Doughton Defends New Deal in Campaign Speech
Boone, Sept. 15.—Representative R. L. Doughton today gave his first accounting to his constituency as 100 representatives from each of the nine counties in the ninth congressional district packed into the Watauga courthouse to hear his opening speech.

Doughton contrasted the deal, the old with the new, and pointed to reduction in unemployment, increase in wages, gains in bank deposits, commercial channels and foreign commerce as fruits of the new deal. Of the new deal's expense of six billions of dollars, Doughton said it was "only a bagatelle to what has been done."

He hit a blow at the Liberty League as attempting to destroy the new deal, and termed it "a voice of desperation of the special interests in this country because they can no longer get rich at the expense of starvation and nakedness of the people."

Doughton praised Roosevelt as the "greatest leader" in the world, and asserted "he will do his part."

Chairman J. Wallace Winborne, of the state Democratic executive committee, set up the battle cry of "never forget 1928" in urging solid support of the Democratic ticket in the forthcoming election.

V. D. Guire, of Lenoir, district chairman, presented to Rowan county the banner for producing the largest Doughton majority in the 1932 campaign.

Question: What fertilizers are recommended for winter hay crops?
Answer: For these crops sown in the Piedmont and Mountain sections an application of 400 pounds to the acre of a 4-10-4 fertilizer gives best results. In the Coastal Plain section an equal amount of an 4-8-4 is recommended. These fertilizers may be supplemented with a top dressing of from 50 to 100 pounds of a quick acting nitrogenous fertilizer such as nitrate of soda or sulphate of ammonia applied about March 1. A good coat of stable manure may be applied during the fall and winter instead of the commercial fertilizer and will give good results.
