

The Times has been designated as public printer and publishes the United States Laws by authority.

Messrs. Griffin & Hoffman, Newspaper Advertising Agents, No. 4 South St., Baltimore, Md., are duly authorized to contract for advertisements at our lowest rates. Advertisers in that city are requested to leave their favors with this house.

Well informed politicians are predicting a heavy Republican majority in Ohio. The election takes place next week.

The amount of internal revenue taxes in litigation in the various United States courts throughout the country on August 31 last, reached the sum \$1,771,993, 06. These are generally suits brought by the Government on distillers and tobacco manufacturers' bonds. It is thought by January next these suits will very generally be decided.

Mr. William M. Lawton, of Charleston, South Carolina, now in England, writes to a friend in Raleigh, South Carolina, as follows: "If our crop of cotton falls below 3,500,000 bales, high prices will surely rule the coming season, but it must not be pressed too freely on sale. The consumption is very large, and spinners fully employed. I know of one firm of sea island spinners who are clearing £1,000 per week at their mills."

The Hon. William B. Washburn, who has just received the Republican nomination for Governor of Massachusetts, at present represents the Ninth Massachusetts District in Congress. He is a native of that State, was graduated at Yale College in 1844, and has for thirty years been engaged in the manufacturing business. He first entered political life as a member of the State Legislature, and elected to Congress in 1862, where he has served since that time.

TAMMANY. With a cheek seldom equalled, in the face of the cross now going on in New York, Tweed calls upon the clerks in the different city departments to contribute two percent of their annual salary to form a fund to insure the election of a new set of Tammany Candidates, in the November election. We are decidedly of the opinion, that neither money nor skill will save Tammany from the complete defeat it so richly merits.

THE INTERNATIONAL JUBILEE. Gilmore the Peace Jubilee man is evidently succeeding in his efforts to get up a grand International Peace Jubilee. In England he has secured the services of the celebrated Band of the Grenadier Guards, special permission for their participation having been granted by the British Secretary of War. This recognition and assistance in his great movement by so important a personage as the Secretary of War will aid Mr. Gilmore materially.

CONTRAST. While the Republicans of New York state are working in harmony, having agreed for a common cause to work in one interest, the Democracy are in a terrible condition. In New York city there are no less than six different distinct Democratic organizations, all working one against the other, and the differences existing among these different organizations are such as are not likely to harmonize; and the result, as can be readily foreseen will be aiding Republicans to certain victory in the coming campaign. This consummation so devoutly to be wished will be but another verification of the truthful old adage. When rogues fall out honest men come by their own.

ENGLAND. It would appear from late news that the sickness of Queen Victoria was more serious than was generally understood, and we have now the somewhat curious statement that the Government was afraid to alarm Great Britain by telling the truth about it. Verily must the governing arm of Great Britain fear a popular outbreak, in view of the death, or incapacity of Victoria to occupy the throne. There is much more of a serious nature beneath the surface of English politics than we on this side of the water dream of, but of which the authorities of Great Britain have evidently some knowledge, and whose presence on the surface they dread.

KU KLUX. A Washington correspondent of the Tribune says that Judge Bond will have some 200 Ku Klux cases to try in South Carolina.

"There will be, this fall, several hundred cases brought for trial in Mississippi and Alabama also. The activity of the Department of Justice has been very great, though its business has been conducted so quietly that its chief results will only be realized when the trials are brought on. Information has been and is being daily received by the Department of

Justice and the War Department, from sources entitled to full credit, which, if published would startle the country as to the extent, designs and formidable character of the Ku Klux organization. The recent orders of the South Carolina courts, issued in fear of martial law being proclaimed, are in possession of the Executive Department. As an evidence of the thoroughness with which they are preparing for some purpose, evidently mischievous and seditious, it is known to military officers in several sections that the local "dens" of the Ku Klux have been engaged in exchanging arms among themselves, so that the several neighborhood bands or battalions might have uniform arms and arrange fixed ammunition therefor. Military men, of however limited experience, will at once understand the significance of such action.

COMMUNISM. It may be a matter of some surprise to many, to learn that communism, now so powerful in Europe, exists in well organized large numbers in this country. We are in receipt of information, the truthfulness of which, there can be no doubt, that in New York city alone, there are twelve societies of Communists, each society numbering one thousand members. This society is not confined to New York alone, but exists to a greater or less extent in every large city in the country. From what we are able to learn, the organization in the United States is but a branch of the European Communist or International Society whose headquarters are now at London.

The societies in New York are composed of the better class of working men, every man who works as an employee either at the desk or in the workshops is eligible to membership, and thus far they are controlled by an educated intelligent class of men. It would be difficult within the compass of a news paper article to give the objects in detail sought to obtain by the society, but they can be summed up in a few words. The organization of society, as one grand family, members of the human family, depending one upon another for mutual assistance and support. The total abolition of all monopolies, and the only superiority acknowledged is an intellectual one.

These are the leading points, there being many other secondary but important ones, but which all tend to the accomplishment of those stated. Judging from the rapid growth of this powerful society in this country, we are of the opinion that in a few years Communism will be a power in the land, and will have a distinctive candidate for the Presidency.

NEW YORK. The New York State nominating Convention at which it was predicted there would be so much trouble, has at last met, concluded its labors and adjourned. One of the chief causes for the supposition that the Syracuse Convention would be very inharmonious was the fact that the Republicans of New York city and King's County (Brooklyn and vicinity) were divided into three separate and distinct cliques or rings, and were known as the Fentonites, the Greeleyites and Conklinites. Each clique elected delegates to represent the Republicans of New York, each set submitted their credentials to the Convention for action, when the Fentonites were altogether ignored, and a compromise effected by giving the other two sets half of the vote each. Thus was the two great cities represented, and harmony for the time secured.

This division of representation on the part of the Convention was, in view of the fact that it was largely controlled by the Conklinites, highly magnanimous, as well as a decided stroke of policy to insure harmony.

Notwithstanding this very fair arrangement, the Greeleyites at the close of the session, being dissatisfied with their half loaf, left the Convention disgruntled, when the remaining set did all the work of representation alone. It was expected in view of this action of the Greeley delegates, that the Tribune would probably repudiate the action of the Convention, and refuse to support the candidates, but its better sense prevails, and while expressing some dissatisfaction at a portion of the Convention's action, and with its candidates it gives them its support.

In concluding an editorial on the subject, the Tribune says: "But the ticket we have is a good one, and must be elected. To that resolve we exert every Republican, and every citizen who seeks the overthrow of our municipal robbers."

"The Administration must carry this election. It is an indispensable point in next year's game. We cannot afford to enter the Presidential canvass, no matter who is our candidate, with New York against us." Thus it will be seen that whatever may have divided the Republicans of New York before the nominations were made, they are now completely united

and showing a determined front will march on to assured victory next month. The following is the ticket nominated by the Convention: Secretary of State—Geo. Wm. Curtis. Controller—George Geddes. Attorney General—Wm. M. Everts. Canal Commissioner—Elbridge G. Spaulding. State Engineer—E. A. Merritt. Prison Inspector—John Staaton Gould. Engraving by Electricity. MM. Delouche and Fellman's process of engraving by electricity may be briefly described as follows: "A well-polished plate of zinc is covered with a layer of white, similar to, though not identical with, that used by engravers on wood. On this white layer is drawn a portrait with a special ink, and the plate is then suspended to the negative pole of a voltaic battery in a bath of sulphate of copper, whereby the inked portion of the drawing is covered with a coating of copper. When this is sufficiently thick, the plate is removed and suspended to the positive pole, in acidulated water. The acid consumes and hollows out the parts not covered with copper, or the white parts of the design. The operation is complete in a few hours."

A traveller coming up to an inn door says: "Pray, friend, are you the master of this house?" "Yes, sir," answered Boniface, "my wife has been dead these three years."

A quarrelsome couple were discussing the subject of epithets and tombstones, and the husband said: "My dear, what kind of a stone do you suppose they will give me when I die?" "Brimstone, my love!" was the affectionate reply.

NEWS.

HOME. One half the people of Louisville wear false teeth.

The Official Count gives New Mexico to the Democracy.

Gen. Clanton was chairman of the Alabama Democratic Executive committee.

Apprehending a collision, the Mormons are sending away their families.

Paymaster Hedge pleaded guilty to all the charges brought against him.

Blind Tom the Pianist is performing at Philadelphia.

From has killed the yellow fever along the Mississippi.

Andy Johnson is going to Wisconsin to canvass for Doollittle.

The trial of Mrs. Wharton, the alleged poisoner has been postponed owing to the ill health of the prisoner.

The South Carolina Republican Executive Committee have adopted resolutions endorsing President Grant and the administration.

Wm. Bennett recently discharged from States Prison where he had been for a number of years for horse stealing, found another man living with his wife at Utica, N. Y., and shot him dead.

A young wife in Troy cured her husband of a disposition to absent himself from home at night by providing him with an excellent dinner, and saying to him afterward, "George if you find a sweeter spot than our home, describe it to me and I will rival it, if I live in the State." A kiss and a few tears completed the victory.

FRONZOS. The Vendome column is to go up again.

The galleons have been introduced in Japan, and gives satisfaction.

The carrying relations of Algeria surrender only their dangerous harbors to the authorities.

The Queen of Denmark is on a visit to Athens.

The cholera is reported to be disappearing from Germany.

Two hundred bodies of Cholera have washed ashore at Martique; the rest are missing, and went down with the ship.

The assassin of Hon. J. P. Noron, the chief justice of the high court of the country, has been convicted after two hours' trial and sentenced to death.

On von Arnim, the German representative at Versailles, has returned to Germany on account of ill-health.

AN FANCY CAPTURED BY FINE. Do not fancy because you feel strong that you are impregnable to sickness. Whole neighborhoods are frequently prostrated at this season by various fevers. Vigorous muscles and strong sinews, broad shoulders and strong lungs, are no defense against the mephitic vapors of autumn. Frames which have withstood the summer heat may succumb now.

Many an athletic man, whose family depends for its support on his industry, now lies prostrate, weak and helpless as a babe, under the periodical assaults of chills and fever, or billious remittent fever. This could not be if all were wise enough to provide against such a contingency, by toning and fortifying the system with Hostetter's Stomach Bitters. This approved vegetable tonic is absolutely harmless, so that it is sheer folly not to take it as a safeguard at seasons when diseases of the liver, the stomach, the bowels, and indeed all the internal organs are generally prevalent. To keep the system in order and insure health or to put it in order when this precaution has been neglected, is the duty of every human being who values life. For both these purposes Hostetter's Bitters is designed, and it answers both. Petty local dealers are everywhere, in many parts of the country, to substitute preparations made of impure and dangerous materials in its stead. Give them a wide berth. They are prepared by unskillful experimenters, who want to turn a penny at the expense of the public health.

The National Commercial Convention. PALM SPRING, Sept. 29.—The convention has adopted the report of the railroad committee. The report of the committee on interior line water communication recommends the dredging of the mouth of the Mississippi, as a temporary expedient, and the construction of a ship canal, connecting the Mississippi with the ocean, as a commercial necessity, from or near Fort St. Philip on the left bank to the Gulf of Mexico, to be maintained at government cost and free of tolls. An appropriation of \$4,000,000 is asked for this work. The action of the previous convention, regarding the James river and Kanawha canal, was approved, and the appeal to Congress for aid renewed. Hon. Beverly Johnson addressed the convention. The convention has adopted various reports also a resolution recommending Congress to pass a bill for universal amnesty. The following resolution was adopted: "Whereas this convention having adopted a resolution asking the general Government to refund the tax collected on cotton, therefore be it resolved, That coal oil, iron, and other commodities having paid a similar tax, be included in the resolution refunding the tax on cotton." The convention has adjourned sine die and will meet again in 1872 in St. Louis.

A Japanese Boarder. A lady of Hon. James Brook's party in Japan looked into a Japanese boarder, and this is her inventory: Little or no furniture, no chairs; no bedstead—nothing but mats to sleep on. A toilet box on the floor, near the wall—about the only article of furniture in the room. In this box was five drawers and two hanger basins on top. In the top drawer of this box was a metallic mirror, like our hand-glasses. In the second drawer, she kept her powder, paint, wax, brush, tooth-powder and brush. Two little drawers came next; in one she had her false hair, and in the other fancy pins, gilt paper, and other fixings for the hair. In the lower drawer was her pillow, which is placed under the neck when sleeping on the mats, so as to prevent the hair from being rumpled. It is made of wood, and covered with paper on the top. The powder looks like starch, and when they use it they mix a little water, with it, and rub in like paste, and they two brushes that they use to rub it off. The paint looks green, and turns red when put upon the lips and cheeks.

New Mode of Recording Speech. If the following paragraph clipped from an exchange, gives an accurate statement of facts we may as well expose to view the fact of the report. He will be transformed into an amanuensis, to write out: machine made hieroglyphics: "A mechanic living on the shores of Lake Zurich, M. Theodor Zuppinger, has just invented a mechanism by which, as the date, uterotype was at first considered to be the applications of which have since become so popular and universal. The machine of M. Zuppinger is no larger than the human hand, and performs the work of an accomplished stenographer. Placed in contact with the vocal organ, it reproduces the slightest sounds enunciated by the tongue, throat or lips—while one is in the act of speaking a ribbon of paper is detached from the machine, similar to that thrown off by the telegraphic apparatus, on which the words pronounced are traced in black and white. The mechanism is in all respects most ingeniously constructed and worthy of being compared with the inventions of Niepce, Daguerre and Morse."

ALA KE. Where on this globe can we go beyond the omnipresent Yankee? Landing at SIRKA, we had walked but a short distance into the town, when we reached the northern depot of Dr. Ayer's medicines in full display among the hats, shawls and coats of the seaboral tribes. The familiar, homelike names of his Cherry Pectoral, Pills, &c., recalled us to the criterion of a state which shows more business than its neighbors, and proves that these simple but sure remedies are even more necessary to savage life than to ourselves who so they visit every fireside.—Correspondent Atlantic Journal.

Important Announcement.

THE NEW MERCHANT TAILORING ESTABLISHMENT. The undersigned is pleased to announce that he has removed to the NEW BRICK STORE on Middle Street, near Pollock, and where he has on hand a fine assortment of CLOTHS, CASSIMERES, &c., suitable for FALL and WINTER CLOTHING and is prepared to execute orders for SUITS and all work in his line. Thanking the public for past favors, I hope, that by making every effort to be better to please a continuance of the same. ALEX. McLACKLAN, Merchant Tailor, Middle Street.

Notice to the Tax Payers of Craven County. NOTICE IS HEREBY GIVEN, THAT THE listed and assessed Taxes for the year 1871 are due. I will attend at my Office in the Court Hall from and after August 10th 1871, for the purpose of Collecting the same. Office hours from 9 o'clock A. M. until 3 o'clock P. M. daily. You are further notified that all Receipts for Taxes are subject to the provisions of the Act known as merchants and License Tax, are not valid until they have been countersigned by the Register of Deeds for the county for not complying with the same, as required by Law, in \$20.00 fine which fine will be imposed. ORLANDO HUBBS, Sheriff of Craven County, Aug. 10th 1871, Aug. 11th.

F. BOESSER, CORNER OF BROAD AND MIDDLE STS., NEWBERN, N. C. MANUFACTURER OF AND DEALER IN FURNITURE, &c., &c. Established in 1853; Eighteen years in the business. Keeps constantly on hand, and manufactures to order all kinds of Mahogany, Walnut, Poplar and Pine Furniture. Stock large and complete. Repairing neatly and promptly executed. Sep-10-71

PHOTOGRAPHS! E. S. WORMELL Most respectfully informs the citizens of this city and vicinity that he has returned from the North-west, with a full stock of PHOTOGRAPHIC STOCK AND MATERIALS, and is now prepared to make all kinds of Photographic Pictures LOOK AT OUR PRICES. One large Picture with 6x10 frames..... \$2 00 Four card size Frames..... 1 00 Thirty-six little Gems..... 1 00 Small Pictures by the dozen..... 4 00 Children under five years 50 per cent extra. All kinds of pictures copied in the most perfect style of Art. Small pictures copied to be life size and touched with India Ink or otherwise. Every one in want of Photographic Frames, of any style, can save money by calling at our Gallery. Remember to come early in the day, and avoid the crowd in the afternoon. Photograph Albums, Cases, Picture Cord, and all kinds of fancy articles selling very cheap. E. S. WORMELL, 28 Craven Street, New-Berne, N. C. Sept. 17 71.

GASTON HOUSE, RICHARDSON & BELL, PROPRIETORS, IS OPEN FOR THE RECEPTION OF GUESTS, and solicits the patronage of the public. Guests of this House will always find comfortable rooms and attentive servants. PRICES MODERATE Sep 16-71

MITCHELL, ALLEN & CO., OFFER COTTON GINS AND PRESSES, HORSE POWERS, BELTING, COTTON BAGGING, TIES, PAINT, OIL, GLASS, &c., &c., &c. AT REDUCED PRICES!

Ayer's Cherry Pectoral, For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has any thing won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a protection against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometimes subject to colds and coughs, all should be provided with this antidote for them. Although Croup is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorder of the Lungs and Throat, that the most obstinate of these yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear. Singers and Public Speakers find great protection from it. Asthma is always relieved and often wholly cured by it. Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses. So generally are its virtues known, that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

Ayer's Ague Cure, For Fever and Ague, Intermittent Fever, Chills, Periodical or Bilious Fever, &c., and indeed all the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies, it does Cure, and does not fail. Containing neither Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed. Unaccompanied persons, either resident in, or travelling through miasmatic localities, will be protected by taking the AGUE CURE daily. For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver to healthy activity. For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed. Prepared by Dr. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world. PRICE, \$1.00 PER BOTTLE.

JOHN ARMSTRONG BOOK-BINDER AND BLANK BOOK MANUFACTURER OVER THE N. C. BOOKSTORE, RALEIGH, N. C. Trial, Execution, Minute and Recording Docket made to order. North Carolina Reports and other Law Books bound in superior Law Binding. Mending numbers of the Reports supplied and odd numbers taken in exchange for binders.

FALL TRADE OPENED. J. E. AMYETT, THE South Front St. CROCKER, has a very LARGE AND ATTRACTIVE STOCK of FLOUR, BACON, COFFEES, SUGARS, MEAL, LARD, BUTTER, CHEESE, MOLASSES, SYRUPS, DOMESTICS, &c., &c. and, in fact everything wanted by the people.
