ASTOUNDING!

The New 1935 General Electric Refrigerators Are Here!

If Barnum were alive he would say that the new 1935 General Electric Refrigerator was the greatest electric refrigerator on the market for the money. He would marvel at the many new improvements that are offered by the manufacturer—with no outside operation whatever—everything sealed in—no exposed moving parts.

New features of the General Electrics include Monitor Top, All-Steel Cabinet, Stainless Steel Cooling Unit, Temperature Control, Automatic Interior Lighting, Foot Pedal Door Opener, Semi-Concealed Hardware, and Sliding Shelves. New Models now on display.

General Electric may be purchased from \$85.50 up
