WANTED AT THIS OFFICE-TWO

EXTORTION AND STARVATION. There are very good grounds for the apprehension that there will be fearful suffering this Winter, not only among those who are denominated "the poorer classes," but among those who have heretofore been enabled to live in tolerable comfort. Prices of the necessaries of life are daily rising higher and higher, and there is no telling the point at which they will culminate. Plour is selling in this market at thirty dollars a barrel, corn meal at ten dollars a barrel, and bacon, hog round, at seventy cents per pound. Of salt, there is none in this market, but at points at which it may be found for sale, it sells at one hundred dollars per sack, the sack containing something over two bushels. Now, these are fearful prices as they stand, and but few will have the means of meeting them for any length of time. But these prices will not stand. They will go higher and higher, and we shall not be surprised to see before Christmas baoon at a dollar a pound, four at fifty dollars per barrel, and corn meal at twenty dollars a barrel. The supply of beef may last through the winter, but in early spring will cease. What then ? Aye, let the Speculators and Extortioners think seriously of the question, "What then !" for it concerns them and their ill-gotten gains most nearly. People will not starve, and should not starve while there are bread and meat to save their lives. Food they must have, and food they will have. They may not have the dollar to buy the pound of meat, and yet the pound of meat they will have. This is the plain state of the case, and there is no use in mineing matters. The vile

purse, for men to engage in. There are both meat and bread in the country sufficient to preclude actual want among the people, but the owners hoard them, and await yet higher prices. Let, therefore, the Legislature devise some means to draw out these supplies from their hiding places, and have them in the market at living prices for both seller and buyer, if it would not witness the operation of the sternest of laws, that of Necessity. We have heard several means of driving the wolf Hunger from our doors suggested. Among them we find the following in the Iredell Express :

wretches who are a libel upon humanity and

who have brought this fearful state of affairs

about, need not lay the flattering unction to

their gizzards ("souls" they have not) that

. A LAW TO PREVENT EXTORTION .- The Legislature will convene next Monday. We suppose one among the first subjects that will engage their attention will be to put a stop to monopo-lizing food and clothing, by traders and speculators, and prevent extortion. This can be done, effectually, in the following manner, and in no other way: Pass a law that no articles, the product and manufacture of the State, which are used for food and clothing, shall be exported from the State, nor shall they be sold to any person except for use and consumption, and not to be re-sold for a profit—during the war. Annex a heavy fine, one half to go to the use of the informer, and imprisonment if it be not paid. Do not make it a misdemeanor merely, for then the law would be worthless, and speculators would regard it not and continue to do as they had been doing.

THE EPIDEMIC IN WILMINGTON.

The bulletin from the Wilmington Journal office states that there were five new cases of the Fever on Monday last. The number of interments at the Cemetery was only two. On Tuesday there were three interments and three new cases. On Tuesday night several deaths occurred, owing, doubtless, to the change in the temperature of the weather, it being much warmer on that night than it had been for several days.

The Journal states that many of the citizens have returned, and the streets of the city begin to look lively once more. The Journal, however, fears that the return of so many of the citizens may occasion a fresh outbreak of the disease, as it thinks the contagion is still lurking in the houses, clothes, and above all, in the constitutions of those who have not yet been attacked, and advises those who can still farther defer their return to do so.

We are glad to see that the Editors of the Journal will resume the regular publication of their paper on Monday next.

POOR McCLELLAN.

The "Young Napoleon," "the strategist of the age," has not only "changed his base," but fallen heavily upon his "base;" so heavily, indeed, that if his "base" had been made of india rubber, he would have bounced like a trap bell.

FROM THE ARMY OF VIRGINIA.

The Richmond "Enquirer" says that the secrecy which has veiled the movements of our army during the past few days, is now to a great extent removed. Intelligence has been received that the advanced portion of the army in the Valley has been shifted, and that the points to which attention must now be directed are the Shenandoah Valley, where Gen. Jackson is said to be operating against a portion of the enemy, and to Culpeper, where Gen. Lee stands opposed to a larger force than has yet been marshalled in

On Monday heavy skirmishing took place between the advanced portions of the two armies in Culpeper, resulting in the driving back of the enemy some four or five miles.

RAILROAD ACCIDENT.

The Wilmington Journal states that a ter rible Railroad accident took place on Saturday morning, at Florence, on the Wilmington and Manchester Railroad. The boiler of a dirt train exploded while at the water tank, killing three persons-a Mr. Kirby, of Timmonsville, S. C., a man named Murphy Kelley, and a negro fireman. The engineer, David Carpenter, was blown about one hundred yards, and deposited in a cotton field. Dr. White, who was at Florence on his return from Wilmington, attended to the injuries of the engineer.

The noise of the explosion was heard ten miles. The cause of the accident is not

A United States paper says that Captain Maffit, the Confederate States Navy, has a daughter who is "a chip of the old block." Her father, it says, is celebrated for his fighting character, and the daughter is worthy of her parentage. She was on board the steamer Nassau, when captured by a Yankee ship. "She sat on the open deck of the Nassau, during our firing at her to make her bring to, until the Captain warned her of her danger, and advised her to go to her cabin. She would watch our guns, and as she saw the flame and smoke jut out, would manifest just enough excitement to give the appearance of being well entertained. And she continued to enjoy the amusement through the window of her cabin when she went below. It must be borne in mind that the Nassau had tons of powder on board, to realize the awful denger of her situation. A single shell exploding in that cargo, would have blown her into a thousand atoms. She is represented as a good looking, intelligent, spirited young woman." .

GEN. VAN DORN-RARE MAGNANIM-

The following extract from an order recently assued by Maj.-Gen. Van Dorn, is taken from the Grenada (Miss.) Appeal:

HEADQ'RS ARMY OF WEST TENNESSEE, HOLLY SPRINGS, October 17, 1862. Special Order No. 84.

III. The appointments of Generale Cabell, Phifer and Armstrong to the command of brigades, not having been confirmed, these officers are necessarily relieved. The General commanding thanks these gentlemen for their skillful services and conspicuous gallantry on the battlefield of Corinth, and expresses his sorrow at being com-pelled to relieve them of their commands at this time, when the smoke of battle has barely un veild that bloody but to them glorious field. Not heirs, nor the troops who so nobly fought the battle of Corinth, the fault of failure-that mis-

fortune is his. By order of Gen. Van Dorn.

M. M. KIMMEL, A. A. G. It will be seen by the foregoing order, that Gen. Van Dern takes upon himself all the responsibility for the the "failure" in his late battle at Corinth. He says it arose from no fault either of his officers or his troops, but was his own misfortune.

This is true magnanimity, and as rare as it is genuine and manly. Such an avowal evinces a nobility of soul that is as creditable to the head and heart as the winning of a battle. It is the first instance of the kind since the war commenced where the commanding officer has made public acknowledgement of his failure and confessed that the fault lay at his own door.

Well done, Gen. Van Dorn. We feel, and the whole country will feel, that it can safely trust an officer capable of such rare magnanimity.

TELEGRAPHING .- Communication by electric telegraph has taken place between London and Turen, in Siberia, a distance of 4,039 miles. It is anticipated that an extension of the wires will be made to Ni'tolaievski, on the Pacific, by the end of this year, and that telegraphic communication with New York, by way of Siberia and California, will be established by the end of next

EXPLOSION .- Near Abingdon, Va., on Wednesday last, Mr. Frank Smith's sons, four in number, found a loaded shell in one of our vacated camps, and taking it home, went into the cellar position vacated by Gen. Rosecrans at Corinth, the State he required them to report the num for the purpose of opening it. Striking it with a batchet, the shell exploded and badly injured the four boys-two of them perhaps fatally.

AID TO THE SOLDIERS OF N. C .- To show the watchfulness of Gov. Vance, we would call the attention of our readers to the following notice : Surgeons in charge of the various Hospitals in

Richmond are respectfully requested to furnish me with a list of the sick and wounded, and their names, rank, regiment and company, with the wants of each soldier, whether of hats, clothing, shoes, or provisions. It is the desire of the Governor of North Carolina that the needs of every oldier of our State should be supplied as soon as racticable. Address,

O. F. MANSON. Medical Agent of N. C. Moore's Hospital, Richmond, VaLATE NORTHERN NEWS.

The Richmond and Petersburg papers have to ceived Northern papers of the 6th and 7th, from which we gather the following :

Gold rose in New York Wednesday from 1291 0 131@1311.

The Baltimore American of last Friday, gives he following summary under its editorial head

The accounts from the Army of the Potomac continue to show an active forward movement, with the probability of a great battle at an early day if the Rebels remain in the Shenandoah Valey. Gen. McClellan's headquarters were yesterday at Rectortown, a point at the conjunction of the Alexandria and Winchester turnpike with the Manassas Gap Railroad. Our cavalry advance under Gen. Pleasonton on Wednesday pushed forward to Barboursville, near Chester Gap. Before reaching that town he met the rebel Gen. Stuart with three thousand cavalry and one battery. A splendid charge was made on them by the Eighth Pennsylvania Cavalry, whilst the Sixth Regular Cavalry attacked them on the flank. The robels were completely routed, leaving ten dead on the field, besides seven captured. Among their dead was a Captain, and the Adjatant of a Virginia regiment was captured. Our loss was one killed and five wounded. The conduct of our cavalry in this action was splendid and they only need an open field to show their ability to vanquish Stuart's celebrated legion Gen. Bayard's command of cavalry has occupied Salem, after driving out the First Virginia Cavalry Regiment. Salem is on the Manassas Gap Railroad, between Rectorville and White Plains The whole line of this road is now in our possession, and the left wing of the army will soon be put in direct railroad communication with Washington. The whole of the rebel forces are now driven beyond the Blue Ridge, and our army is in such a position as to intercept the rebel retreat toward the Rappahannock. Two ladies who reached Harper's Ferry yesterday from Martinsburg, having walked the whole distance, report that the rebel pickets left Martinsburg on Wednesday morning, but they were still in strong force at Bunker's Hill. They confirm all that has been stated in reference to the destruction of the Baltimore and Ohio Railroad from Harper's Ferry to North Mountain. A reconnoissance made through Snicker's Gap to Berry's Ford found the rebels in strong force on the other side of the Shenandoah.

Despatches from our army in the Southwest under Gereral Grant, show that it was moving on the Rebels at Holly Springs, Mississippi, and if the enemy retain their position a battle will soon ensue.

The Rebel Gen. Price is reported at General Grant's headquarters to have moved south from Holly Springs, either with a view of attacking Corinth single banded, or forming a junction at Huntsville or Tuscumbia with Bragg, thence to make a combined attack on Corinth. The defences of Corinth are being strengthened on an extended scale. Over one hundred buildings in the line of the fortifications, now completed, have been appraised and torn down. The seminary building is now used as an hospital, but will be destroyed, since it is in the range of our guns .-The Tishomingo House, a very large building, situated in the centre of the town, just beside the railroad track, is to be converted into an hospital. for which it is well adapted.

A dispatch to Gen. Curtis from Lieutenant Cot. Barnes, dated yesterday from Jackson Co., Missouri, states that he has been pursuing Quanrell's band of guerillas with cavalry. The enemy have lost one in killed and one in wounded. Our troops have captured a large amount of horses, and have driven the Rebels out of that portion of the State. Our loss is none.

The New York Times states that upon receiving the information that Captain Semmes, of the Alabama, had disregarded the certificates of a British Consul, and in the face of the British Consul seal, regularly affixed to papers establishing the British ownership of certain property on board of a vessel captured by him, had deliberately proceeded to burn that property with the vessel which contained it, the British Consul, in New York, we are informed, immediately took steps to represent these transactions most forcibly to Admiral Milne, commanding her Britannic Majesty's squadron in the American waters .-The Admiral, upon receiving the representations of the Consul, torthwith ordered three British men-of-war in pursuit of the Alabama, with orders, as we understand, to overhaul that vessel of wrath, and convey her to some British port, where her violation of international law may be judicially inquired into.

Gen. Jameson died at Bangor, Me., yesterday. He has been in falling health since the battle of Fair Oaks, on the Peninsula.

The latest returns from Missouri indicate the election of Boyd, radical Emancipationist, in the Springfield district. The Emancipation Ticket is probably successful in the State. In the St. Louis district the contest between Colonel Blair, conservative Republican, and Knox, radical Emancipationist, is very close.

The Unionists have elected their Governor in Delaware, but the Democrats have the Congressmen and Legislature.

Telegraphic messages were yesterday afternoon passed direct between New York and San Fran-cisco, without repetition. The distance is three housand five hundred miles, the longest electric circuit ever worked. Gen. Andrew Porter has been assigned to the command in Pennsyvania.

Accounts from the Kanawha region state that Gen. Cox had continued hisadvance. The Rebels had not injured the salt works or destroyed the stock on hand. There were thirty-three inches of water in the river Sunday morning, and as soon as slight obstructions could be removed from the channel at one point, boats, loaded with salt, would leave for the Ohio River. Our informant states that the Rebels had eaten the county bare of provisions, and Jenkins' Cavalry horses had consumed all the corn in the valley. Everything in the stores that the Rebels had any use for was 'purchased," payment being made in Confederate

From Fortress Monroe we learn that a widow lady, Mrs. Piggott, residing near Williamsburg. together with her family and all her slaves, have been seized by the Rebels and carried to Richmond. Her offence is supposed to be that she is a sister of Judge L. J. Bowen, an uncompromising Union man.

Rev. Reuben Ford, Rev. S. D. Baldwin, Rev. W. D. T. Swann and Rev. W. H. Warton, have been released from confinement in Camp Chases Ohio, at the request of Gov. Johnston, of Ten-nessee, from which State the reverend gentlemen

INTERESTING FROM WASHIGTON-FERLING RELATIVE TO THE ELEC- slone.

TIONS-GEN. HALLECK ON A FOR-EIGN. WAR-COMMUNICATION FROM THE FRENCH MINISTER_RUMORED CHANGE IN THE CABINET-THE CON-TEMPLATED CONFEDERATE ATTACK UN YORKTOWN, &c., &c.

The Washington dispatches in the Times, of Thursday, are important. It is intimated that dispatches of grave import have been handed to the Government by the French Minister, and foreigh complications are broadly hinted at. Important changes in the Cabinet and in military com. mands are also mentioned as sure to occur during the present week. We give some of them for what they are worth:

The feeling in Washington to-day, in view of the general success of the Democrats in the late elections, is one of gloomy anticipations. Most regard it as a rebuke of the Administrative feebleness of the Government, but fear that the effect will be still further to increase its timidity and irresolution. Secretary Seward was with the President quite early this morning, and Secretary

Chase soon afterward. Dispatches of the gravest importance, and which may effect a change in the whole aspect of the war. were to day submitted by the French Legation to

the Secretary of State.

Gen. Halleck expresses the belief that a foreign war, necessitating a levy en masse of our whole population would not be an evil without large compensating benefits. He expresses the belief that the North has not yet begun to develop its

possible resources. An informal meeting of the Cabinet was held o-day, and an adjournment had to this evening. when it re-assembled at 8 o'clock-Gen. Halleck being present on special invitation of the President. It is elieved that decisions of more ultimate importance than any yet made in the course of the war, have been arrived at, and will be announced before the end of the week. The air is pregnant with rumors of military and Cabinet hanges. Military changes are positive, and it is believed that certain Cabinet Ministers regard these changes as a condemnation; giving them no alternative but to resign.

We have to-day heard the opinions of three Major Generals, and these opinions are the reflex of all military opinions here, to the effect that the view of the rebel programme entertained by Major-Gen. Dix, and exclusively set forth in this column some days age, is the correct one, and that the rebels are actively retiring, with a view of made in view of the expected attack upon that concentrating at Petersburg, where Gen. Long- city by the enemy. Some will interpret it, as they street, with his vanguard, is already in command for did similar removals here last summer, as evidence the purpose of making an attack on Suffolk and of timidity; but in truth it is that "clearing the Yorktown, capturing the supplies and vast stores | deck for action" which presages a gallant and of heavy artillery left behind in the latter place determined fight .- Richmond Enquirer. making an attack in force upon Fortress Monroe, which Gov. Letcher has declared to be the one point essential to the sovereignty of the State of Virginia and the safety of the Confederate Gov-

There can be no doubt that the rebels are again making formidable progress in the construction of a navy. We published the fact a few days since, that the English ship-yards are being used for the purpose of building large iron-clads for the rebel Government; the payment for which it is nearly certain is made from English sources .-Two of these vessels have been seen by one of the persons from whom our information is

We have positive assurance, also, from Richmond, that new Merrimac is finished, and that wo other similar vessels are under way. All these facts, with the recent exploits of Capt. Semmes, clearly indicate a hopefulness and fortitude on the part of the rebels, that promises us a stubborn struggle in their subjugation.

RESULT OF THE ELECTION.

Horatio Seymour is elected Governor of New York by a majority of 6,000 votes. His friends claim a larger majority, but we cannot find it in the returns. The Congressional delegation will stand-Democrats, 17; Republicans, 13; Independent 1. The complexion of the Legislature is not changed, though the Republican majority in the Assembly is considerably reduced.

Gov. Andrews's majority in the State of Massehusetts is about 20,000. To the Senate, 34 Republicans are elected and 6 People's Union men. To the House, 179 Republicans and 34 People's Union men are elected.

The New Jersey election has terminated in the success of Parker, the Democratic candidate for Governor, by about 10,000 majority-a Democratic gain of about 19,000 over the last vote for Governor. Of the Congressmen, four Democrats and one Republican are elected, and both branches of the Legislature will be largely. Democratio -thus securing the election of a Democratic United States Senator. The returns from Illinois indicate the election

of five, and, perhaps, seven Republicans, and seven Democrats, to Congress. Two districts are reported as doubtful. In Wisconsin the Democrats have gained largely. They elect two members of Congress,

tul in Kansas and Wilder (Rep.) is believed to be elected to Congress.

ELECTION IN ILLINOIS.

CHICAGO, November 7 .- The Democrats have carried this State by from 15,000 to. 20,000 majority, and elect probably nine members of Congress. The Republicans elect five. The Democrats elect two thirds of the members of the Legislature, and have a majority of one or two in the

ELECTION AMUSEMENTS IN NEW YORK.

In his instruction to the Tax Collectors in of acres planted in cotton, and also the number planted in corn and other grain. Five counties did not report at all. In the remaining on hundred and twenty-seven counties, it is reported that only two hundred and thirty-six thousand one hundred and ninety-eight acres are planted in cotton, while four million nine thousand and eighty acres were planted in corn, and one milhundred and seventeen acres were planted in other grain. At fourteen bushels to the acre, the Comptroller General estimates the corn crop of this year in Georgia at fifty-nine million and five bundred thousand, nearly double what it was in

1849, which was one of our most fruitful years. This is a splendid production. It would furnish six bushels of corn per head to every man, waman and child in the Confederacy—which would be a supply for four months from Georgia NEWS ITEMS.

The passage of persons under flag of truce be tween the two countries now at war, has totally ceased, for the present, save as to paroled prisoners of the war.
