Wilkesboro Street Work Progressing

Hope To Complete Upper End of Project Before Court Week August 6

Workers are busily engaged in placing the asphalt surface on the street through Wilkesboro.

The Atlantic Bitullic Company, which has the paving contract, hopes to complete and open the section of the street between the federal building and Smithy's Hotel before opening of the August term of court on August 6.

The courthouse section of the street has been completed but is still closed to traffic. Meanwhile the work on the remainder is progressing rapidly and it will not be necessary for motorists to detour over the Oakwoods road many more weeks.

Government To Buy Millions Of Cows

Wallace Says Relief Workers Will Be Put to Work Salvaging Hay

Washington, July 26.—Government purchases of relief cattle in the drought area will total between 4,000,000 and 7,000,000 in the next few months.

This was made known by Secretary Wallace today at the same time other officials were disclosing that thousands of men now on relief rolls were expected to be put to work harvesting hay on vacant fields and city lots to offset some of the feed shortage created by the midwestern dry spell.

Wallace said the federal buying of cattle in the stricken area would "be at least 4,000,000 head and possibly 7,000,000."

"And if the plants are able to process them at the average rate of 200,000 a week," he said, "the job will take six months."

The government has purchased 1,500,000 head of cattle to date, of which less than 700,000 have been shipped to packing plants.

U. S. GETS FAVORABLE TRADE BALANCE BUT LOSES CREDITS

Washington, July 25.—A year of confused tendencies in international trade—1933—was summed up tonight by the commerce department as resulting in a favorable American balance of \$210,000,000 on ordinary goods and of \$412,000,000 in short term credit.

The period saw the depression reach its lowest point, with the banking panic of February, and the subsequent abandonment of the gold standard, followed by wide and rapid fluctuations in foreign exchange values. Accompanying these disruptions were numerous trade and tariff restrictions the world over.

Snakes Abundant At Hay-Dockery

Believed Copperheads Were From Mountains By Forest Fires

HAYS, July 28.—During the past week electrical storms and local showers have been prevalent with very little damage being done except the wind has blown down some corn. On the 25th a fine Jersey cow, belonging to Mr. J. O. Billings, of Dockery, was killed by lightning. The cow was staked on the lawn near the house.

A few days ago Mr. Alexander Wyatt, of Dehart, was treated in the Wilkes hospital for snake bite, he was bitten by a copperhead snake. The "red heads" are getting to be a terror through this community. It is the opinion of many that they were run out of the mountains by the wild fires of the past spring.

Mr. T. C. Shumate, of Dehart, was carried to the Wilkes hospital with appendicitis a few days ago, but was returned home for medical treatment. He seems to be getting along very well.

BOARD UPHOLDS PLAN OF CATTLE INSPECTION

Raleigh, July 26.—The state board of agriculture today unanimously approved the stand taken by Commissioner W. A. Graham relative to the importation of uninspected relief cattle in North Carolina after D. R. Noland, member representing the livestock interests, had stated that cattle farmers had expressed apprehension concerning the possible spread of new cattle diseases in the state.

Mr. Noland stated that Mr. Graham's stand was identical with that taken in other states, where the inspection law had been rigidly enforced to protect the cattle raisers.

At the 1851 exposition in London gas lighting effects which illuminated the buildings were one of the spectacular attractions.

STATE ELECTION BOARD TO CONTINUE PROBE

(Continued from page one)

to the state board both sides of the controversy.

In the hearing held at Raleigh the chairman of the state body ordered that poll books of both Alexander and Wilkes be open for inspection by both sides and ordered that both sides prepare a list of the alleged irregular votes and submit same to the opposing faction.

The state board is apparently determined to get to the bottom of the affair but the general opinion is that the state board is facing an almost unprecedented problem.

Charges of irregularities in the run-off primary are not confined to allegations that Republicans voted. Attorneys in the probe charge coercion, intimidation, and a widespread fraudulent use of the absentee ballot.

Black-Draught Brings Refreshing Relief of Constipation Troubles

Constipation produces many disagreeable sensations, several of which are mentioned by Mr. T. E. Smith, of Boonville, Ind., who writes: "I have used Theodor's Black-Draught many years when needed for biliousness and other minor ills when a laxative was needed. I have a tight feeling in my chest when I get bilious. I get dizzy and feel very tired, just don't feel like doing my work. After taking Black-Draught, I feel much better. This is why I continue to use it when needed." . . . Theodor's Black-Draught is a good, purely vegetable laxative, obtainable for 25¢ a package.

IN 10 OUT OF 15 POWER TESTS NEW GULF GAS WON 1st PLACE

LOADS LIKE THIS—on steep mountain grades tax the power of any gasoline. But in 10 out of 15 power tests Gulf won first honors. See chart below. (All tests certified by a Notary Public.)

RECENTLY, 33 gasolines competed in power tests made on famous American hills from Massachusetts to Georgia.

Object? To see which of various gasolines bought at local service stations in each test area could take a car and heavy load farthest up mountain grades before the motor stalled. The motor was kept in high gear.

Results? Gulf won more of these power tests than 32 other gasolines combined!

Study the chart below. Then drive to any Gulf station—and see for yourself that there's more power in that Good Gulf Gasoline!
