LOCAL DEPARTMENT

POST OFFICE, NEWBERN, N. C., JUNE 10, 1866.

Sundays, from 7 to 8 A. M., a 1d 7 to 7 ½ P. M. All letters to be delivered in the United States, including drop lette.s, must be prepaid, or they will be sent to dead letter office, unless addressed to Heads of Bureau at Washington, D. GEO. W. NASON, JE., P. M.

JOB WORK .- We keep constantly on hand a large and varied stock of material, also first-class Job Printers, for all kinds of work in that line. Orders in the city and from the country will receive prompt attention, and satisfaction is guaranteed.

BUSINESS NOTICE .- From and after this date, all transient advertising and job work must be paid for promptly, when the order is handed in. The expense and trouble of collecting little bills is so great that we are driven to this necessity. This rule of course will not apply to regular strides to greatness, and the item from the Day monthly advertising patrons.

CHURCH NOTICE.

Services will be held in the Presbyterian Church by the Pastor, Rev. L. C. Vass, (until further notice,) on Sabbath, at 10 a. m. and 5 p. m. Sabbath School, 8 30 a. m. Lecture Thursday, 8 p. m. The public generally are invited to attend. Persons desiring PEws will please make application to

STATE NEWS.

ELIZABETH CITY. N. C .- We learn from the Norfo.k Day Book, that great energy and enterprise are manifested in building up this little city. Several structures are going up, and en-couraging manifestations of new life and vigor quent, is the eloquence of thought, and not of upon the settee. I did not say, "Hump, pestiare exhibiting themselves.

THE ENFORCEMENT OF THE NEW QUARANTINE REGULATION .- The new Quarantine Regulation pure and simple, his style chaste and beautiful. embraced within an order, published in yester- his diction elegant and his thought rich, origiday's issue, from the Medical Director of the Department of the Carolinas, was on yesterday enforced by the Commandant of this post. Several vessels arrived from New York and were immediately placed in Quarantine.

As a measure tending to preserve the health of the residents of the community, we are pleased to see it enforced, but we can but regret the prevalence of a disease which renders this step necessary, affecting so nearly as it does the commercial prosperity of our city. As we stated in yesterday's issue, the business interests of the place are almost wholly commercial, and such being the case the Quarantine will have the effect of retarding our prosperity. Life, however, is dearer than riches, and if we are afforded health, and the means upon which to exist, we

will have no occasion to murmur. -- Wil. Journal.

In this particular he resembles Dr. Bushnell such an audience can appreciate him), is indeed a feast of reason to the soul. His manner in the

A rich vein of spiritual philosophy, ran like a golden thread of light through the whole sermon, which we had the pleasure of hearing. In this particular he resembles Vinel more than he does Chalmers. His sermons are more philosophical, but not so empassioned and poetical as

A PURELY BUSINESS NOTICE .- It is useless to say that we need money-who does not? We have exercised very commendable and christian patience heretofore, but beg leave now to say to those of our patrons who know themselves to be in arrears for either advertising, job work, or subscription, that they will confer a great favor by coming forward this day and paying up, as they will thus save us the mortification of being compelled to go round town and poke their bills at them. We would run our machine without grease and live without eating until times are better, if such a course would comport with fashionable etiquette, but as it does not, and we cannot afford to be out of the fashion, we must have money. We have a thousand or more dollars due us here from gentlemen who would be highly insulted if we were to say they were not good, that has been due from six to twelve months, which claims we are compelled to demand the payment of, and which we do for the present, in this mild and respectful way.

Col. S. Moore, in charge of the Freedmen's Rureau here for the last two months, and his assistant, Captain F. Moore, have been relieved of duty, and appointed to act in the same capacity at Newbern. These gentlemen are of very unobtrusive deportment, and hence, have not become very generally known here; but those who have enjoyed intimacy with them, have found them exceedingly affable and genial in conversation. The bureau is an exotic institution, that under no possible anspices could be popular with our people; therefore, the tact and fairness evinced by the Messrs. Moore in its management, merit the highest praise, for the negative reason that not a shadow of complaint has been elicited from any source. Indeed, they have run the machine so smoothly that its presence in our midst had been forgotten by most tolks, but for reminders of its evil doings at other places. We take pleasure in publishing the above,

which we clip from the Salisbury correspondence of the Raleig , Progress. Col. MOORE is now in Newbern, and seems to merit everything that gentlemanly deportment. We hope he will be well received by our citizens.

A GOOD APPOINTMENT .- We had failed, heretofore, to notice the fact that Mr. GEO. W. NAson, Jr., has been re-appointed Postmaster at this place, by the President, which appointment was confirmed by the Senate just before the adjournment of Congress. Mr. N. is a prompt, active and efficient officer, ever wide awake to the public interest, and we congratulate the government on the wisdom of its selection.

To MERCHANTS, MECHAN.CS, FARMERS, &c .--The New York Mirror, an advertisement of which will be found in another column, is just the

SEIZURE OF TOBACCO, &C., BY THE COLLECTORS OF INTERNAL REVENUE .- The Deputy Collector of Internal Revenue, for this District, on yesterday, proceeded to the sales rooms of our merchants and seized a quantity of tobacco, found

unstamped, and a quantity of liquor and other articles which were also found without the prescribed stamp. In instances where property was thus seized, a receipt was given, specifying the quantity of the article, and setting forth that the seizure was made for violation, of the United States Internal Revenue Law.

This action on the part of the Collector has given rise to some discussion as to the justice of the course. It is asserted on the part of some of the merchants that the law states that all tobacco manufactured prior to August, 1865, is exempt from taxation. In one instance where tobacco was thus seized we are informed that it was manufactured prior to the war, but the Collector gave as his reason for the seizure that it did not pear the stamp prescribed in cuch cases, that is t should be branded, by the Collector of the District wherein it was manufactured, thus : lished. 'No duty in late insurrectionary States.'

The Collector was assured that a certificate could be procured in confirmation of this fact. but it was asserted by him that this would have good looking. no effect in procuring a release of the articles

taken possession of. We are not sufficiently posted in the law to argue the justice of the case, but presume that it will be fully investigated by the parties ince.ested. We have no doubt but that justice would be done, if the Collector was convinced that he had misconstrued the law. - Wil. Journal. -

OUR American cousins again claim all the credit for successfully laying the Atlantic cable. They claimed all the credit in 1858 when it was thought the attempt of that year had been crowned with success, but the moment it was ascertained that the active current had ceased to flow through the submerged cable, they turned upon John Bull, and laid the failure to his charge, as they have very generously laid all failures. They have patiently waited for ulti-mate success, and now that it has come they lay greedy hands upon it. Well, we can have no bjection whatever to allow their claim, providing they grant that the Great Eastern is English built, English owned, and English manned, that the cable is English owned, and English made, and English laid. If they will only admit so much we shall freely allow them the pleasure o crowing over ther success .- O.towa Canada

power of the orator, but we have never heard a more profound, original, able and instructive preacher. That is certainly a highly favored congregation which is blessed with his weekly Sabbath ministrations. As a debator, Dr. Dabney is even more able, than as a preacher. He is equally at home in the pulpit, and the arena

of public discussion, in the church courts of the christian denomination to which he belongs. He has been endowed, by the Creator, with a great versatility of talent, as has been clearly indicated by his remarkable success as a teacher, professor, preacher, soldier and historian. His life of General T. J. Jackson is a remarkable production-remarkable for its accuracy of statement, and its precision of minute, historical detail. It is in fact the only full, complete and authentic history of the life and times of this great christian soldier that has, as yet, been pub-

Sold by, hands behind her and screeched like a hyena if any one approached to interfere with her operations, and slept about five minutes twice a day. Her usual time to be crawling around under foot was in the early part of the day, when the kitchen work was in progress ; in the afternoon, when the work was done, and we ready for a frolic with her ladyship, the litie nuisance might generally be found sequestered in a corner, hugging a bosom full of matches, or stick-
