AN INDEPENDENT PRESS.

There is probably no more powerful engine in society, for either good or evil, than the press.

It is evident that the press should be the leader and teacher of the people in science, politics and religion.

Yet such is our perilous condition as a people, owing to the unfaithfulness of the press of our land, which has sold its independence for a mass of potage.

The time was when the newspaper press was a power in the land, a mighty reformer among the people.

We cannot return to our original purity in political morals, until this safeguard of public virtue returns to its proper functions.

ADMISSION OF TENNESSEE. The passage in the Senate and House of the joint resolution to admit Tennessee, opens a new volume in the political history of the thirty-ninth Congress.

the amendment proposed to the legislatures of the respective States, by the present Congress.

As soon as the resolution was returned to the House with the signature of the President, the indefatigable THAD. STOVES moved that the Reconstruction Committee be discharged from the further consideration of the credentials of the Tennessee members, and that they be referred to the Committee on Elections, which was agreed to, and in less than an hour, Mr. DAVIS reported their credentials all right, and MAYNARD, STOVES and TAYLOR came forward and took the iron-clad oath amid the applause of the floor and galleries.

Doubts were entertained by the President respecting the ratification of the amendment by the requisite two-thirds vote of the State legislature. HORACE MAYNARD, however, who was present during the entire proceedings sets this matter, in a letter which he has written, entirely at rest, and beyond doubt.

Newly fledged, she will again start on her career of prosperity, and give, by her example, a gentle hint to her once insurrectionary sisters, that "wayward honor does not equal move."

Special Notices.

WORKS OF NATURE. In a state of health the intestinal canal may be compared to a river whose waters flow over the adjoining banks through the channels of nature.

COLOGATE'S HONEY SOAP. This celebrated Toilet Soap, in such universal demand, is made from the choicest materials, is mild and emollient in its nature, fragrantly scented, and extremely beneficial in its action upon the skin.

MIRACLES. Changed in a Moment. To the richest conceivable black or brown, by a simple application of CRISTADORO'S HAIR DYE.

CRISTADORO'S HAIR DYE. Manufactured by J. CRISTADORO, 6 Astor House, New York. Sold by Druggists. Applied by all Hair Dressers.

THE AMERICAN WATCH.

It is made on the best principles. In frame all the hands of the watch are not cut in the lathe, but are finished by machinery (itself famous for its novelty, as well as for its effectiveness) and is therefore properly made.

At the beginning of our enterprise more than six years ago, it was our first object to make a thoroughly good low-priced watch for the million, to take the place of those foreign impositions—the refuse of foreign factories—which were entirely unsuitable at home and perfectly worthless everywhere.

How well we have accomplished this may be understood from the fact, that after so many years of public trial, we now make more than half a million of watches by the month, and have sold in this country more than one million.

CAUTION.—The public are cautioned to buy only of the regular dealers, or persons selling counterfeits will be prosecuted. ROBBINS & APPLETON.

BANKING HOUSE OF JAY COOKE & CO., Corner Wall and Nassau Streets, New York.

SPIKE THE GUNS. OF Humbug, impostors are in the field with deadly hair dyes, dangerous to health and utterly destructive to the hair.

CRISTADORO'S HAIR DYE. Will, in five minutes, impart any desired shade from black to jet black, and is entirely safe for the hair.
