In the last Legislature, urged thereto by by the white people of all parties, the Democratic and Popul'st members submitted a Constitutional amendment to the people to ascertain whether they wished to permanently banish negro rule as they had in November temporarily ended it. Such men as Cyrus Thompson, John R Smith and Hal W. Ayer were foremost in urging such an amendment, and the white people demanded it in order to prevent other such scenes as made the blood run on the streets of Wilming-"It was a condition, not a the that confronted the white people ory'

Said the spider to the fly."

Mr. Holton makes much of a circular issued by Mr. Simmons dubing the campaign to the effect that the Democrats did not propose any scheme of disfranchisement. The amendment now submitted to disfranchise most of the negroes and no white men-(that is its meaning)-is not the result of premeditation on the part of any set of men. It is the result of the vigorous and not- to-be disregarded command of the great body of the white people that sprung up chiefly by reason of the riot in Wilmington and the danger of like troubles. If Mr. Holton doubts this let him ask Dr. Cyrus Thompson, the Re-Pop-li-can candidate for Governor, for in November, 1898, Dr. Thompson said:

"It is evident that the Democrats will have to eliminate the negro question now. I do not think that the people who have given the Democratic party power will be satisfied with anything else than the elimination of the of the negro from politics in North negro from politics in North CCarolina

Dr. Thompson was right. If that Legislature had failed to submit an amendment for "the elimination of lina" the honest white voters would have felt that they had failed to serve the State at one of the critical points in its history, and Holton, Ayer, Thompson and "Blanche, Tray and sweetheart" would have gone about the State barking and saying: "The Democrats talk against negro rule but they refused to take the only feasible step to eliminate the negro." The only Populist State Senator and the Populist House leaders voted to submit the amendment. The people will vote on it as to its merits, and not besay in the campaign of 1896.
