UNION.

We devote all of our disposable space to-day to an article taken from the "Notional Union," a campaigu paper published at Nashville by the Union Central Committee of Tennessee. This article, though long, is see nothing suspicious in these indications? eminently worthy of the attentive perusal of every man who values the Constitution and the Union of the States. That a plot is the New York Herald. That raper is conafoot to destroy both, cannot longer be con- | vinced that the only hope for the preservecealed. The article which we publish thoroughly unmasks the conspirators against and Everett ticket. the peace, happiness and liberties of the people of these as yet United States.

tleman as the Editor of the Raleigh Standard should persevere in advocating his "conditional," or Janus-faced ticket for the Presidency ! There is now as fierce a war going on between the Tickets of Breckinridge and Douglas, as there is between these Tickets and that of Bell and Everett. Indeed, we would not over state the case if we declared, that the friends of Breckinridge and Douglas, failing to elect their respective candidates, would prefer the election of Bell and Everett. We know ourself Breckinridge men who prefer Bell and Everett to Douglas, and Douglas men who prefer Bell and Everett to Breckinridge. But there is this difference between the Breekinridge and Douglas men. The war of the former against the latter is waged with a much more intense hate than that of the latter against the for-

We have already called attention to the fact THE CONSPIRACY TO DESTROY THE that in the free diates, where Douglas is the choice, ten to one, of the conservative Democracy, the Black Republicans indicate a most decided partiality for Breckinridge. The reason of this is obvious enough. The Black Republicans know that every vote for Breekinridge in the North-western, Northern, and Middle States, 15, in effect, a vote for Lincoln. combine against it. But how is this to be done? In the outset, supposing the defeat of Lincoln to be the paramount object among the supporters of Breckinridge, Bell and Douglas, we broached the plan of a system of fusion electoral tickets among them But it was soon apparent that this scheme of on operation was, as yet impracticable. Next, under the impression that the South would be a unit in support of Mr. Brockinridge, we advised a general rally in the North to his standard, as the shortest way to scoure the North-ern balance of power. But the late Southern

Not yet disposed to give up the ship, we next recommended the withdrawal—by an agreement among them-selves—of Breckinridge and Lane, Bell and Everett, Douglas and Johnson, and the recom-Brerett, Douglas and Joint stock ticket upon mendation by them of a joint stock ticket upon. But which all their supporters might combine. But this proposition appears to have fallen upon the candidates indicated like the voice of a man upon the winds or the angry waves of the swelling sea. With an overwhelming popular vote in the manufacturing and commercial States of the North opposed to Lincoln, the several parties in the field to which his defeat is the first necessity ap-pear to have surrendered themselves to the idea that the case is foreclosed, and that Lincoln is already lected. mer. In all our life we have never seen more tyrannical, aye, despotic ground occupied, than that which has been assumed by the friends of Breckinridge against those of Douglas. They absolutely deny them the right of being heard before the People through the medium of an Electoral Ticket ! What then becomes of Mr. Holden's "conditional" Ticket ! And what purpose will be subserved by his scraps for Douglas here, and his scraps for Breekinridge there !

As a further specimen of how the Standard's "condition's" are treated, we copy the following, which we found in the Democratic Press of Wednesday :

MR. DOUGLAS' FONDNESS FOR CLAMS. We find the following paragraph going the rounds. If it be true, it is not improbable that Mr. Douglas will find it convenient to make a different sort of a talk when he visits North Carolina. It is likely that he will then be fonder of niggers than clams.

DOUGLAS AND CLAMS .- In the course of Mr Douglas' late clam speech at Rocky Point, R. I., says the Petersburg Bulletin, he said : "Ladies and gentlemen, I would gladly speak again, but you see from the tone of my voice that I am unable to. This has been a happy, a glorious day, I shall never forget it. There is a charm about this beautiful day, about this sea air, especially about that peculiar institution of yours-a clam bake. I think you have the advantage in that respect to Southerners. For my own part, I have much more fondness for your clams than I have for their niggers. But every man to his taste."

As a specimen of the feeling of the friends of Breckinridge in this State against Doug-

las, we take the following from the Charlotte Bulletin

MARTIN VAN BUREN. It is reported in the Baltimore Patriot that MARTIN VAN BUREN has declared his intention to support STEPHEN A. DOUGLAS for the Presidency .- Par nobile fratrum.

This looks like a " conditional" Treket ; does it not, Citizen Holden ? Then, sgain, look at this from the Petersburg (Vs.) Bulletin, an ardent Breckinridge paper:

DOUGLAS VOTED FOR THE WILMOT PROVISO WITHOUT INSTRUCTIONS. When Douglas is charged with having voted for the Wilmot Provise, his friends endeavor to shield him from the indignation of the South by the plea that he cast his rote under instructions from his State and in opposition to his individual opinions. It so happens, however, that Douglas is committed by the record in favor of the Wilmot Proviso in 1848, prior to the date of his instructions, as fully appears from his speech deliv-ered at Springfield, Itlinois, in 1849.

A NEW AND VALUABLE INVENTION. Mr. Gabriel Utley, of Chapel Hill, has just obtained a patent for a Machine for Trimming Books, invented by himself. It is a simple and highly effective machine, which admits also of all the adjustments necessary to trim paper to any required size, or different sized paper and books. The machine now in use will only trim one end of a book at the time, while the invention of Mr. Utley will trim both ends and the side at the same time, thus saving two-thirds of the time and labor now required. Mr. U. informs us that his machine can be sold for less

absolutely conclusive, and we trust may produce conviction in the minds of our Democratic friends, and cause them all to rally to the support of Bell and Everett The Republican says :

"A man is considered sound by the Democracy whenever he consents to stand on a sound plat form, no matter what may have been his former principles and course of action.

"Of the four candidates, he is the only one who owne a slave and whose personal interests are identified with the institution ! The others have no direct connection with slavery through the medium of ownership, while Mr. Bell is a large Southern planter and the owner of two hundred slaves!

"Talk to honest, sensible men about such a man being untrue to the South, when, besides a life spent in her service, his very instincts bind him to her with hooks of steel ! The bare statement of the case is sufficient answer to all the partisan slanders that may be heaped up from now till the day of election.

"Let the people of the South then sustain op of her own sons-s man who is with them in principle, conduct, interest-everything, and one of themselves. Common sense taaches, is far safer than the men who are made ou friends though the creative power of a party platform.

In view of the foregoing considerations, should not every patriotic Southern Democrat cast his vote for John Bell. Is he not the very soundest and truest candidate before the people? Cannol all men safely trust him ?

"ROOSTING LOW."

The Opposition in North Carolina, with an al most hopeless Democratic majority to contend against, nevertheless came up to their work man-fully, and the result of their inbors shows that the Old North State will be safe for Bell and Everett in November next.

This gun from North Carolina, to say nothing of Kentucky and Missouri, has caused the Demo cratic bird of the Argus to roost se low that he can only find a rest in a single congressional dis-trict in North Carolina with any degree of com-fort. In Smith's district Ellis made a gain over Smith's majority last year! A wonderful gircum-stance, considering the different issues involved in the Congressional election of last year and the

Gubernatorial of this. We would ask our neighbor, while he is so jubilant, to spend some of his time in ascertaining

the loss which Governor Ellis sustained in the Congressional district in which he resides, and give his readers the result of his calculations. Norfolk Herald

Gen. Leslie Coombs (Union) in Kentucky has a majority so far of 13,000 over the Breckinridge and Douglas tickets combined.

their first and last national battle

On the other hand, this Bell-Everett party, founded upon the Union as it is, including the ounded upon the Union as it is, including the organic institution of slavery in the Southern States, is the natural antagonist of disunionism in both sections—of the republican party, which seeks to abolish slavery in the South, and of the Southern fire-esters, who make the indefinite ex-pansion of slavery the test of their submission to the Union. We have had sufficient manifes-bility of the test of their submission ations of the strength of this new constitutions party in the South to satisfy us that there it will hold; and it is upon the ticket of this established aucleus of a great party in the future that we now call upon the independent Union loving men of

all parties and clases in the North to rally. Our conservative financial, commercial and man afacturing eitles, in this movement should at once lead the way. Under the immediate excitements resulting from the John Brown forsy, we had numerous Union meetings here, there and every-where, to reassure the people of the South that heir Northern brethren were not all fanation instrations did no harm ; but now they would to much positive good. Let the good work, then be commenced, as usual, in this commercial metro polis, and upon the basis of the Bell and Everet movement, as the most practical Union foundation of this crisis, and we may soon have such a respons

from all sides as will indicate that Lincoln is by no means already elected. We fre gratified to hear that in this city and State the Breckinridge men are very favorably disposed to a fusion with the Bell and Everet disposed to a fusion with the Bell and Everett party. Such a fusion has already been consum-mated in New Jersey, and we expect the same thing to Paumsylvania. Let the Bell and Everett party push forward their cause. Thousands of conservative old line whigs, Americans, demo-crats and republicans, too, may be brought in by timely and energetic action, who may be other-wise left out among the waste ammunition of the comparison

With half the electoral vote of the South to. dorse them there is now a fair chance for the elec tion of Bell or Everett as our next President, by casting the election into Congress through a sys-tem of operations which recognizes a common cause against a common enemy. And the Doug-las party having fused with the Bell and Everett party in Georgia, why should they hesitate to do the same thing in any Northern State?
