friday, Florence, to the House of Representatives, and yet not one word of censure escaped

it. Then, with it, was "good Old Buck," "great Old Buck," "virtuous Old Buck," "glorious Old Buck." Now, it is quite another thing, inasmuch, as Old Buck is out for Breckinridge and Lane, and has ceased to be good, great, virtuous and glorious. Let the Standard watch Old Buck from now until election day, and it will see how his old love of a President will "bring the patronage of the Government into conflict with the free-

THE NEWBERN PROGRESS AND THE STANDARD.

The Newbern Progress is hand and heart with the Standard in its war against the Se- day. Dr. W. R. Holt, was called to the chair, eders. Commenting on the Standard's late pronunciamento, it says :

Now, can any one longer doubt the true object of the leaders in this secession movement, after read-ing the above extract! Mind you, Mr. Holden was a delegate to both Conventions, and not only a delegate, but a prominent, industrious, working lelegate. He suffered no opportunity to pas nimproved, in ascertaining what the pletter against the Constitution were up to. Think you, that he would spend 15 days in Convention with those men and not know the true import of their secret plannings? No sir-ee. He knew what they were up to, and when the time came for desisive action at Baltimore, when the crisis was upon the Convention and his brother delegates were going out with these partisan sectiona tricksters he "stood aloof," and why? Because he knew they were plotting against the Union, and was determined to have no part nor lot in the matter, and he now tells his brother Democrats distinctly what his line of policy, in the future, will be, regardless of consequences.

The object of the leaders, then, of this secession party being to sever the Union and thus intail pon us all the consequent evils that must inevitably follow, what course should patriots pursue in the present campaign? Unquestionably, there but one course they can pursue, and that is, to vote for the national candidates, if such are in the field, and if not then, for those who come near-

ANOTHER NEUTRAL ABANDONING NEUTRALITY.

The following is from the Scotland Neck News. We welcome the S. N. News to the ranks of the Constitutional Union army :

We hoist at our mast head this week the name

John Bell, of Tennessee, for President, and Edward Everett, of Massachusetts, for Vice President, and John Pool of Pasquotank, for Governor of North Carolina. Where is the manof any political party that lies more deeply enshrined in the hearts of his countrymen than John Wright Bell? Who of our statesmen has written their names higher upon the temple of fame than Edward Everett? Who stands out in greater majsty or bolder relief before the people o. North Carolina than John Pool? This is the ticket. and there are good men enough left on this land of ours who are not fettered down to their respective parties, to elect these gentlemen to the different offices to which they aspire.

THE CENSUS TAKERS.

While the Standard's "hand is in" about the impropriety of the interference of the Government with elections, we wish it would rap the census takers for electioneering for the Democratic candidates in this State .-We have received several complaints from gentlemen in different quarters about the conduet of some of these deputies. If they will only give us their names, we will hold them up in proper style.

THE COST OF A STATE CONVENTION The opponents of fair and equal taxation are making a great outery about the cost of a State Convention. Now, facts furnished by Comptroller Brogden prove that the State Convention of 1835 cost \$12,526 54. And yet this small sum is the ghost that frightens out of their propriety the Democracy who have saddled the State with a debt of some nine or ten millions of dollars, with a prospect of being increased to nineteen millions!!

> A CHANCE FOR BACKERS OF BRECKIN-RIDGE.

Those gentlemen in this city and elsewhere who assert so clamorously that Breekinridge will sweep the South have an opportunity of backing their judgment, by accepting the subjoined propositions. They are taken from the Washington States, and the gentleman who makes them, if we are not mistaken, is a citizen of Pet rsburg-and doubtless means what he says. Mr. Breckinridge's formal acceptance of the omination for the Presidency is published.
