Asks Co-operation In Transportation

School Transportation Doing Nicely With Advent of Spring Weather

Prof. C. B. Eller, county superintendent of schools, the county board of education and other school authorities wish to express appreciation to the public for cooperation extended toward making the transportation of school children safe and efficient and asks continued support.

Many buses are being operated throughout the county and school authorities want anybody that has first hand information of any driver violating the rules of transportation to report the infractions. They are not interested in complaints of "chronic kickers" but any criticism that will help in eliminating risks to the children will be appreciated and followed up.
