From the Wilmington Herald. CLINGMAN A FIRE-EATING DISUNION. IST.-HIS LETTER IN 1856.

The charge has often been made by the Herald and all the other Union papers of the country, that Mr. Breckinridge is the candidate of the Disanionists. The proof to establish the charge would seem, to any one not blinded by prejudice, to be overwhelming. We do not understand the accusation as necessarily implying disunion per se. We have no idea that, if Mr. Breckinridge could be elected we would hear a word of disunion for the next four years.

But what we mean, and what we think is undeniable is this ; that the supporters of Mr. Breck-iaridge are in favor of an immediate dissolution of the government in case of Lincoln's election and that some of the more prominent leaders of the party at the South, prefer the accomplishment of this result to the election of either Bell or Douglas. Some are disunionists per se, and therefore, in the hope of being able to effect their purposes, desire the election of Lincoln above all the others-but both classes deserve the name of disunionists, and it is a little remarkable that all the disunionists of every shade at the South are in the Breckinridge ranks. The Hon. Thomas L. Clingman was asked by D. K. McRae, Esq., during his speech at the "big barbecue" in Raleigh the other day, if he "advocated, or asserted the right to stop the wheels of government, and thus produce a dissolution of the Union by the refusal of Southern men to take office under Lincoln, or to permit any others do-ing so," and he replied by asking McRae if he would accept, and, upon receiving an affirmative answer, said McRae was fonder of office than he was." This, though not the "positive unequivocal an-swer" he promised to give to the question, is yet quite sufficient to show his opinion on the subject. But we have a much more explicit declaration of his disunion sentiments in a letter which he wrote to a gentlemon of Charlotte on the 10th of October, 1856, in anticipation of the election of Fremont, and which we append below. This letter clothes Mr. Clingman with a robe of disunion that fits like the shirt of Nessus It will be seen that he goes the extremest length of the fire-eaters in say-ing that the success of the Black Republicans ould not only justify the action of a single State but would even authorize individual resistance .---He says too, that a mere refusal to hold office under a Black Republican would be an absurdity, and that the idea that it would be necessary to rerolt is equally to. We desire to know if Mr. Clingman does not still ensertain these sentiments. If he does-and his speech at the "big barbecue" is very good evidence of the fact-he is as thorough a disunionist as William L. Yancey himself, and they are both leaders of the Breckinridge par-Are the people of North Carolina ready to endorse this letter or the men who advocate the principles it contains? We think not. But they are asked to do so whenever they are asked to vote for Breckinridge. Let them put the seal of con-demnation on these restless agitators and political tradesman, who are ready to plunge us into the gulf of disunion and civil strife, in order to carry ut their petty schences of ambition.

Let them at the ballot box, extinguish alike these political sensationists, and the fears they are attempting to excite. Let them establish the dortrine of "Old Hickory" who was the terror of all disunionists : "The Federal Union ; it must, and shall be preserved," and let them do all this by voting for the Union candidates, John Bell and Edward Everett.

ASHEVILLE, Oct. 18th, 1856. Mr DEAR SIR :-- When I was last in your town. I stated to you and your friends that, though I might not be able to accept an invitaperintendents and Teachers Life Members or tion to meet the citizens of your county before the Presidential election, yet I would certainly endeavor to do so after that event, provided Fre bable, it is suill the part of wisdom to be prepared for it. I now write to you, therefore, to say that, if all things suit, I will be with you on Thursday, the 13th of November. That is as early a day, probably, as could be selected after the result was known, and preparations made, and still would precede, by a few days, the assembling of our Leglature. Should the Black Republicans prevail, there is no spot of ground I would so soon stand on as in that town where the first Declaration of Independence was made, and in that county which Lord Cornwallis (s man well qualified to express a cor-rect opinion) pronounced "the most rebellious county in America." Our ancestors had far greater difficulties to encounter than we are now compelled to meet. The Southern States have a population four times as great as all the colonies then had, while the best part of the North, I mean the men of courage and honor, scknowledge the justness of our cause, and are with us in feeling. Instead of having to make governments de novo, we have organized State overeignties to act at once. I hold, however, that the condition of things which may possibly occur would not only justify the action of any single State, but even authorizes individual resistance, for any free white American might well refuse to be so degraded as to become the slave of the negro Corshipping Abolitionists. Our forefathers made that revolution to main tain their equality as men, and as communities like-wise. They resisted the payment of a paltry tea tax, because its imposition was an assertion of the British government to rule them. That govern-ment was controlled by a body of manly and high toned men, and yet our ancestors refused to accept even them for masters. But the leaders among our enemies are, to my certain knowledge, the meanest and most contemptible creatures upon earth excepting only those in the South that are willing to be governed by them. A few venal presses, that hope to fatten on the spoils of a government as corrupt as Fremont would stablish, and a few traitors to their section and race, would attempt to produce a diversion in fav-or of our enemies, but they might receivo swift extension from our committees of vigilance until the State government could take the necessary steps to insure tranquility. A proper feeling is already pervading the masses of the South. The idea thrown out in some quarters however, that we should manifest our resistance only by rofusing to hold office under the new administration, is an absurdity. We shall thereby not only deprive ourselves of the benefits of a government, which we were taxed to support, but we shall assume the contemptible attitude of the Asiastic, who unresistingly and in sullen silence submits to oppression and torture. Equally preposterous is the idea referred to in the North that we are threatening to recolt against the government.-Those of us that have stood by the Constitution. are entitled to hold the organization of the gov-ernment. It was decided by the Parliament that James the Second, by violating the Constitution to do a job of painting. Sixty-one feet from the had abdicated the government, and left the throne vacant. So these States that refuse to obey the Constitution, are to be held as having gone out of dome. Upon this ledge the two men had been the Union. Let Massachusetts, New York, and at work for some time, baving previously finishothers, stay out of it, and at the same time, lose the ed the painting above by means of ladders fastenuse of Southern freights for their ships, and Southern purchasers for their manufactures and imports. When their intercourse with us is placed on a foot- at work, Fishback would frequently let go all ing common betweenforeign or hostile governments, support from the dome, and walk out on the very if they do not find sufficient consolation in the idea edge, to show his nerve and bravado. The entrea that they are freed in their consciences from all responsibility for the sin and turpitude of Soutaern slavery, then lot them, by force of arms, get mack into the Union, if they can. With respect to those persons who are for resisto take possession of the government, and obtain the control of the army, navy and treasury, they manifest the height of fatuity. When our enemy, after an open declaration of war, and breathing nothing but threats and denunciations, marches on us with arms displayed and banners flying, is it the injury?

We should have all perished as miserably as did those in the Hungarian.

Three seconds more would have tolled death-knell of most if not all of us, for we wer so enveloped in fog, and far from land, and also no boat at the light-house, that if we had seized the fragments of the wreck they would have been torn from our grasp by the sea boiling as in a caldron over the sunken reefs, hours before our fate could have been known. I knew there was no time to run below for the life preservers-which are hung up by each berth-and contented myself with just stringing up my nerves for a buffet with the waves for three minutes. I can assure you, man showed what he is when expecting the "King of Terrors." Two or three ladies took it heroically and seemed to draw in strength from the scene around them. It was a terrible moment for the captain, (Capt Stone;) for as we swung around, the sails taking

I shall never forget to my dying day the face of the cap-tain when he heard that wild shout. I have seen distress and pain in all their forms, but never a tace like that, so full of horror, perfect agony, and crushing responsibility. The cry "breakers ahead," the stopping of the engines, the escape of the steam, and the shifting of the helm, all occurred in one second. It seemed at the instant as it it was utterly impossible to stop the ship's way in time to save us; but God rules. He put forth His hand, and the vessel trembling as if with mortal fear, yielded to her powerful engines, receded from the rock, and we were saved.

Directors, by which they can draw books and racts annually to read and give to others. A tained this opinion was Mr. Bell; and the remarks tracts annually to read and give pious gentleman, seventy-five years old, recently wrote me saying : "You will please send my annuity as Life Director, in tracts and primers, for I and my daughter shall take great pleasure in making our usual visit to each of my neighbors to supply them with something to read on Sundays and when they may wish. O, I have seen so much good effect from reading tracts! The primers are supply them with something to read on Sundays and when they may wish. O, I have seen so much good effect from reading tracts! The primers are for the poor children, through whom we can frequently better reach the parents. We should always speak anu act kindly to children."

A distinguished christian | atriot in heart and effort, who was recently made Life Director, writes: "No agency connected with the promo-tion of the gospel blessings-and the cause of injustice of partisan denunciation. Christ-with the enlarging of the bounds of Zion and the diffusion of benevolence, has more of my approbation than the American Tract Society Be pleased to send my share in tracts which shall be given out among our people, to whom they are often blessed of God as his most effetive min-

A CHEERING FACT.

It is a cheering fact that notwithstanding the political excitement this summer, yet I have not seen greater anxiety and effort in getting and scattering tracts, the "American Messenger" and "Child's Paper." I have scattered about two hun-dred and twenty-five thousand pages this quarter and sent a great many to ministers and other active christians. During the last month I learned of sixty-three persons who attribute their awakening or conversion to the blessing of God upon the reading of printed truth. One was a prominent gentle nan, over eighty years old, who had been seeking religion more than twenty years, and was about to dismise the subject from his mind. A christian friend of his told me that he got some tracts of our colporteur, one of which he gave to the aged man, who after reading it, told him that the tract was exactly what he needed. He started afresh in seeking God and is now rejoicing in His love, and a gracious revival has been going on in his neighborhood, over which he had great influence.

It is to be an instrument under God to do such work as this in the cabin and mansion, for the good of souls, and of every class, and our whole country, and the world, as an All-wise providence has and may direct, that the American Tract Society exists, and toils hard in sending out its colporteurs, books and tracts in one hundred and twenty-nine languages and dialects. To do this great work the society is dependent entirely upon christian charity. Let each one prayerfully consider the duty and privilege of giving to sustain and extend this cause.

Yours truly, W. J. W. CROWDER, Gen. Ag't of Am. Tr. Sec. for N. C. Raleigh, September, 1860.
