Missing Girl's Body

Nashville, Tenn., Nov. 11.-Finding of the unclad body of a little girl in a shallow grave here late today led officers to move swiftly to determine if the body is that of missing Dorothy Ann Distelburst.

In New York, where Alfred E. Distellurst, father of the missing six-year-old kindergarten pupil went last week in the hope of meeting persons who asked \$5,000 ransom, W. L. Hamilton. an uncle of the child, said:

"That's what I was afraid

would happen all the time." Little Dorothy Ann disappeared while walking home from kindergarten September 19 along a street through a sparsely settled section of East Nashville.

The body was badly decomposed when found and it was taken to a mortuary and several hours later there had been no positive identification.

Pat Beard, a close friend of the Distelhurst family, after viewing the body said it was "the right size" to be that of the missing Dorothy Ann.

Mrs. Dave Rice. Dorothy Ann's kindergarten teacher, and one of the last persons to see her before she vanished, went to the mortuary and expressed the belief she could make the identification if it was possible to do so. However, there were indications that she might not be caused to view the body unless some identification marks could be established.

Beard said "the color of the hair is very close." He said he could not make a positive identification because "I don't know her well enough." Beard works with Distelhurst in a publishing

W. C. T. U. Proves Non-Alcohol Drinks Can Be Attractive

Cleveland, Nov. 13.—Drinks were "on the house" tonight at the national convention of the Women's Christian Temperance Union.

Such concoctions as "mug joy", 'black-bird giggles', 'greeneyed dragon" and "sawdust spe cial" were on the "wine list" posted in the tea terrace in the basement of the Buclid Avenue Baptist church.

The W. C. T. U. has set out to prove to the world that drinks can be just as attractive, taste just as good, and even have just as high-powered names as those served across bars of the smartest cocktail bars-and still not be intoxicating.

"We are serving these drinks." explained Mrs. Blanch Pennington, Harrisburg, Pa., "to prove that a person can be a total abstainer and still hold his own in the social or business world. Hostesses can serve non-alcoholic drinks that will please their guests.

"Take the "black-bird giggles" for instance. You put a pint of over North Wilkesboro a week black current iam and two pints of water together and let them come to a boil. Then drain through a cloth, add two cups of dry carbonated orange drink and a cup of strained lime juice."

Mrs. Pennington demonstrated as she talked. She finally arrivall the accessories, was served by ed at a sort of dark purplish the hostess with Mrs. E. G. Fin- liquid. To this she added some ley assisting. The guests were pitted black cherries and shaved ice. She topped it off with a garnish of orange peel.

> "Try it," she invited. It was good.

Mrs. Pennington went on mixing-and the reporter continued to sample—all the other drinks on the list. She showed how to use gold green tea as a base for drinks: how non-alcoholic creme de menthe could be used to flavor, sweeten and color sour citrus beverages; how apple fuice and raisins boiled together would make a fine drink (if not allowed to ferment, of course).

Meanwhile, in the convention sessions upstairs, 1,200 delegates to the first meeting of the W. C. T. U. since repeal were considering ways and means of continuing their fight against the liquor traffic.

Dr. Izora Scott, director of the organization's bureau of legislation, announced a nine-point legislative program designed to outlaw liquor advertising, and to eliminate lotteries, race track gambling and the narcotic traf-
